LOCATORS EXCHANGE SHOTS

Desperate Cowboys Carry Things by Storm and Locate Every Open Section-Country Looks Like Bivonac of War.

SALT LAKE, Utah, Jan. 1 .- A special to the Tribune from Evanston, Wyo., SBYN:

The rush for claims in the Uinta off fields still continue, and from the present outlook more than a week will elapse before the locating will have been completed. So far as known, there has been no dshed, although shots were exchanged in many cases.

Up to midnight last night a person could well imagine himself in the heart of a hostile country. Fires, marking the corners of claims, were lighted by the thousands, and these, together with hundreds of locators camped near them, reminded one of a bivouse at war.

Colonel Ketchum, at the head of 12 desperate cowboys, well armed and mounted. carried the Aspen country by storm. At midnight they rode down the section lines, setting stakes as they came to the corners. As the first stakes were being driven, they were greeted by a volley of gunehots from opposing locators, but the bullets went wide of their marks. Swinging to their saddles, the party charged forward; nor did they cease until they had located every section open for filing. Then, retracing their way, they found that the opposing parties had in many cases pulled their stakes and burned them in the fire. These were replaced, and the triumphant party returned to file their claims on record.

In the Spring Valley country there were fist fights on every side, although the men refrained from the use of their firearms, as far as known, but, up to this time, not one locator in 10 has returned, and the next few hours may bring stories of conflicts. C. F. Mossman, at the head of 49 cowboys, rode off to the southward last night, intent on carrying everything be-

M. F. White and party left Cumberland at a late hour last night, riding toward Evanston, but have not yet reached this city. It was their intention to locate all available land between that town and this, a distance of over @ miles. Many parties in the Round Mountain country have not been heard from. The whole oil field is the scene of intense excitement, and it is not believed the trouble can pass without bloodshd, as a feeling of deadly hatred has existed between the locators

### SLOW ASSESSMENT REPORTS. Malheur County Will Not Report Before February 1.

SALEM, Or., Jan. 1.—(Special.)—There has been an unusual delay this year in securing returns of assessment summaries from the various counties. The reports showing the total valuations of property in the different counties should be filed in the office of the Secretary of State by the middle of December, but there are three counties yet to be heard from. When Secretary of State Dunbar was unked today when he expected to have all the returns complete, he replied that he has just received a letter from Malheur County saying that the Assessor of that county has not yet completed the assess-ment roll. The law provides that the as-sessment rolls shall be completed by September 1, unless the County Court grant an extension of time, which is not author-ized beyond October 1. Malheur County has taken three months longer than the legal period. The County Board of Equalization must now give notice of the sit-ting of the board, and then give taxpayquestions of assessment, so that it will probably be some time in February before Malheur County will file her assessment summary. Considering the amount of property to be assessed, Malheur should be one of the first counties to report.

The delay this year will make no difference in the state levy, however, for un-der the present law no mill levy is made. The state taxes are apportioned among counties upon a fixed ratio and the ste Board of Levy need not await the filing of the assessment summaries, as was the rule under the old law.

### ANXIOUS TO WORK AGAIN. Miners at Keswick Conclude to End

Their Strike. ASHLAND, Or., Jan. 1.—The striking imeltermen and miners of Keswick and fron Mountain have asked the management of the Iron Mountain Company through a conference committee to be allowed to return to work, the only condition specified being that there shall be no discrimination against union men. As the company has always maintained that it made no discrimination, that it would simply ignore the union, the strikers are asking to be allowed to resume work

without any terms.

The main issue of the strike was a recognition of the union, which the company refused to grant on any terms. Many of the miners now admit that the strike was a great mistake, and the only result has been to make much district. n to make much distress for a number them who have families, which have en obliged to relinguish their homes me 800 men have lost their positions by this strike. As a large number of the operators have dispersed, it is not excted the company will resume work for

### HORSETHIEF STILL AT LARGE. Officers Unable to Locate Leader of

Southern Oregon Gang. GRANT'S PASS, Jan. 1.—(Special.)—Ed-ward Lyons, of this city, who is supposed to be the leader of the gang of horsethieves who are operating in the ranges of Eastern Josephine and Western Jack-son Counties, and who made his escape m the officers while being taken to jail a few days ago, is still at large. In spite of their diligent search the officers can get no trace of him. Lyons' parents live in this city, and be has relatives in other parts of Southern Oregon, who would nat-urally shield him. Sheriff Lewis, of this city, yesterday found two horses that had been stolen from a ranchman of Klamath County, and for which the officers have been searching for some time past. The horses were large draft animals and were found in Douglas County in possession of a liveryman who bought them of a couple of strangers, and who are supposed to be of strangers, and who are suppo members of the organized gang.

