

CASTORIA

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of

Chas. H. Fletcher

WHAT IS CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—the Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought. In Use for Over 30 Years.

OUR GERMAN COMMERCE

EXPORTS GAINED FASTER THAN IMPORTS FROM THAT COUNTRY.

Record for the Past Ten Years—Cotton, Provisions and Breadstuffs the Chief Commodities.

WASHINGTON, Dec. 21.—The recent legislation in Germany, which will increase the tariff on breadstuffs and provisions, lends especial interest to some tables prepared by the Treasury Bureau of Statistics, showing the commerce of the United States with Germany, the value of exports of breadstuffs and provisions to that country in each year during the past decade, and the principal articles entering into the commerce between the two countries.

The total imports from and exports to Germany during the years 1892-1901 have been as follows:

Fiscal year.	United States to Germany.	Germany to United States.
1892	\$3,508,905	\$3,578,903
1893	3,807,565	3,877,103
1894	4,107,259	4,196,823
1895	4,397,259	4,486,823
1896	4,687,259	4,776,823
1897	4,977,259	5,066,823
1898	5,267,259	5,356,823
1899	5,557,259	5,646,823
1900	5,847,259	5,936,823
1901	6,137,259	6,226,823
1902	6,427,259	6,516,823

In breadstuffs the chief exports from the United States to Germany are, of course, corn, wheat and wheat flour. The value of the corn exports to Germany during the last decade has ranged from \$2,794,000 in 1892 to \$17,305,229 in 1901, the 1902 exports of corn, being small because of the shortage in last year's corn production. Wheat exports ranged from \$1,659,000 in 1892 to \$7,871,000 in 1901, and \$14,944,000 in 1902. Of wheat flour the figures in 1892 were \$1,011,000, and in 1902 \$2,773,000.

Of provisions, the most important items in our exports to Germany are: Lard, oil, margarine, bacon and sausage-casings. The value of lard exports from the United States to Germany was, in 1892, \$4,429,000, and in 1902, \$16,257,000; of oleomargarine, in 1892, \$2,371,000, and in 1902, \$2,573,000; of bacon, in 1892, \$678,273, and in 1902, \$1,675,000; and of sausage casings, in 1892, \$337,327, and in 1902, \$1,143,000.

The following table shows the total value of the exports of breadstuffs and provisions from the United States to Germany in each year from 1892 to 1902, the figures for 1902, including estimates on some of the less important articles for which the Bureau of Statistics has not completed the details of its analysis:

Fiscal year.	Breadstuffs.	Provisions.
1892	\$3,508,905	\$1,729,118
1893	3,807,565	1,829,437
1894	4,107,259	1,929,756
1895	4,397,259	2,029,075
1896	4,687,259	2,129,394
1897	4,977,259	2,229,713
1898	5,267,259	2,329,032
1899	5,557,259	2,429,351
1900	5,847,259	2,529,670
1901	6,137,259	2,629,989
1902	6,427,259	2,729,308

The following table shows the principal exports from the United States to Germany in 1892 and 1902:

Articles.	1892.	1902.
Cotton	\$35,509,989	\$70,418,136
Provisions	11,770,118	22,500,000
Breadstuffs	8,896,306	22,000,000
Oil, mineral	2,206,726	8,616,006
Copper ingots	580,007	6,873,953
Tobacco unmanufactured	4,000,012	1,280,440
Oil cake and meal	2,328,109	4,553,346
Oil, cotton seed	507,587	1,713,860
Agricultural implements	277,738	1,888,672

FOREIGN STOCKS EASIER.

German Steel and Iron Lower—Sugar Crop Is Short.

BERLIN, Dec. 21.—During the past week the bourse has in no manner been influenced by the Venezuelan situation. Values remained firm under light trading.

The success of the bank combination for the relief of the New York money market made a good impression here, and the prophets of disaster admit that again

they were mistaken. The Vossische Zeitung says it supposes that European financial magnates supported the New York combination, promising to discontinue the withdrawal of loans.

Money continues to be abundantly offered here; the rate for the carry-over reached 5 1/2 per cent, but call money was only 2 1/2 per cent. Foreign exchange had a downward tendency, and domestic loans were firm. Foreign remittances developed considerable activity during the week, and almost all industries have gained, particularly textiles and chemicals. Several electrical and coal shares weakened upon warmer weather and the decline in coke shipments. Irons gained several points, notwithstanding the fact that some price reductions were announced during the week. The steel rail syndicate reduced the price of rails by 1 mark, and the Siegen syndicate reduced the price of foundry iron 2 marks. Shares of the Hamburg-American and North German Lloyd Lines advanced moderately upon Hamburg buying.

