CITY NEWS IN BRIEF

OREGON

COLUMBIA

AMUSEMENTS.

MARQUAM GRAND THEATER - Tonight a 8:15 o'clock, the Portland Symphony Orches tra; Elizabeth Patterson Sawyers, soloist. THE BAKER THEATER—This evening at 8:15. Nelll Stock Company in "Shall We Forgive Her?" CORDRAY'S THEATER-This evening at 8:15,

LOOKS LIKE CHRISTMAS TIME.—Every appearance indicates that Christmas will be celebrated this year on a grander scale than usual. Preparations are being made of the most lavish kind. The show windows of all kinds of stores are crowded with Christmas goods to suit all purses and the streets are thronged with people out doing their Christmas shopping from early morning till late at night, and the stores are so crowded that many have to wait to be waited on. There will be no lack of mistletoe to do its part. in the proper celebration of Christmas. Huge casks and crates of this parasitic evergreen have already arrived here from Southern Oregon, enough to fill a big car. The bunches and sprays are unusually The bunches and sprays are unusually beautiful this season, on account of the large number of berries on them. Barrels and boxes of mistletoe are being shipped to all points of the Northwest, where it is not common, and even to British Co-lumbia, Victoria and Vancouver taking large lots. While it is not shipped by dealers to California, many small lots are shipped by private persons to friends in that state. The ancient Druide, who used mistletoe in their religious rites, would probably be shocked to see civilized Christians of these days taking advantage of finding a young woman standing under a bough of the sacred plant to give her an osculatory salute. It is not possible to quote a definite price for mistietoe. A buyer chooses the sprig or bunch he wants and the dealer sizes the price to suit the

and the dealer sizes the price to suit the length of his purse, anything from 10 cents to \$5 goes. WHAT THE MAYOR WANTS TO KNOW .-- During the past few days Mayor Williams has received a great number of applications for positions in the police depart-ment. Most of these come from patrolmen who now wear stars, but there are a few from others who would be willing to ex-ercise the police authority. In answer to all the applicants Mayor Williams has told them to appear before him and be examined as to their qualifications. The questions which the Mayor asks them are as to their previous places of employment, their ages and the recommendations which they may secure if wanted. If the applicant should give satisfactory answers to the questions asked, the Mayor instructs him as to just what the city expects from him if he should be appointed to the police force. "I tell all the applicants," said the Mayor, "that if they should be appointed to the force, they will be expected to make my administration good, successful and determined. I wish to have the force free from the scandal that now clings to it, and any officer who does not perform his duties satisfactorily will be subject to a summary dismissal."

Takes Mountains of Easth.—Estimates of the number of cubic yards of earth which will be required to fill a number of gulches under bridges, and what the cost of such fills will be, are being prepared by City Engineer Elliott, by direction of the Board of Public Works. It is found that to fill East Morrison street from East Water street to Union avenue, will take 44,000 cubic yards of earth. To fill the Willamette Heights bridge on Thurman street, across Balch gulch, will require 184,00 cubic yards. To fill the First atreet bridge across Marquam gulch will take about 120,000 cubic yards. To fill the Goldsmith-street bridge across Montgomery slough, the only road to Lower Afbina, will require 58,000 cubic yards. This job stands a good show for being completed before either of the others mentioned, as there is plenty of earth to be obtained. The following the following the fill of the defendant that he had obtained one permit which expired November 27, and that he obtained two other permits yesterday morning. The arrest took place Saturday afternoon. "I didn't know that i had to take out a permit for each separate building. I didn't know that this is the law," eaid Gates. "If you don't know the law governing your business, you should change your business, you should change your business. Ignorance of the law is no excuse," commented the Judge. Gates was fined \$10.

