#### TO BE APPOINTED MINISTER TO JAPAN.

#### JOHN BARRETT, OF PORTLAND.

John Barrett was born in Grafton, Vt., November 28, 1866. His father was the Hon. Charles Barrett, for many years a prominent member of the Vermont Legislature. He finished a course in Worcester Academy in 1884, and entered Dartmouth College in the Fall\*of the name year. He paid his own was through college by writing and journalistic work, and spent one year, 1888, in the South at Vanderbilt University as correspondent for Northern papers. After graduation from Dartmouth with honors in economics and oratory, he went to Oakland, Cal., in the Summer of 1889, and became an instructor in Hopkins Academy. During the next two years he was assistant editor of the Statistician, in San Francisco, and special correspondent of the Tacoma Ledger, visiting in this latter capacity South America, Honolulu, Japan and China. From 1891 to 1894 he was associate editor of the Evening Telegram.

He was appointed Minister to Sinm in 1894, and served till 1898, when he resigned to go as war correspondent to the Philippines. During his service as Minister to Slam he successfully settled the famous claim of Dr. M. A. Cheek, obtaining an award of \$250,000. This was the first clear interpretation of the scope of foreign extraterritorial jurisdiction in Asia, and Minister Barrett was specially the President and congratulated by Justice, Field, of the Supreme Court. His frequent visits to China and Japan brought him into prominence as the first advocate of the development of America's commercial opportunities in the far East. After serving as war correspondent in the Philippines from May, 1898, to March, 1899, he again traveled extensively in China, and on his return to America was invited to address the leading American Chambers of on China and the Philippines. He is an honorary member of the American Asiatic Association, and was

pointed a delegate to the International Confederation of American States held in Mexico, April 22, 1901. Mr. Barrett has written extensively for the magazines and reviews. He is the author of "Admiral George Dewey" and "The Far East and Siam." He now has in preparation "A Wonderland of Asia."

HE DENOUNCES SOCIALISTS IN AD-DRESS TO WORKMEN.

Tells Them That They Are Being "Worked" and Advises Them to Send Workmen to Parliament.

BRESLAU, Prussia, Dec. 6.—Emperor William, addressing a deputation of working men today, made a bitter anti-Socialist speech, declaring it was a lie to say that workmen had to rely on the Socialist party for a betterment of their position.

The Socialists he added had terrorised The Socialists, he added, had terrorized and trod the working men under foot, and as men of honor they must have no more to do with them

The presence of the workmen, Emperor William maintained, showed that they had not disappointed him in the expectation by expressed at Essen, and had helped to keep free from repreach the memory of his friend, the late Herr Krupp. The working classes were always the object of deep interest and solicitude to the Emperor. Therefore, he was justi-fied in addressing a word of warning to the workmen. the workmen.

the workmen.

For years they had let themselves be led by agitators and Socialists, under the delusion that they must belong to that party, I' they wished to better their posttim. That was a great lie, and a serious mistake. These agitators had tried to stir up the workingmen against their employ-ers, against other classes and against the throne and altar, and at the same time they had most unscrupulously ex-ploited, terrorized and enslaved them, in order to strengthen their own power, not for the promotion of the welfare of the workingmen, but in order to sow hatred between the classes and disseminate cowardly slanders, from which nothing, not even the grandest quality, the honor of German manhood, remained immune. With such people the working class, as honor-loving men, should have nothing more to do.

Emperor William concluded by asking the deputation to send a comrade from their midst, a simple, unpretending man from the workshop, into the national parliament. Such a man would be gladly welcomed as a working representative of the German working class. The repre-sentatives of other classes would willingly work together with such representa-tives, however many they might be.

The popular idea that the only cure for chronic catarrh is a change of climate is a mistake, because catarrh is found in all climates in all sections of the country; and even if a change of climate should benefit for a time the catarrh will cef-

tainly return.

Catarrh may be readily cured in any climate, but the only way to do it is to destroy or remove from the system the catarrhal germs which cause all the mischief. The treatment by inhalers, sprays, powders and washes has been proven al-most useless in making a permanent cure, as they do not reach the seat of disease, which is in the blood, and can be reached only by an internal remedy which acts through the stomach upon the blood and

system generally.

A new discovery which is meeting with remarkable success in curing catarrh of the head, throat and bronchial tubes and also catarrh of the stomach, is sold by druggists under the name of Stuart's Ca-

tarrh Tablets, which are pleasant and harmless to take owe their efficiency to the active medicinal principles of Blood Reot, Red Gum and a new specific called Guaiacol, which together with valuable antiseptics are combined in convenient, palatable tablet form, and as valuable for children as for adults.

Mr. A. R. Fernbank, of Columbus, O.,

says: I suffered so many winters from Catarrh that I took it as a matter of course, and that nothing would cure it except a change of climate, which my business affairs would not permit me to My nostrils were almost always clogged up; I had to breathe through the mouth, causing an inflamed, irritated throat. The

thought of eating breakfast often nause-ated me, and the catarrh gradually get-ting into my stomach took away my appetite and digestion. My druggist advised me to try a 50-cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of Catarrh by the use of these tablets that he felt he could honestly recommend them. I took his advice and used several boxes with re-

sults that surprised and delighted me

I alway keep a box of Stuart's Catarrh Tablets in the house, and the whole fam-ily use them freely on the first appear-ance of a cough or cold in the head. With our children we think there is nothing so safe and reliable as Stuart's Catarrh Tablets to ward off croup and colds and with older people I have known of cases where the hearing had been seriously impaired by chronic catarrh cured entirely by this new remedy.

You Never Know the Moment When This Information May Prove of Infinite Value.

It is worth considerable to any reader to know the value and use of medicine, for if there is no occasion to employ it, in the meantime, frail numanity is subject to so many influences and unforeseen contingencies that the wirest are totally unable to gauge the future. Know then, that Doan's Oliniment will cure any case of hemorrhoids, commonly known as piles, or any disease of the cuticle or skin, generally termed eczema. One applicagenerally termed eczema. generally termed eczema. One application convinced—a continuation cures, Read the proof:

T. H. Thomas, attorney, of 000 E. Bennett avenue, Crippie Creek, says: "I just as emphatically indorse Doan's Ointment today as I did in the month of June, 1859. At that time I went to a drug store for a box, which I used for itching hemorrhoids. A few applications gave wonderful reliaf, and a short continuation of the treatment cured me. There have been symptoms of a recurrence since, but a few applications of the remedy never fails to bring positive relief. My opinion of Doan's Ointment then expressed is the same today as it was when it was first brought to my notice."
