State Treasurer Moore Makes Biennial Report.

SHOWS OREGON PROSPEROUS

Not a Dollar Delinquent Tax Against Any County Since 1897-Amount in Treasury September 30, 81,137,575 64.

SALEM, Jan. 6 .- (Special.) -- State Treasurer C. S. Moore issued his blennial report today, showing the condition of the various funds in his possession and the trans-actions of his office during the past term, covering the period from January 1, 1861.

covering the period from January 1, 1861, to September 30, 1902. In his introductory statement the Treasurer says:

"The general prosperity prevailing throughout the country is apparent in the financial affairs of the state, as shown in this report. It will be noticed that there is not a single dollar of delinquent state tax against any country in the state. tax against any county in the state since the year 1897, and of the amounts delinquent for and before 1897, as well as nearly all of the interest charges for the same time, only the state tax against Clatsop and Lake Counties may be considered valid, all of the other charges of tax and interest having been rendered void by the Supreme Court in the cases of Dayton vs.
Board of Equalization. 35 Or. 121, and
State vs. Marion County, 36 Or. 371. I
would recommend as I did it, my last report, that the Legislature authorize me, by
appropriate resolution, to credit off all these void charges, so they will not have to be carried along on the books. The status of the notes in the trust funds also reflects the general prosperity of the state, and I would specially call your attention to their splendid condition, the per cent ent interest-payers being prac-

There are outstanding bounty warrants to the amount of \$580, and warrants against the swamp land fund to the amount of \$38,940 08. These latter were issued in repayment of money paid to the state for swamp land to which the state could not give title. These warrants are drawing 8 per cent interest, which has already accrued to the amount of about \$19,618.42. The only money applicable to the payment of these warrants is that obtained by the sale of swamp land, but the receipts to that fund are very small. Attention is called to the fact that these warrants must be paid some time,

The general financial statement shows that the balance in the treasury January 1, 1901, was \$944.623 40; that the receipts during the period ending September 30, 1902, were \$3,408,796 86, and the disburse-ments \$3,215,843 62, leaving a balance in the treasury on the latter date amounting to \$1.187,575 64. Of the total receipts, \$1,150,that the state revenue for the purposes of expenditure amounted to \$2,250,000, in round numbers. Of the total disbursements, about \$980,000 was in the form of loans, leaving the disbursements for main-tenance of the various departments of the state at about \$2,230,000, this including over \$440,000 taken in as interest on the trust funds and disbursed to the common schools. From an inspection of this statement it appears that in almost every instance the interest has been paid up to within the last three to six months, so that there are very few delinquencies. An account has been kept during the past two years of every note the state holds upon a loan, so that it can be determined at any time what amount the school fund has outstanding. GOVERNOR MORRISON'S MESSAGE. Deals With Legislative Needs and Is

Considered a Strong Document. BOISE, Idaho, Jan. 6.-At a joint sesthis afternoon Governor Morrison read his message. The message deals with many legislative needs of the state, and is re-garded as an exceptionally able document.

CAME TO OREGON IN 1844.

Peter Neal, who died in Douglas County December 22, 1002.

A...... Regarding the nature of legislation, the message recommends that changes be, so far as possible, effected through the amendment of existing laws, with the en-actment of a few needed new laws. Proper objects of legislation are declared to be the abolishing of certain offices the duties of which may be descharged in connection with other existing offices, and making wider and more useful the employment of the executive department Changes in office are recommended as fol-lows: That the office of Bank Commis-sioner and ex-officio expert traveling accountant be created in connection with a state banking law, which is urgently rec-ommended; that the Insurance Commissioner's office be abolished and the duties attached to the State Treasurer or to the Bank Commissioner, if that office is cre-ated; the abolition of the State Game ated; the abolition of the State Game Wardenship and deputyship, and placing their present duties upon the Sheriffs of countles and the Constables; the abolition of the State Library Commission and at-taching the duties to the State Board of Education, making the president of the State University an adviser in this conent commission upon the assistant in the State Superintendent's office.

Special directness and emphasis are manifest in the section devoted to the cus-tody of public funds, the present practices of the State Treasurer and County Treas. urers being unqualifiedly condemned. Recommendation is made that such provision be enacted that public deposits be not withdrawn from circulation, yet thorough-ly safeguarded, and to this end that County Treasurers be required to conduct their offices at the County Courthouses, and that deposits be placed with banks which will pay the greatest interest, and that the interest go to the countles and not to the Treasurers.

Much attention is paid to the subject of irrigation and the necessity for effective co-operation with the National Government. Other recommendations of more than ordinary importance and interest are as follows: A fair and certain method of mining taxation; for liberal appropriations for state representation at the Louisiana Purchase and the Lewis and Clark Expositions, and for the regulation of property rights of husband and wife so as to give

Session Work of Routine Character. BOISE, Idaho, Jan. 6.—(Special.)—The Legislative sessions today were of a rou-tine character, being devoted almost entirely to the adoption of rules and hearing the Governor's message. In the Senate the discussion of the rules at times became rather spirited, resulting from amendments offered by the minority. This was most pronounced during the consider-ation of the change in the rules empower-ing the president of the Senate to appoint the standing committees. Senator Ballan-tine led the discussion against the clause, attacking it as being unconstitutional and in contravention of the rules of procedure. He was supported by Senator Evans. Sen-aters Crum, Brigam and Dolman champloned the report of the committee.

Tonight the inaugural reception and ball, very brilliant event, is in progress.

to Enlarge City Limits. LA GRANDE, Or., Jan. 6 .- (Special.)-The committee appointed by the City Council of La Grande to draw up a new charter met last night and adonted most of the provisions of the new instrument. The corporate limits were extended considerably, in order to bring the inhabitants of the added sections under the supervithem subject to police regulation. There were some objections to the extension, but these could not be considered as having weight. Members of the committee ed that at the last census nearly one half the population was outside the corporate limits. The sugar factory was left outside. The ward boundaries were changed to conform to the new limits, and and will hereafter take place on the first

Monday in December of each, year.