Two Boys Fined.—Four boys, Charles TAKES MOUNTAINS OF EARTH.-Estimates mentioned, as there is plenty of earth to be obtained. In fact, Captain Foster has offered to furnish all the earth required free of cost. There are a number of other fills to be estimated, and to get them all completed will take a mountain of earth

Mixed Luck With Ducks.—Sportsmen who went duck hunting Sunday met with mixed luck. One party is heard of who shot a wagon load, and a few others who did fairly well; but the majority did not kill as many as usual, and in some places there were very few mallards. "At the opening of the season there was not constituted to the season there was not constituted by the season there was no need to appear in court." If was on my way to buy a bicycle lamp when the policeman got me." explained Crosby. "Most of the messenger boys have lamps now." Celstino and Brook were each fined \$2, and the two other bone and thought there was no need to appear in court." MIXED LUCK WITH DUCKS .- Sportsmer kill as many as usual, and in some places there were very few mallards. "At the opening of the season there was not opening of the season there was not enough water," said one of the unlucky ones, "and now there is too much. Nothing is ever exactly right in this world," he continued, "and if by accident anything does get just right it don't stay so more than a minute." There are many ducks all about, but there are so many pools in meadows and grassfields that the ducks scatter out all over the country, not deigning to look at decoys. A cold snap will cause these pools to disappear and then the ducks will come back to deep water and the troughs of wheat provided for them.

Custom-House Sells Optum.—Fifty cans of prepared opium were sold to Lai Wah by the Custom-House authorities yesterday at \$3.0 per can. This is the lowest price accepted for some time, and the 100 per can. The Chinese merchants have formed a ring to keep down the price of all opium sold after seizure, by the simple method of previously deciding upon one price and persistently refusing to bid against another.

Witness is Arrested.—John Johnston, of Salem, was brought to the Police Station less this the lowest price accepted for some time, and the 100 per can. The Chinese merchants have formed a ring to keep down the price of all opium sold after seizure, by the simple method of previously deciding upon one price and persistently refusing to bid against another.

Witness is Arrested.—John Johnston, of Salem, was brought to the Police Station less the served weeks ago brought \$10 per can. The Chinese merchants have formed a ring to keep down the price of all opium sold after seizure, by the simple method of previously deciding upon one price accepted for some time, and the 100 per can. The Chinese merchants have formed a ring to keep down the price of all opium sold after seizure, by the simple method of previously deciding upon one price accepted for some time, and the 100 per can. The Chinese merchants have formed a ring to keep down the price of all opium sold after seizure, by the simple per can. The Chinese merchants have price accepted of the country pric

Easier to Buy Fish.-The weather of An enthusiastic fisherman who has been pining for some sport induced a friend to promise to go out to the Sandy with him on Sunday. When the man found out that owing to the way the trains were running he would have to be out all night.

MINISTERIAL ASSOCIATION MEDIS.—The Methodist Ministerial Association held a and get home at 4 o'clock in the morning, he flunked—that is, backed out. He was obliged to take a severe dressing down for his weakness and effeminacy, and was told that he was no longer fit to be classed among active fishermen. It will appear to many that it would be better to buy fish than go fishing for them at present, with no prospect of catching any.

ELECTRIC CARS FOR ST. JOHNS.-Electric cars will be put on the line to St. Johns by the City & Suburban Railway Company the first of next week. It is reported that the first electric cars will run over the line next Sunday. The two steam motors, which have run between Portland and St. Johns so many years, will be for sale. It is said that St. Johns is an older city than Portland, because there were two brick buildings there before there were any in Portland. They were originally some dis-tance from the river, but the stream has worn away the bank and undermined jhem so that they are tumbling down. The installment of an electric line between Portland and St. Johns is expected to cause a rapid advance in the price of property in that suburb.

M., will be bread and rolls. Admission, 25 cents. INDIAN BASKETS, sultable Xmas gifts for Eastern friends. Basket-Rooms 121 13th F. W. BALTES & Co., linotypers, printers. 287 THIRD STREET, PORTLAND OR.

OLD MAN BADLT HUBT.—Charles H, Wheeler, B years of age, a tender on the steel bridge, who resides at 572 East Couch street, was very severely injured by falling down a trap in the addewalk on Third street, near Morrison, yesterday morning. He had come from home on a car and was running to catch the car which would take him down to his work on the steel bridge. The scavenger had opened the double trapdoor in the sidewalk in front of the Cambridge block, and as it was quite dark, the old man did nor waik in front of the Cambridge block, and as it was quite dark, the old man did not see the gratings and stumbled over one, falling into the basement. In falling he struck sgainst the other door of the trap, and received a severe gash on the forehead and another on the cheek. His front text was backed out and he was hadly teeth were knocked out, and he was badly cut on the side of the neck. His wounds were dressed by Dr. Morrow and he was sent to the Good Samaritan Hospital. While not likely to prove fatal the wounds are very severe, the flesh being loosened from the bone over the whole of one side of his face, and the cute on his cheek and forehead being five inches in length.

