WHEAT IS EASIER the highest in the local market at this time of the year since 1886, when flour sold for over to a barrel.

Eastern and Foreign Markets Off a Shade.

NO CHANGE IN LOCAL PRICES

Firmness in Rice Promises an Advance Before Long-Progress of the Salmon Price War-Demand for Hops

All the Eastern and foreign wheat markets were off yesterday, which led to an easier feeling in the local trade. Buying is pracspoted at 75 cents and bluestem at 86 cents

ble reason is that supplies in Europe and affoat for Europe are nearly 15,000,000 bushels less rters, therefore, is likely to fall heavily on this country. During the first six months States have amounted to 123,000,000 bushels, as compared with 148,000,000 during the correing period last year. During the last six sonths of last season there were \$6,000,000 bushels shipped; the conviction is becoming peneral that during the coming six months the European demand will amount to fully 85,000,-000, which would be all the country could

practically the entire Winter wheat crop is covered with snow, and no anxiety over the condition is apparent. The export movement has been good, and although the primary recelpts have increased there has been strong enough buying by the mills to prevent any weakness. Owing to the congestion in railroad traffic a great deal of wheat has been "held up" at the point of growth, the rolling stock of the Eastern roads being used for the transportation of coal to the seaboard.

SUPPLY AND DEMAND IN SALMON. Alaska Packers' Association's Reason for Making the Cut.

YORK, Jan. 28.-(Special.)-Salmon sened showing some speculative interest on pinks, 1962 pack, at 50c f. o. b. Coast. Many orders placed with the association, as well as outside interests, were not confirmed up to the close. Chums at the 37% basis for spot are temporarily withdrawn. Outside interests offer pinks in 100-case lots at 50c f. c. b. Coast, rall shipment. The Pacific Selling Company refuses to meet the cut prices and reports a sale for export of 3000 cases on

reports a sale for export of 3000 cases on the equivalent of 62½c net cash f. o. b. Coast on pink tails. The Alaska Packers' Association is taking orders on futures at 50c for pinks and 37½c for chums.

J. K. Armsby arrived here today and says in an interview:

"Our principals (the Alaska Packers' Association) have always conducted their business regardless of competitors. In other words, they realize fully that the law of supply and demand must necessarily govern prices. Temporarily, some pool or combinative of the property of the prop prices. Temporarily, some pool or combina-tion may raise or lower prices. In the pres-tent instance, there are 1.000,000 cases of pink and chums hanging over the market, the accumulation of 1901 and 1902 packing. Aside from this there is considerable in jobbers' hands that there would not be if the supply was not ahead of the demand, which means that prices have been too high and an increased demand must be created, regardless of who is hurt, and such increased demand can only be created by lower prices. The prices, 27the and 50d per dozen, pay the packers a heavy loss, but that does not enter into the situation. The goods are packed and must be sold. Some competitors have already met our prices and others will have to meet them or carry the goods indefinitely. There is no market for pink or chums on the basis that tion proves that inasmuch as the supply has increased faster than the demand, and the coming year is the big pack of hump, the reduce the coming pack very miterially and it is their intention finally to catch up to the

RICE MARKET FIRM. Jobbers Look for an Advance in the Near Future.

The rice market shows great strength, principally because of the crop shortage in Japan. Local prices have undergone no change recently, but jobbers would not be surprised by the announcement of an advance any day The 1902 rice crop of Japan, according to a partment of Agriculture and Commerce, shows a decrease of upwards of 15 per cent from the extraordinarily heavy crop of the previous called a poor one, is indicated by the fact that, as compared with the average crop of the four previous years (1898-1901), it shows the four previous years (1898-1901), it shows a decrease of less than one-half of 1 per cent. The following statement gives, in terms of measured bushels, the estimated production of rice in Japan in 1902, as compared with the actual production of the four preceding years:

Tenn. Coal & Iron. Union Rag & Paper Co. bides, salted, each, \$15062; dry, each, \$100 ft. common, each, 100 ft. and the production of the four preceding years:

RELIEF OVER SETTLEMENT

VENEZUELAN NEWS HAS GOOD EF PECT ON STOCK MARKET.

Railroad Earnings Decrease in Spite of the Enormous Traffic-Little Money for Speculation,

NEW YORK, Jan. 26.-The professions New YORK, Jan. 26.—The processors traders in stocks were in a more cheerful frame of mind today and expressed relief over the good prospects reported for a settlement of the Veneauslan difficulty. There is no doubt that the state of irritation that has mpanied the blockade has been an in accompanied the blockade mas been an in-fluence toward depression in the financial world, but today's market did not indicate conclusively that it was that alone that with-held people from taking hold of securities. The market had one or two spurts, then an appearance of considerable animation was imparted to the trading, but at other times the trading was stagmant. The average of the day's activity did not rise above that of last week.

