Sugar moved up 20c per 100 yesterday, an advance of 60c in the past week and 80c in he fortnight. The advance, which was expect ed, covers all grades, both cane and beet. One for the strength of the sugar market is cald to be the short crop of beet sugar in Europe, which in Germany alone is estimated amount to 1,200,000 tons. This shortage caused a material advance of raw sugar all over the world, particularly in Germany, which seems to be the present controlling fac in establishing the values of sugar. The raw sugar is today higher in Hamburg and in ndon than it is in the United States. Amerion is still compelled to draw a good portion supply from Europe. The refiners have to pay this advance, and in order to get out even, they necessarily have to advance the of the refined article. The prices that ave been ruling up to about 60 days ago for the raw article have been the lowest ever exinting, and far below the cost of production.

Hop Sale at Scott's Mills.

SALEM, Or., Dec. 9.-(Special.)-C. D. Hart-man, of Scott's Mills, sold his hop crop of 288 to John Carmichael today. The price punt was 25c. While still firm, the hop market has not been very active for the last two weeks. Growers express confidence in the January market, though they do not expect an advance this month. Sales are being made here at 25c but neither dealers not growers seem to he very anxious to do business. Growers who re ready to sell have no trouble in getting 25c

Movement Due to the Advance in Price of Refined-Developments in

the Money Markel.

NEW YORK, Dec. 9.-Today's transactions in stocks were smaller than those of yester-day. Only a few got as much as a paint away from last night's close at any time during the day. There was a slight advance in the morn-ing in sympathy with special movements in one or two stocks, but a reaction in the after-moon carried the level of prices below last night all around, and the market closed easy but were dull.

but very dull. Quite an active speculation in Sugar was the principal influence in saving the day's dealings from actual stagnation. The movement was accounted for by the announcement during the day of an advance in prices of refined sugars. After this announcement, the slock reacted. The emphatic disclaimers of recent rumors of a compromise among the warring copper fac-tions and a late reaction in the London cop-per market today combined to cause a reac-tion in Amalgamated. The movement of these two stocks had an important sympathetic effect