The International Association of Sugar Statistics estimates the European crop this year at 5,174,743 tons, a decrease of 1,308,000 tons from last year. In Germany the yield is estimated at 1,703,290 tons, a decrease of 588,480 tons.

BICYCLE REORGANIZATION.

Plan Formed for New Company With \$225,000,000 Capital.

NEW YORK, Dec. 21.—The reorganization committee of the American Bicycle Company has adopted a reorganization plan and filed it with the Central Trust Company of New York, which provides for the organization of a new company to acquire the properties of the old company by purchase. The new company will issue \$225,000,000 of cumulative first preferred stock, to be issued only for cash, to be preferential both as to dividends and assets, but to be redeemable all or in part at 110 per cent of the face value of the stock. The new company will also issue \$225,000,000 of non-cumulative 6 per cent preferred stock, preferential as to both dividends and assets, and \$10,000,000 common stock. Holders of the present 5 per cent debentures will be entitled to par in second preferred stock. Preferred stock is entitled to \$50 in new common stock for each share, and to \$9 first preferred stock in return for a required assessment of \$9 a share. The common stock is also assessed \$9 a share, and may receive \$9 in new first preferred stock, and \$25 in new common stock. The stock of the new company will be held under a voting trust for five years. A syndicate has underwritten the cash payment required.

More Buoyancy in London.

LONDON, Dec. 21.—The tone of the stock exchange at the end of the last week was cheerful, the feature being the general improvement in Americans. Those securities were uneasy in the early part of the week, but closed firmer. The feeling that the sale of the money stringency abroad has been eased, together with increasing confidence in the judgment of Wall street, and the hope that there will be no increase in the bank rate in New York and Buenos Ayres this month has added strength to the trading. At one time South American securities were threatened by the Venezuelan situation, but they stiffened on later developments, coupled with the crop report from the Argentine Republic. Canadian rails advanced in sympathy with Americans, and home rails were helped by satisfactory traffic returns and the prospect of better dividends. Africans were stronger in the expectation of better conditions in South Africa. The fact that there is no longer any fear of an increase in the bank rate this year, together with the prospect that the market will right itself when money flows in January, and the indicated rise in consols, contributed to the buoyancy at the end of the week.

Since three men have hanged themselves in Gibbet lane, Halesowen, Worcestershire, England, it has been decided to change the name of the thoroughfare.

Any one can take Carter's Little Liver Pills, they are so very small. No trouble to swallow. No pain or grating after taking.

\$1,000,000 UP IN SMOKE

GREAT FIRE IN KNOXVILLE, TENN., THIS MORNING.

Full Extent of Loss Not Yet Known, as the Flames are Still Raging—Help From Chattanooga.

KNOXVILLE, Tenn., Dec. 21.—Fire which broke out at 1:30 this morning in the four-story factory of the Knoxville Mills, on Commerce avenue, quickly spread to surrounding structures and at 3:15 threatened to destroy property that will bring the total loss up in the neighborhood of \$1,000,000. The burning building is just across the street from the central fire station, and no sooner had the men of this station turned out than a general alarm went out calling the entire fire department to the scene.

In a very short time the large building was completely gutted and the fire had spread both east and west, taking the building occupied by Broyles, McClelland & Lockey on the west and that occupied by the David Commission Company on the east. The flames had eaten their way through the walls on each side and made the first evidence of their appearance into new fields by a shower of flying sparks and falling embers. Gaining good foothold by means of these auxiliary fires, the blaze made a second grand burst, hurling flames in the rear of the buildings to the ground by the force of the explosions caused by the terrific heat.

At 2:30 o'clock the buildings on the east side of the street between Commerce and Wall avenues seemed doomed. Water poured on the threatened structures turned into steam as soon as it hit the red-hot walls. A few minutes later the present five-story building of the George Brown Hardware Company, located on Gay street, caught at the rear of the fifth floor. The fire soon spread through it, dropping to the fourth floor, then down to the third, and at 3:15 the building was totally ruined. In the meantime the east of the burning structure the building of the large wholesale clothing firm of McFeer, Hood & Co. had caught fire on the top floor, and it too was slowly devoured by the flames.

At 2:45 the Davies Furniture Company's building was in flames. Then followed the plant of the Claiborne, Tate & Cowan Clothing Company.

Chattanooga was asked for aid at 2:30, and the answer came that an engine company would soon leave that city.

The R. H. Tate & Co., wholesale liquor house, was next to go. This same building is occupied by the Shankline Grain Company and the Merchants Transfer Company.

Up to 2:50 the loss is fully \$1,000,000, probably more. All the firms are well insured.

