The new charter is soon to go into effect and in the shake-up of things many gentlemen hope that they will be able to capture some job or other, be it policeman or fireman or poundmaster or clerk or janitor or any old thing. The charter will confer large powers on the Mayor, To help him exercise these powers he will engage the best men of the city. As the success of the charter will depend on how the new government gets started, and as the Mayor desires to ret an example for future administrations to follow, he is determined to choose the very best men he can get for the heads of departments. the heads of departments.

Much of the authority to be given to

The Mayor is now considering appointments to the Executive Board. This body will have 10 members, besides the Mayor. It is bruited about and confirmed by good authority that the following men will be