SMALLPOX EPIDEMIC .- The pains taken by health officers to stamp out smallpox, and prevent an epidemic of this disease in this region this Winter as there was last, appear to have been successful. Only one case of smallpox has been re-ported in the city so far this Winter, and it is hoped that no more may be heard of. Several cases of diphtheria of malignant type, and one death from this dread disease, are reported from Albina. Every precaution has been taken to prevent it from spreading. An effort is being made to have the janitors in the public schools provided with small and inexpensive fungating machines, and supplies of formal-dehyde tablets, so that they can keep the school buildings disinfected, by funigating one room each day. To funigate a whole school building is quite an extensive job school building is quite an extensive job, which the Health Commissioner and his small force cannot undertake to do as often as it ought to be done.

CEMENT WORK BOTCHED,-There several persons or companies engaged in the business of laying cement sidewalks, all of whom are generally supposed to be doing good work, and whom the people doing good work, and whom the people generally would like to see continue in the business and prosper. Persons who obtain private permits to have cement sidewalks constructed have to depend on these contractors for good, honest work, as the city does not provide an inspector to look after such work. It is learned that one sidewalk was botched the other day by one of these contractors. The ement cast should be 16 inches in depth six inches thick at the top and eight inches at the bottom; but in the case mentioned, it was discovered that the curb was less than a foot in depth and ran to a narrow edge at the bottom, instead of being wider than at the top. Parties de-

exposed.

CHILDREN'S BOOKS ON EXHIBITION.—The librarian of the Portland Public Library will open an exhibition of children's books tomorrow in the children's room at the Library building. This exhibition will consist of the best of the many publications that have appeared this Fall, and is intended to show Christmas buyers just what sort of volumes are the most suitable for gifts. People who have to make selections of books for the little folks are often at a loss as to what kinds of books are best for youngsters, and generally books selected are inappropriate for the recipients. Books that are interesting and that will be appreciated will be in the exhibition, and all those who have any of this kind of buying to do should make it a point to visit the library and see the

Two Boys Finen .- Four boys, Charles

Ceistino, Clyde Crosby, George Martin and William Brook, were before Municipal Judge Hogue, yesterday, charged with riding bicycles without having a lighted was arrested, I went home and thought

CUSTOM-HOUSE SELLS OPIUM.—Fifty cans of prepared opium were sold to Lai Wah

of Salem, was brought to the Police Sta-tion last night by Sheriff Colbath as a wit-ness in the case in which he accuses late has not been favorable for trout fishing, and the streams are so high that it is ston was afterward released on his own hardly safe to go fooling about them.

Methodist Ministerial Association held a regular meeting in the auditorium of the regular meeting in the auditorium of the Y. M. C. A. yesterday morning. The paper of the meeting was read by Rev. C. E. Cline, pastor of the St. John's M. E. Church, who took as his subject, "How God Reveals Himself in the Bible." The paper caused a lively discussion and the association adjurned only after twice extending its regular time. tending its regular time.

OVER AUSTRALIAN CABLE.-On Monday, December 8, 1902, the British Pacific (Australian) cable will be open for public business to the following countries: Fanning island, Norfolk Island, Fiji Island, Australia, Tasmania, New Zealand. The present rate to show the countries of the c ent rate to above places (except Fanning Island) is \$1 11, which will be reduced to 58c per word commencing on above date. Fanning-Island rate will be \$6c per word.

Marquam Gulch Bridge.—A good start has been made on the work of repairing has been made on the work of repairing the First-street bridge across Marquam gulch, which is about all that could be expected under the unfavorable circumstances of weather. The stagings are all up and the tackles for hoisting timbers adjusted. The repair gang went to work yesterday morning, but it was rather unpleasant weather for such work.

