An attempt to rob Baron's shoe store

about 12 o'clock last night failed as the result of Special Officer J. H. Beyer's quick and decisive work. The thief, Joe

Laberge, was caught, and is now locked up in the City Jall. When arrested he had upon his person a large number of skel-eton keys, some burgiar tools and a re-volver. Beyers caught him in the act of

robbing the store so that there can be no hope of his escaping punishment.

The robber seems to have entered through the front door by means of his

skeleton key. The officer's attention was first attracted to the fact that the lights

were out. He had been in the habit of

turning the lights out himself late in the morning. Thinking that something was

wrong he silpped up to the door and tried it. It was not locked and he quietly slipped inside. Knowing where the but-

FIGHTS TO ESCAPE RESCUERS

Suffering From Nervous Prostration and Brooding Over Imaginary Business Troubles, He Makes Desperate Attempt.

A sensational attempt at suicide was made yesterday by W. H. Watts, of Den-ver, Colo. Accompanied by his friend. E. Doff, of Halley, Idaho, he had gone to the Morrison-street boathouse, and while the two were engaged in conversation. jumped into the river. When an attempt was made to rescue him, he fought violently, and said that he wanted to die, Even after he was out of the water he would not give up the idea of taking his life, and tried to escape from his rescuers and get back into the river. His actions seem to have been prompted

by a fit of temporary insanity. He has been under the charge of a physician for two years past, and his adventure yesterday was not the first sign that he was suf-fering from nervous prostration. Mr. Watts ught to be a wealthy business man, and is traveling on account of his health. So far as is known there is no other motive than imaginary business troubles for his act of yesterday. He was taken at first to the Good Samaritan Hospital, but was soon removed to a private sanitarium. Both he and his friend were registered at the Hotel Portland, and seem to be men

There was quite a sensation about the Morrison-street bridge yesterday morning when the incident occurred. The two men walked into the boathouse, and for a time stood engaged in quiet conversation. Watts made a motion as if to go toward the river, but was stopped by his companion. In a moment, however, he made another effort, freed himself and rushed madly toward the river. He gave a mighty spring and landed several feet from the wharf in the water. His companion was wild with fear, and urged the men at the boathouse to hurry and save him. A boat was immediately lowered by George W. Rhodes and Frank Merrill and an attempt made to rescue the drowning man. This was no easy task, however, for he seemed determined to die,
"Let me loose!" he cried, frantically.

"Let me die! I have nothing to live for." He fought and struggled with all his energies, trying all the time to make his body sink. He could not, however, and was soon in the grasp of the men in the boat. They held to him, keeping his head above water until they could effect a landing, and pulled him out. After he was on the shore he continued to fight, and tried to free himself and get back into the

taken to the Good Samaritan Hospital. Mrs. Wakeman, the superintendent, gave him a dry suit of clothes, and he was taken to a private sanitarium. A medical student named Smith and a policeman were with him until he arrived at the sanitarium. Watts seemed not to have regained his senses completely, and continu-ally lamented the fact that he did not succeed in taking his life.

MEDALS FOR POLICE.

Saloonkeeper Whose Place Was Barglarized Is Most Sarenstie.

The saloon of John Rometsch, at 26 Alder street, was broken into and robbed about 2:30 o'clock Sunday morning. The burglars effected an entrance through a side door, upon which they used a sledge-hammer. They opened the cash register and secured about \$6 in cash. They also got about \$5 from a slot machine and a gold locket from a drawer. The matter was reported to the police, but no clew en found as to the whereabouts of the burgiar.

In connection with the burglary, Mr.

nication to The Oregonian: Portland, Or., Jan., 12.—(To the Editor.)—Without desire to pose as an ill-natured critic of the manner in which official work is frequently done in our Police Department, I covet space in your paper in which to express my appreciation of the fact that certain of our argus-eyed patrolmen deserve a medal for their services in the interest of justice to an always dear public. Let me cite a case or two in proof of my sincerity. A month or so ago, after having ata month or so ago, after having at-tended a meeting of a fraternal order of which I have the honor to be a member, I found occasion to enter my place of business, at 204 Alder street, and ring up a cab. While there a patrolman came in and arrested me for having the door of my place of business unlocked "after of my place of business unlocked "after hours." For this grievous offense I was promptly fined.

Off Sunday morning last, some time between the hours of closing and opening in the last half of the night, burglars came along, smashed in my side door-which is on the street-entered my place of business and robbed me. No patro was there to arrest him, take him to Municipal headquarters and punish him for committing a crime against the statutes. The noise and racket the thief must have made in breaking down my door and ransacking my place of busi-ness for booty, falled to reach the ears of the astute and ever-alert conservators of the peace on that beat. It was "after hours," too; but he smashed his way in, robbed me and walked away without mo-

SMALL BOYS THREW STICKS And None Knew Which One Hit Mrs. Rosler in the Eye.

A crowd of young boys, the oldest of whom looked to be about 10 years of age, appeared in the Municipal Court yesterday to give evidence in the case of John E. Potter, charged with assaulting Viola Rosler. A more frightened lot of youngsters it would be hard to find.

"I don't think they will put them in a dark cell," said one of the spectators, and the youngest burst into tears. "They won't keep them locked up more than a week," said another, and more handkerchiefs were brought forth. Mrs. Rosier compained that little Johnnie Potter had thrown a stick and

Members of the Riverview Cemetery Association Hold Annual Meeting.

The annual meeting of the Riverview Cemetery Association was held at the First National Bank yesterday afternoon, Henry W. Corbett, the president of the association, presiding, Cyrus A. Dolph was elected a frustee in place of the late J. L. Atkinson, and a statement showing the receipts and disbursements for the year 1962 was read. It showed a balance on hand of \$4,679 16. In addition to this, the association has now \$45,000 invested as an irreducible fund for the perpetual care of all graves.

There is no indebtedness except the outstanding bonds, amounting to \$53,500, held in equal amounts by H. W. Corbett, the estate of W. S. Ladd and the heirs of Henry Failing. This bonded indebtedness has during the past year been extended for a period of 30 years, and interest reduced to 4 per cent per annum. The association has recently purchased the Carson tract of 30 acres adjoining the cemetery grounds on the west, which will be at once improved and laid in family lots, ranging in price from \$75

IN STAR-CHAMBER SESSION Executive Committee of Board of Trade Keeps, Its Secrets.

The executive committee of the Board of Trade held an executive meeting yesterday afternoon in the hall of the Oregon Mining Stock Exchange. It was decided that this business was too delicate to intrust to the hands of the porters, and the meeting was therefore of

the star-chamber variety.

Secretary Shillock, of the Board of Trade, has his hands full these days answering correspondence directed to the board for information of various sorts. A amount of mail comes addressed to the Mayor at the City Hall, asking for information, and this is sent to Mr. Shillock for him to answer, as he has the proper facilities, and generally has on hand good literature, which serves better than written answers. Yesterday there were letters from a number of persons asking des for workingmen, and, in addition, letters of inquiry from many Eastern firms who wish to come West, and before doing so they wish to see what kind of a country they are going to move into. American Sand Brick Company, a Michigan firm, wishes to know about sand and clay deposits, and if the outlook for their products seems satisfactory they may move to Portland and set up a plant.
