Armed Men Guard Denver Senate Chamber.

TO PREVENT HOSTILE ATTACK

Abortive Ballot in Joint Assembly With Democratic Senate is Considered of Doubtful Legality - Shotguns and Revolvers.

DENVER, Jan. 21.—There were rumors of war and plenty of warlike preparations at the State House tonight. Early in the evening the story gained currency that a body of armed men was hidden somewhere in the State House with the purpose of seizing the chamber of the House of Representatives sometime during the night and holding it in the interest of one of the Senatorial candidates.

The House chamber has heretofore been guarded by three or four men and early this morning ladders are said to have been found in one of the side corridors reaching to a window communicating with the House gallery.

Gentlemen—think of words that w Peruna. is b

The Peruna Medicine Co., Columbus, Ohio: Gentlemen—I cannot think of words that will express my praise for your most wonderful remedy, Peruna. It is beyond a doubt the most wonderful cure that long sufferers from catarrh can find.

"I have suffered from this dread disease more than twenty years, and was only induced to try your remedy against my will after having spent hundreds of dollars in every possible channel seeking relief, as some of my intimate friends had been cured by it."

"I am most pleased to tell you that I am today a perfectly well man who cannot but help praise the manufacturers for the everlasting benefit I have received from your remedy."

"With hopes for your greatest success, I am, Sincerely, yours to command, C. L. POLSTON."

Peruna has among its friends many of the leading temperance workers in this country, who give it unstinted praise, and do not hesitate to endorse it by the use of the most extravagant language.

Mr. Bowen is fully armed with authority to propose a settlement and to offer an adequate guarantee. The Ministers, without doubt, are anxious to bring the blockade to an end without delay, but are hindered by their engagements with Germany.

Throng of Patients Teach the Lesson

Not the Uniform \$5 Rate Generously Given for All Diseases, but the Skill and Faith and Fame of the Copeland Practice Account for the Large Attendance and the General Interest.

It would be a very simple-minded person who would attempt to account by the \$5 rate in and of itself for the crowds thronging the Copeland offices, for the public interest, for the general attitude and for the very avalanche of letters from sick people.

The fact that an institution was giving medical treatment for \$5 a month would certainly account for some of these things. Of course, sick people like to feel that they are receiving medical care at a small cost, but that is only a minor consideration.

What sick people want to feel and know, what their loving and anxious families and friends want to feel and know, is that they are receiving the very best medical treatment that can be obtained.

If the Copeland practice were a mere money-making venture, instead of being a public blessing, an offer of \$5 a month or an offer of "free treatment" for that matter, would be received with indifference.

Bad treatment and bad teaching are bad, even if "given free."

No, the throngs of patients, the interest and the gratitude are accounted for not by the \$5 rate but by the fact that all these people know that under this rate they are being admitted to the benefits of a practice that has commanded for years, the respect of the profession and the public.

They know that under this fee, low as it seems, they are obtaining care and treatment that they could not obtain anywhere else for any fee, high or low.

They know that under this opportunity they may be relieved of diseases which no other method of treatment has ever been able to benefit.

They know that under this opportunity they obtain the best treatment and the best professional skill.

They know that under this opportunity they are going to be cured.

And it is this that accounts for the throngs of patients that have gathered, the gratitude and the avalanche of letters, and (what is of more importance than anything else) for the warm and hearty commendation of right-thinking people.

THE RECORD OF CURES GROWS DAILY

Discharging Ear Following Scarlet Fever—A Permanent Cure.

Miss Beattie Overton, residing temporarily at 387 Twenty-fifth street, North Portland, Miss Beattie is the daughter of Mrs. J. C. Overton, a well-known resident of Shaw, Marion County.

Miss Beattie's trouble was the result of measles, followed by scarlet fever when she was a little girl. This sickness left her head and throat in very bad shape, also her ears.

Right Ear Discharged a foul, offensive substance, which continued until her treatment at the Copeland Institute. She had to wear cotton in her ear all the time, and suffered great discomfort.

"We spent large sums of money in having her treated, both here and in the East, and had her under the care of some of the best So-Called Specialists, who charged us large fees but Did Her No Good."

We felt greatly discouraged about her case, and having heard so much about the Copeland Institute, we decided to consult them regarding her case.

After a careful examination the doctor said he thought he could cure her, and she began treatment. Under their treatment her ear healed rapidly and the discharge entirely disappeared.

This was three years ago, and as she has had no trouble since there can be no question as to the Permanency of Her Cure.

"I cannot say too much in praise of the Copeland physicians and their excellent method of treatment. I will be glad to answer any questions regarding Beattie's case."

It was in this condition that I went to the Copeland Institute, and as I said above I am now enjoying Very Good Health.

In the beginning I was scarcely able to be about. Now I can walk five or six miles without any trouble, and this for a man 60 Years of Age.

is pretty good. In fact this is the most comfortable Winter I have had in years—I have had no trouble of any kind.

HOME TREATMENT No one deprived of the benefits of the Copeland treatment because of living at a distance from the city. My treatment was short and labored, with a rattling and wheezing in my chest. I had frequent Attacks of Asthma, from which I suffered more than I can tell.

Many a time I sat up all night in order to get a little relief. "For a number of Winters I had grip, and each attack left me weaker and more miserable than the one before, and my strength was rapidly being sapped. I had no strength to do anything and I knew that unless I found prompt relief it would be but a short time until I would be beyond help."