The weekly statistics of railroad traffic caused

an unfavorable impression by reason of the far-reaching complaint of car famine. The increase in grain receipts at Chicago was at-tributed to the fact that the eastbound roads were unable to accept the incoming shipments from the West. The decrease in eastbound grain shipments here our this supposition. On the other hand, the westbound shipments of general merchandless were reported of precedented dimensions, as has been the case for some time past. Car equipment, motive power and trackage facilities are reported inadequate to bandle the demand on the railroads. This is accepted as evidence of the
continued strong level of prosperous activity
in the country, but from the standpoint of railroad values there is disappointment that the
emormous sums spent in the last few years
for increasing railroad facilities of all kinds
should still leave a prospect of such heavy
additional requirements, while the net earnings of railroads, owing to the rising tide of
operating expenses, are decreasing in spite of
the enormous traffic. The large business in the
country also indicates a profitable use for
money, which does not promise well for the
addition to supplies available for speculative edented dimensions, as has been the casaddition to supplies available for speci

among the stocks which have lately consti-tuted the market leadership. Missouri Pa-cific was helped by a reported increase in weekly gross earnings. General Electric made a wide advance on intimations of large ings. Otherwise, there were no features. The unright's only response was to occasional rumors of steps looking to a Venezuelan set-tlement. The closing was very dull, but firm at the top.

Bonds were dull and heavy. Total sales, par value, \$3,210,000. United States bonds \$4 80.

LONDON, Jan. 26.-Official closing:

IDIANAPOLIS, Jan. 26 .- At the openof the United Mineworkers' Conven-today a bill for \$10,890 47 was reported the committee on transportation to er the railroad expenses of the 745 gates. A delegate from Montana, o drew \$85 75, led all of the delegates. he tellers on the election of National ers by the recently taken referendum then reported. John Mitchell, who had no opposition for president, received 55,032 votes, and W. B. Wilson, who had no opposition for secretary-treasurer, received 54,125 votes. Vice-President T. L. Lewis, of Ohio, was re-elected over T. D. Nicholls, of Pennsylvania, by a vote of 39,663 to 17,249. The election for delegates 6,400 64% 63% 64% to the American Federation of Labor re-sulted in the election of President Mitch-100 46% 40% 100 18% 18% ell, Secretary Wilson, Vice-President Lewis; W. It was decided to leave the executive board free in placing the salaries of or-The special committee on defense fund

recommended the establishment of a large fund. It did not deem it advisable at this time, however, to establish a National defense fund, but owing to the unorganized condition of the miners in many of the districts it was thought best to continue the 10 cents per month assessment

for another year.

The report of the committee on injunctions was very detailed. The committee went into the history of the operation of the injunction, and after showing the great abuses to which it has contributed. recommended that President Mitchell ap-point a committee of two to go to Washington to use its influence to secure the passage of the anti-injunction bill, House bill No. 11,360, now pending in the Senate; the committee also to be instructed to get the record of every Senator and Repre-

sentative on the bill. The report of the committee on constiation suggested many changes, the most mportant of which is a change in the voting representation of the districts so far as the power to order a general suspension of work is concerned. Under the new rule it will require three-fourths of the districts to order a general strike.

Paper-Makers to Work Long Hours. APPLETON, Wis., Jan. 25.—The Inter-national Brotherhood of Paper-Makers, at conference with the manufacturers today, yielded to the request of the mill-owners, and will return to the long-hour rchedule. This means 72 hours a week and until midnight Saturdays,

Religious Turmoil in Persia. LONDON, Jan. 27.-A dispatch to the Daily Mail from St. Petersburg reports great unrest during the past week in Teheran, the capital of Persia. Not a day passes without arrests of influential statesmen and prominent personages. These arrests are attributed in St. Peters-burg to the influence of the British Minister at Teheran, who intervened energetically in behalf of the Libest religious s a growing power, which, with a doctrine resembling Christianity, is trying to over-

NEWS MAINLY BEARISH

ADVICES DEPRESS WHEAT MAR-KET AT CHICAGO.

Lender of the Bull Campaign on Both Sides of the Market-Trading in General Only Moderate,

CHICAGO, Jan. 28.—The wheat market was a very nervous affair and trading in general was only moderate. The leader of the bull campaign was on both sides of the market, but the total amount of business for his account was small. There was comiderable selling early on cables and May declined to Sike after overlaps a shade to Melic lower. selling early on cables and May declined to \$15c, after opening a shade to \$65c lower at \$15c\$2c, but on reports that France was buying heavily there was a quick advance, the price selling up to \$25c. After another decline there was a raily to \$25c, but an easier feeling developed in the latter part of the session and the close was weak and \$6c lower at \$15c\$35c, after selling at \$15c. The news, while of all sorts, was mainly hearish. Hains in California, reported increased offerings by Argentina and an increase in the exportable surplus, together with rains in India, all combined to induce freer selling.

There was a good trade in corn and the prevailing sentiment was quite builtish. The close was firm with May \$60c higher at \$55c. Lend declined is 3d in London to 411 rs ou, but remained unchanged here at \$4 12%. Spatter was unchanged at 420 5s in London and at \$4 90% locally. Iron was steady abroad, closing at 53s 7d in Glasgow and at 47s 6d in Middlesboro. Locally iron was more or less nominal. No. Lend declined is 3d in London to fil 7s 6d, Locally from was more or less nominal. No. 1 foundry Northern is quoted at \$24924 50; No. 2 Foundry Northern, \$22925 50; No. 1 foundry Southern and No. 1 foundry Southern soft at \$23 50924 50. Warrants are nominal. .Cats were dull and easy. May closed 140

Louis were dull and easy. May closed to lower at 362355/c.

A strong hog market caused firmness in provisions at the start, but the early strength was soon lost on selling by commission-houses, supposed to be for the account of packers. May pork and ribs closed unchanged and lard 25/c lower.

The leading futures aread as follower.

The leading futures ranged as follows: Opening, Highest, Lowest, Closing \$0 779 CORN. May 46% July 43%