HALF-PRICE book sale, at Ewing's.

R. KOHARA CO.

RIVER GRADUALLY RISING.—The river rose only one-tenth of a foot yesterday, and though the rain, which fell Sunday night and all day yesterday, may cause a further advance on the gauge, it is hardly probable that the water will go beyond the 15-foot mark at the highest. The river at Portland stood 12.8 feet yesterday afternoon at 5 o'clock, 14.3 feet at Albany, and 2.4 feet at Eugene. This shows that the water gradually rose resterday at Portland, fell half a foot at Eugene and rose slightly at Albany. The effect of the latest rain has not, therefore, affected the upper river, while the lower part still feels the effect of the first wave of high water. For the 24 hours ending at 5 o'clock yesterday afternoon 1.56 inches of rain fell. From the disgusted looks of some pedestrians as they crossed the streets, it was evident they consider the Weather Bureau's statement entirely in-Weather Bureau's statement entirely in-correct and that the river was to be measured in fathoms, not inches.

COMING ATTRACTIONS.

Symphony Orchestra Tonight. A most pleasing programme will be presented by the Symphony Orchestra to-night at the Marquam Grand. The intermezzo from "Nalla," one of the orches-tral novelties, is bright and melodious, and the overture to "Egmont" is always popular. Miss Sawyers' numbers will show her versatility as an artist, ranging as it does from the daintiness of the Chopin "Berceuse" to the brilliancy of the "Allegro de Concert." Felix Dreyschock, the famous Berlin teacher, says of Miss Sawyers: "With loving care she grasps the spirit of the composition to be rendered, and her remarkable talents enable her to reproduce in a truly perfect man-ner what has been received by her warm natural perception.

The concert will begin promptly at 8:30 o'clock.

Rip Van Winkle Tomorrow.

The following editorial clipping is taken from the Seattle Dally Times, of Friday, December 5: "It would seem as if Joseph Jefferson, the greatest Rip Van Winkle of the last generation—had transmitted all his dramatic talent and ability to his son Thomas, who is now playing at the Grand Opera House." Mr. Jefferson will be seen at the Margung Grand Theater. be seen at the Marquam Grand Theater tomorrow and Thursday nights in the lovable old character of "Rip Van Winkle," which so many thousands have seen and admired, supported by an excellent company. The advance sale opened vesterday.

Mr. Bartlett's Lecture. Tomorrow morning at 10 o'clock the advance sale of seats will begin for Norman Howard Bartlett, who delivers his celebrated society lecture, "To Hell in a Pullman," at the Marquam Grand Theater next Friday night, December 12, under the auspices of the Portland Lodge of Elks, No. 142 The following is some of the criticisms taken from the Eastern press:

Eastern press:

Carnegie Lyceum was packed to the doors last night to hear Norman Howard Bartlett. For an hour and a quarter the audience of fully 700 people listened with intense interest to one of the keenest and cleverest speakers now on the road.—New York World.

"To Hell in a Pullman" is a powerful lecture, full of human interest, bristling with saroasm and alive with originality... Mr. Bartlett is an individualist, possesses a strong personality, and has a voice susceptible of almost endless expression.—Boston Globe.

Mr. Bartlett is a gentleman, a student of men and books, refined in his manner, conscientious in his calling, and, above all, a practical Christlan.—Editorial in the Times, Hartford, Conn.

"To Hell in a Pullman" is a gem in the lec-ure world.—White Mountain Echo, Bethlehem, Mr. Bartlett is one of the most delightful peakers ever heard in our city.—Journal, Lew-

Edison **Phonographs**

Are as popular as ever. As an entertainer at home they are unexcelled.

Every pleasure that sound can give is condensed on its cylinders, and the privilege of "boxing" your own and your friends' voices for future use is a neverfailing source of enjoyment.

Its variety is inexhaustible, for as long as human genius keeps on producing new music, new recitations, new instruments, the phonograph goes on making permanent the otherwise fleeting pleasure.

The charm of the enjoyment depends on the clearness and accuracy of the reproduction, and for this reason the Edison phonograph gives greater satisfaction than any other device sold for this purpose.
