WASHINGTON, Jan. 12.-The Vest res lution directing the fluance committee list came up soon after the Senate met. Aldrich announced that there were strong hopes that action with respect to a reval of the duty on anthracite coal will be taken elsewhere, and he asked that the resolution go over. Vest vigorously ob jected, saving he had no assurance that

anything will be done in any other place. "Circumstantial evidence," he said, "is against any such assumption. No action is been taken, and no suspicion of any action has been seen anywhere, and, therefore, under existing conditions to aiow this resolution to go into the uncertain and nebulous future would be equivalent to its defeat."

Vest referred to last Thursday's debate on the subject, and declared that the only partisan feature of it came from Mr. Al-drich. In all his experience, he asserted, he had never seen such unanimity of public sentiment on any subject. He called attention to the action of the Legislature of Rhode Island, January 8, in unanimous-ly voting for the removal of duty on coal, and had read newspaper reports com-menting on the action. Mr. Vest said he did not want to embarrass the Senator from Rhode Island, who was amply able to defend himself, but his desire was to place before the Senate proof of the sentiment for free coal now existing.

Vest again reverted to what he called is "unfortunate reference to Dingiey," which has been so vigorously resented sent to the desk and had read a letter from Congressman Fleming, of Georgia, inclosing one from ex-Representative King, of Utah, dealing with a conversa-tion with Mr. Dingley at the time the Dingley bill was under consideration in Congress. In this, Dingley is said to have apprehended changes in the bill which were necessary to obtain foreign markets for American goods, and showed that the trend of Mr. Dingley's mind was in that direction, and, therefore, bore out the statement contained in the Philadel. phia Bulletin and repeated in the Wash-

"It has been murdered in cold blood," said he. Beneficiaries of protection—the protected manufacturers and the protected trusts-he said, have appropriated to themselves every particle of the tariff du-

ties provided in the Dingley act.
Aldrich said the remarks of the Senator
from Missouri and the Senator from Tennessee only confirmed his former state-ment that the resolution was for no other purpose than to discuss questions outside the coal question. Referring to the newspaper report which Vest had had read. Aidrich said the people of Rhode Island fully understood his position on the tariff

There has been no disguise in the past," he said, "and there will be none in the future as to that position."

Aldrich then took up the statement at tributed to Mr. Dingley regarding re-ciprocity, and declared that the bill was in print and had been prepared nearly a month before the conversation is alleged to have taken place. The resolution went over until tomorrow, when Aldrich will ue his remarks. A House bill was passed incorporating

the Society of the Army of Santiago, but the vote was subsequently reconsidered and the bill ordered recommitted. Mitchell presented the report of the submittee, of which he is chairman, on

the affairs of Hawaii. At 2 o'clock the statehood bill was taker. up. Nelson continued his remarks in opposition to the omnibus statehood bill. and had not concluded when, at 4 o'clock, by unanimous consent, a large number of unobjected pension bills on the calendar

were passed.
Mitchell (Or.) announced the death in this city yesterday of Representative Tongue, of Oregon, and offered the usual resolutions expressing the sorrow of the Senate. The president pro tem. appointed Messrs. Mitchell, Perkins (Cal.), Dolliver Turner and Dubois a committee on the part of the Senate to accompany the body to Oregon, and the Senate at 5:15 adjourned until tomorrow.

HOUSE ORDERS INVESTIGATION. Committee Order to Find Out All About Coal Famine.

The resolution to investigate the coul situation recites the fact that a resolution has been introduced to extend the privalege of carrying coal to constwise ports to foreign steamers for 30 days, because the present scarcity of coal involves great suffering and distress, and authorizes the committee to investigate "facts, charges and necessities; to inquire into the elements and conditions involved in the coal trade, the cost of coal, the methods, facilities and cost of transporta-tion and distribution of the same and the reasons or causes of such scarcity

The committee is directed to report to the thouse the testimony, with the con-clusions thereon, as soon as possible. It is given power to send for persons and papers, to administer oaths, etc., and incur such expense as may be deemed necessary. The meetings are to be held in Washington and in such other places as the committee may determine.

The steering committee has asked each Republican Senator for his opinion as to what legislation should be pressed this session. When the replies are re-ceived the committee will formulate a programme for caucus approval. entire delegation, and further agreed that | clerks at this-session of the Legislature none of the delegation should go into caucus without the consent of Preston. Preston's Chances Not Brighter.

This ties up enough votes to prevent a caucus, but it does not seem to materially brighten the chances of Preston. For this reason the belief is expressed in some quarters that the action taken at the caucus was more for the purpose of helping the commission bill than to render any assistance to Preston. At heart the King County delegation is not in favor of the bill; but they are so anxious to land Preston in this, that they have taken the bill along with him, simply because they were unable to separate the pair. The inability of Preston to hold his forces together in the Speakership contest has weakened him outside of amended so as to give the committee the King County delegation, but so long more power for examining into the coal as he can keep his own delegation tied the King County delegation, but so long up, as he now has them, he may prevent the election of another candidate, even though he can do nothing for himself.

Some of his opponents profess to see In this latest move the fine hand of the WASHINGTON, Jan. 12.—The House Governor. They argue that McBride is ommittee on judiciary today, by a vote willing to sacrifice everything also for the willing to sacriff sake of succeeding with his pet measure, and that if Preston can be convinced that it would be impossible to elect himself he might gladly turn his pledged delegation over to McBride for use in getting the commission bill through. Preston's friends have frequently made the assertion that their candidate was so strongly in sympathy with the Governor that if it became necessary for Preston to retire in order to save the commission bill be would do so, Mr. Preston, however, has not authorized such statements, and still believes that he has a good show to win out. His support, however, is less substantial than that of his leading oppo-nent, Mr. Ankeny, for, outside of a portion of his King County delegation, which houses turned down the fair sex, and felt is pledged to go to the last ditch with him, a lack of sincerity in his success is expressed by men who will vote for him for a few ballots at least. The McBride commission bill is generally credited as they were charged against the counties the cause of this weakness. As one of his friends expressed it, "either the Senatorial fight or the railroad fight alone would have been a sufficiently large undertaking to require all of the energy and skill of McBride and Preston, and, when they tackled the two simultaneously, they were unable to keep both going to the best advantage." The friends of the commission bill still express great confidence of their success, but there will need to be considerable change in the attitude of the Senate toward the measure before

This cruel decision of the lawmakers caused weeping and wailing among the squad of women who drifted in from all over the state, and will not be received with pleasure by those who remained at home waiting for the telegraph to tell them to come. LOOK OUT FOR

The cold-wave flag means zero weather, icy, moisture-laden winds, and the beginning of winter in earnest. To Catarrh sufferers there is nothing

cheering in these climatic changes, for with the return of cold weather, all the disagreeable symptoms of Catarrh appear: blinding headaches, dizziness, a stuffy feeling about the nose that makes breathing difficult, chest pains, and as the disease progresses, a discharge of nauseat-ing matter from the throat and nose keeps one continually hawking and spitting.

Catarrh is a most disgusting disease. The foul mucous secretions that are constantly dropping back into the stomach contaminate and poison the blood and is distributed throughout the body, and it then becomes a deep-seated, systemic, persistent disease that must be treated through the blood, for it is beyond the reach of sprays, washes, powders or external treatment of any kind.

S. S. S. soon clears the system of all Catarrhal matter and purges the blood of the irritating poisons, thus effectually checking the further progress of this serious and far reaching disease.