Strong articles were adopted providing for the taxing of peddlers and those doing a transient business, for the suppression of gambling-houses and dancehouses and for the regulation of the liquor traffic. An effort will be made to regulate the licensing of saloons independently of the general laws as applying to Union County. Provisions for regulating traf-fic, for suppressing nulsances and for improving municipal property were inserted. The committee hopes to finish its labors Thursday night.

Will be cheerfully paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original testimonials and signatures of the individuals volunteering those published below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

THE REASON .- There is no medicine equal to Dr. Pierce's Golden Medical Discovery, for the purifying of the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite,

feeds the nerves, and so gives to weak, nervous people vitality and vigor.

There is no alcohol contained in "Golden Medical Discovery," and it is absolutely free from opium, cocaine and all other narcotics.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

I take pleasure in expressing my satisfaction with Dr. Pierce's Golden Medical Discovery, as a reliable medicine, well worthy of the confidence of those seeking relief. It is certainly a most efficient specific for afflictions of the digestive organs, headache, heartburh, and kindred troubles caused by a disordered stomach.

Many busy men suffer from dyspepsia caused by careless habits, too rapid eating and irregular meals. Little attention is paid to this until it is too late, and then you naturally ask yourself, "What shall I do to get well." I have found your "Discovery" by far the most efficacious of any medicine I have known. A few doses gives relief. Being an honest medicine and well worthy of praise, it has my hearty endorsement. Yours respectfully,

Hon. Lee Cohn,

(Councilman 9th Ward.)

Louisville, Ky.

"I have been greatly benefited through the use of Dr. Pierce's Golden Medical Discovery," writes G. T. Rose, Esq., of 125 W. Short Street, Lexington, Ky. (Constable, Fayette Co.) "I suffered for years with biliousness and torpid liver, which affected the digestive organs and clogged up the entire system. Had used different medicines but found they did not help me any; in fact, nothing that I took was of any special benefit until I tried your" Golden Medical Discovery." I soon found that this medicine wrought a wonderful change in my entire body; cleared up the sluggish channels of digestive organs. This activity restored the flagging strength, increased appetite and vitalized the forces until work seemed but play, my sleep was restful and sound, brain active, and I felt like a new man. Four bottles of your "Golden Medical Discovery" caused this wonderful change, and I have certainly every reason in the world to feel gratified and to fully endorse your great remedy. For the past two years I have enjoyed perfect health."

He has given the prison officials at the prison endless trouble and three times he has assaulted guards who had supervision over him. Recently he has persisted in communicating with other prisoners by calling to them at a distance. For this he was shut in a dark cell with straps on his wrists— This morning he kept up a shouting for

several hours and finally McCormick went to quiet him. Thinking that Mc-Mahan was bound, he entered the cell, when the prisoner sprang upon him and struck him a terrific blow on the head with a brick he had dug out of the wall. McCormick was stunned by the blow but he clinched with his adversary and dealt him such blows as he could with a short

McMahan is a powerful man, and it was only after a desperate struggle that he was overcome. The prison drugglet, George Hull, came to McCormick's aid and the two bound McMahan so that he could do no more damage. McCormick's injuries consisted of a number of deep cuts on the head and bruises on the cuts on the head and bruses on the shoulders. McMahan is declared not to be insane, but is considered the most desperate criminal who has ever been confined in the penitentiary.

Dr. W. Norton Davis & Co. Specialists in Diseases of Men

Weakness

Thorough preparation is the first essential for thorough work in medical practice. Upon this point our diplomas from the best medical colleges and hospitals in the country speak sufficiently. Practical experience, the second essential, we have gained by several years in the general practitioner's field, and by 21 years as specialists In men's diseases. All these years have been years of observation, study and research. We have had every opportunity to acquire a thorough knowledge of men's ailments. We have cast upon the truths that we have for ourselves ascertained. We have replaced inaccurate and inadequate treatment with methods and remedies of our own devising, and that are accurate, scientific and thorough. We have developed a system of practice as broad and comprehensive as the entire range of men's ailments.

Contracted Disorders

Every case of contracted disease that we treat is thoroughly cured; our patients have no relapses. When we pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disorder is so trivial as to warrant uncertain methods of treatment, and we especially solicit those cases that other doctors have been unable to cure.

Weakness
That condition commonly known as "weakness" is merely a symptom of chronic inflammation in the prostate gland. It is not a weakness at all though in time it brings general debility through its depressing influence upon the mind of the sufferer. We treat for the inflammation only, and use a local process entirely, and in years we have not falled to obtain complete and permanent results. The cause of "weakness" was discovered by ourselves, and no other physicians can duplicate our cures. **OUR BOOK AND CONSULTATION FREE** This book affords an interesting study in male anatomy and men's eases. Write for it. If you cannot come you may also consult us

Piles Varicocele

Many who are but slightly afflicted with varicocele believe that
the trouble is of little consequence.
The opposite is true. Varicocele
is a disease of a progressive nature. As it advances, nervous compilications come, power diminishes
and the general health is impaired,
We cure varicocele in the shortest
time possible, without the use of
knife, ligature or caustic, without
pain and without detention from
business.

We will permanently cure every case of piles that comes to us for treatment. Though we have here-tofore made little mention of this troublesome affliction, we are constantly curing cases that other physicians have been unable to relieve. Our treatment is mild, gentle and cortain, and our practice in this disease constantly grows as a result of recommendations from those whom we have cured.