The buildings which are doomed are occupied by Haynes, Henson & Co., wholesale boots and shoes; at 2:35 Gay street, the plant of the Claiborne, Tate & Cowan Clothing Company.

hundreds. No one has been more than slightly hurt.

The origin of the fire is a mystery. Charles Parham, owner of the Knoxville Pants Company, in which building the fire started, visited his place Sunday. He says there has been no fire in it since Saturday.

This disastrous fire is within 300 feet of where the \$1,200,000 fire of 1897 started. The same property destroyed then was threatened this morning.

At 4 A. M. it is probable that the fire will be stopped at the Haynes-Henson building, although the chances are not too bright. All the plate-glass windows across Gay street from the fire have been broken by the heat.

THE SERVANTS WERE THE ONLY PERSONS IN THE BUILDING WHEN THE FIRE BROKE OUT, THE YOUNG LADIES OF THE SEMINARY BEING AWAY ON THEIR CHRISTMAS VACATIONS, AS WERE THE INSTRUCTORS. MORE THAN 100 STUDENTS WERE REGISTERED AT THE SCHOOL, AND THE DAMAGE TO THE ARTICLES IN THEIR ROOMS, ALL OF WHICH WERE EXPENSIVELY DECORATED, CANNOT BE ESTIMATED.

TO PRODUCE "THE MIKADO."

A Great Cast for the Gilbert and Sullivan Opera at the Metropolitan.

New York Sun.

Maurice Grau is not going to devote all his resources to the Verdi and Mozart cycles at the Metropolitan during the season, but he is now considering the production of a novelty for the audiences that care for less serious music. He is now at work arranging for a production of "The Mikado," with the following cast: The Mikado, David Bispham; Poo Bah, Robert Blass; Nanki Poo, Jacques Bars; Ko-Ko, Albert Reiser; Yum-Yum, Fritz Schott and Camille Sagard; Katisha, Louise Homer, and Peep-Bo, Carrie Briddlewell. Miss Schott and Miss Sagard will alternate in the role of Yum-Yum, and Fritz-Sing, Alfred Hertz will be the conductor.

The opera will, of course, be sung in English and will first be performed on a Saturday night. Mr. Grau's decision to give the opera was based on the great financial success made by the English company at the Metropolitan two years ago, when it was sung for two weeks to large audiences. This will be the first performance of opera in English ever given at the Metropolitan under Mr. Grau's management.

Such a collection of singers was never heard in the opera before here or any where else except in the performance of the work of the Royal Opera-House in Berlin.

The Poles of Partnership.

Montreal Star.

The New York Evening Sun's opinion of President Roosevelt's message is that it is "seven pounds lighter than a straw hat," while the New Haven Register finds in it "that serene and lofty note of leadership which at the present time in our National history is so much needed." It is a pity these two gentlemen could not meet and arbitrate the matter. It cannot be said there is nothing to arbitrate.

SNOW TEN FEET DEEP

BURIED TRAINS IN CUTS IN COLORADO.

Blizzard Raged Also in Wyoming and Western Kansas and Nebraska—The Burlington Suffers.

DENVER, Colo., Dec. 21.—The blizzard that raged on Friday and Saturday in Eastern Colorado and Wyoming and Western Kansas and Nebraska was the most serious in years to the railroads, as far as the interruption of traffic is concerned. All trains on the Union Pacific and Burlington Roads were delayed at least 24 hours, and some trains due yesterday morning are just getting into Denver this afternoon. This is true of trains over the Kansas City branch of the Union Pacific. Along this line snow drifts from 6 to 10 feet deep made the movement of trains impossible until the track could be cleared.

Perhaps the storm was more severe on the Denver & Alliance branch of the Burlington Road. This line runs to the peak hills, and trains which left Denver on Friday were only released from their wedged position in the drifts today. One train, which was completely hidden from sight by the snow, was relieved by snow plows from Alliance, Neb. A supply train was run from Mercer, Neb., with fuel and provisions to provide for the needs of imprisoned passengers. It required the hardest work imaginable to reach the stalled train through the blinding storm and almost impenetrable drifts.

The attention of the railroad officials today has been directed almost exclusively to getting trains going on schedule time again, and by tomorrow it is expected that the usual conditions on the Burlington and Union Pacific will prevail.

Damage by Raging Ohio.

EVANSVILLE, Ind., Dec. 21.—The Ohio River, which has been overflowing the lowlands above and below the city for the past week, came to a standstill today. By Monday noon it is expected the water will begin to recede. The damage to farmers has been severe, and timbers and lumbermen along Grey and Wabash Rivers also report heavy losses. A great deal of corn in shock and in the field was lost.
