The Senate yesterday discussed the bill for the reorganization of the mil-itia, and also the statehood bill. WASHINGTON, Jan. 7.-In the Senate today a resolution offered by Stewart (Nev.) was adopted, directing the com-mittee on the District of Celumbia to make inquiry regarding the wholesale and retail prices of coal as the result of fail-ure to ship to Washington, or whether there is any lack of prompt and efficient distribution among the people. The resolution of Vest, directing the

finance committee to prepare and report a bill removing the duty on coal, went over until tomorrow on motion of Aldrich. Vest not being present today.

The militia bill then was taken up and Mallory spoke in opposition to the provision regarding a reserve force of trained men. In the course of his remarks, a dis-cussion arose, participated in by Tillman, Warren, Fornker, Spooner and Clay, over the construction to be put upon the sec-tion, the Democrats contending that the provision put into the hands of the Pres-

Prove That the Copeland Treatment Is the Only **Reliable Cure for Chronic Diseases.**

MORE THAN HALF THE ILLS OF HUMANITY ARE DUE TO CATARRH

The Copeland Specialists never in any statement published by them attempt to frighten or delude the people who may be suffering from chronic diseases. Repentedly, however, during the past 10 years, have they ed warnings through the public press upon the startling prevalence of Catarrhal conditions and the evils resulting therefrom.

The Copeland physicians have cured thousands suffering from all forms of chronic disease, which fact has been repeatedly attested to by dwellers in this city and whom neighborhood, among have been people well known throughout the Northwest, as for instance Captain C. Randall, the courteous com-mander of the O. R. & N. steamer Geo. W. Elder, on the Portland-San Francisco run. Captain Randall's integrity is beyond dispute, and his warm commendation of the Copeland treatment

Until the innovation made by the Copeland physicians in placing medical treatment within the reach of the people, by making their charges for medicines and treatment % per month, it was almost impossible for those in moderate circumstances to obtain the serv-lees of a skilled specialist. This feature of their practice is certainly a great thing for the people of this community; yet this alone would not account for the warm and hearty commendation so frequently expressed by their patients, but the fact that they are receiving the best medical treatment to be obtained anywhere and at any price.

"I had suffered for many years from catarrh, which had been aggravated by the exposure incident to my work, and until I placed myself under the cars of the Copeland physicians I found no relief. Van Sant Declares Unending Hostility to Northern Securities.

ST. PAUL, Jan. 7 .- In the presence of both Houses of the Legislature Samuel

R. Van Sant was today sworn in by Chief Justice Stuart for his second term as Governor of Minnesota. He then read his biennial message to the joint assembly. The message deals exhaustively with the controversy waging between the State of Minnesota and the Northern Securities Company, to prevent the alleged merger of the Great Northern and Northern Pacific Railway companies. After reviewing the progress that has been made in the state's suit against the company, the Governor

says: "The executive officers of the state are doing, and are continuing to do all in their power to defeat this consolidation. It may be that the courts will decide that the laws of one state can be evaded or vio-lated by means of a corporation organized under the laws of another state; if so, all the benefits of 'more perfect union' so carnestly sought by the framers of the Constitution and so much desired by all law-abiding citizens, will not be realized. I have an abiding faith, however, that the laws of the state will be sustained and that the attempt to evade them in the manner stated will be defeated. "The law of this state prohibiting the

consolidation of competing railway lines is declaratory of a wise public policy, and any effort to weaken or undermine it should be defeated, and every effort put forth to enforce and strengthen its pro-