Pasadena Rose Procession Surpasses

All Previous Tournaments. PASADENA, Cal., Jan. 1.—Dense crowds of visitors and residents of Pasadena witnessed the tournament of roces procession today, which surpassed in every point of attractiveness any preceding tournament parade. In the early morning hours the visitors began pouring into the city. In spite of a special service, the capacity of the railroads was overtaxed. It is esti-mated that fully 40,000 people witnessed the floral parade. The procession was a lengthy one, 30 minutes being consumed by the flower-bedecked horses and car-riages, automobiles, bicycles and carts o pass a given point. The floats, with their handsome and artistic decorations of Southern California's wide variety of floral productions, made an impressive appearance as they glided smoothly through the city. The Navajo and Moqui Indians, with their squaws and papoos represented aboriginal America in the flower festival, and attracted much attention. Band concerts a polo game and exhibition drill concluded the carnival.

LEADING CANDIDATES WANT SENA-TORSHIP SETTLED EARLY.

Bornh, Heyburn and Standrod Make Such Statements-Shoup Wants to Hear From Friends.

BOISE, Idaho, Jan. 1 .- (Special.)-There has been much talk of a possible refusal of one or more of the Schatorial candifates to go into caucus to settle the matter. And Statesman in the morning will publish nome statements showing that Boran, Heyburn and Standrod favor a caucus, while Senator Shoup has not determined what position he shall take. The statements are as follows:
"W. E. Borah-I am thoroughly in favor

of settling the question of the Senatorship in caucus I have been of that mind from the beginning, and I have had no reason in any way to change my views. Our Legislature has a great deal of work to do, and it goes without saying that very little will be done until this matter is settled. There can be no possible rea-son for delay, and no reason why the Republicans should not settle it, and settle it quickly. We will all be satisfied, I pre-sume, at least I will, with what a Republican caucus does, and the people of the state will be satisfied. They will not be satisfied, however, if the matter is continued through a prolonged and un-pleasant fight, which will embarrass legislation and embarrass and prejudice the future of the party. The people of this state expect a great deal from the Re-publican party, and from this present Legislature, and it is the duty of every man to expedite matters and not permit his personal ambition to outweigh the interest of either his state or his party. ### SPECIAL CAR FROM THE NORTH. Members Idaho Legislature Getting on the Ground Early.

BOISE, Jan. 1.-(Special.)-A special car arrived from the North this evening carrying a large number of the members from that section and several others interested in the matters to come before the There are a few others yet to come from that section. As yet, there are none from the Southeast here. Judge Standrod arrived last night and opened his headquarters this morning. J. H. Brady, of Pocatello, is with him, but his campaign will be in charge of F. S. Deitrich, of Pocatello. Judge Heyburn's campaign will be managed by George W. Thompson, of Lewiston, who arrived tonight. A feature of the day has been the announcement by Senator Gilbert F. Smith, of Washington County, that he is for Borah and will make a fight for his election. The Senator announcement of his position has heretofore been made. The men from the north have very little to say concerning the Senstorship. A majority of them appear to be sizing up the situation. Judge Lyttleton Price, of Halley, will be here Saturday, and, it is understood, will have charge of Mr. Borah's campaign.

"Weakness" in all its phases and in practically every case that comes to us for treatment is merely a symptom resulting from a state of chronic inflammation existing in the prostate gland. This inflammation may be a lingering result of some contracted disease, or may be brought on by early dissipation, excesses, etc. Our treatment is principally a local one. It removes all inflammation, swelling and tenderness from the prostate gland, establishes normal circulation throughout the parts, brings organs back to normal size when wasted, and restores permanamently and completely all natural functions. By this method alone is it possible to bring complete restoration of strength and vigor.
