Unpleasant Predicament of Crescent City's Passengers.

STEAMER LOST OFF MENDOCINO

to Reach the Stranded People-Tugs From San Francisco Sent to the Rescue,

SAN FRANCISCO, Jan. 30.—The steam schooner Crescent City ran on Fish Rock, off the Mendocino coast, during a gaie at an early hour this morning. He passengers and crew, numbering in all about 25, took refuge on the rock. The steamer Scotla was signalled and after beating about for several hours, managed to launch a boat, which took 10 of the stranded persons off the rock and transferred them to the Scotia. The life-saying crew from Point Arena could not launch a boat, but attempted to shoot lines over the rock from shore, but owing to the wind all effects in this direction were unsuccessful,

About 15 persons are still on the rock, The steams but are in no danger, except from exposure. Tug boats from San Francisco next week. will make an attempt to rescue the ma-rooned persons. The sea is very rough and it may be necessary to leave the people on the rock all night. The Cres-cent City is slowly breaking up and, unless the storm ceases, will probably be a

MENDOCINO, Cal., Jan. 30,-The tug Sea Rover, from San Francisco, arrived here at 7 o'clock tonight and is lying near the wrecked Crescent City. It is not believed she will attempt to do anything until temorrow morning, as the night is very dark and the surf still heavy. The people on the rock are as comfortable as could be expected in the circumstances. They have fire, food and the shelter of some half dozen awnings. The wind is favorable for them and coming in such a direction that they are protected from its penetrating cold. It is hoped they will be rescued at day-

There was considerable anxiety on the part of the commissioners for the safety of the big dredge down the river, but she came through the freshet without any mishap. Dredging operations were out of the question with the strong curand every attention was given to looking out for the safety of the dredge and pipe line. The steamer Maria will go down the river this morning to assist in getting the floats in position so digging can begin the first of the week.

The Commissioners have received a num-ber of bids from rubber companies for supplying sleeves for the 20-inch dredge. The bids have been referred to Superint Lockwood. Mr. Lockwood has authorized to investigate the matter of dredging a trench for the submerged pipe line above Madison-street bridge, in accordance with the proposal of the water committee, to lower the pipe so as not to interfere with navigation.

ELM BRANCH ARRIVES. Turret Steamer Will Load Lumber

The steamship Elm Branch arrived up yesterday afternoon, and after a short Weidler's dock, proceeded up through the bridges to Inman, Poulsen & Co,'s mill. She is under charter to the lumber for Port Arthur, The Elm Branch is well known in the trade, having carried a former lumber cargo out from Portland to the other side. She is a turret steamer of the same class as the Lime Branch, that recently took a cargo of Oregon wheat to the Mediterranean, and the other vessels of the "Branch" line. The last previous coyage of the Elm Branch was with coal from Newcastle, N. S. Saul Silverfield Wants to Restrain
Sigmund Frank From Casting
Gloom on His Property.

Saul Silverfield yesterday filed suit against Sigmund Frank in the State Circuit Court, to compel the latter to remove a high board fence creeted on block 285, which is bounded by Columbia, Clay, Eleventh and Twelfth streets. Damages in the sum of \$1500 are also demanded. The complaint sets forth that the fence stands between property owned by Silverfield and property belonging to Frank it is alleged that a large number of holes have been dug eight feet deep, into which have been placed poles 24 feet long. The fence is said to be is feet high, and may be built higher. Silverfield avers that ine fence on the side next his property will be painted a funeral black, unless Frank is restrained from so doing.

Silverfield alleges further in his complex to the ground of infidelity. Mrs. Edna L. Mahaffey, of Albina, is named as co-respondent. Allison is a locometive engineer employed by the O. R. & N. Co. The plaintiff asks for alimony for the support of herself and child. The litigants were married in 1822.

Sliverfield alleges further in his complaint that he made arrangements to erect flats on his property, and that Frank threatened if he did so to put up a high fence which would injure the flats by shutting out the light. To settle this, Sliverfield says he agreed with Frank to purchase the east half of lots 7 and 8 in the block from R. I. Eckerson for \$550 and to sell the south 20 feet of lot 7 to Frank for \$2575. This would give Frank 20 feet space between his and Sliverfield's property. restrained from so doing.

ing unless it is the antiquity of this sort of justice to Colonel Lynch's race. It assumed a working hypothesis some-time during the reign of Henry II, and was personified in the persons of Strongbow, Lacy and Fitzstephen, the benevo-lent assimilators, and continued all through the Plantagenet dynasty, when it was no crime to kill a "croppy" for the reason "that the plaintiff was Hibernicus et non de quinque sanguinibus," in the spiritual solicitude of the Virgin (?) Queen and her high detachment from all law from the fact that "Her Majesty's prerogative is not limited by Magna Charta, nor found in Littleton's tenures, nor written in the books of assizes, but registered in the remembrances of Her Majesty's ex-chequer, and remains in the rolls of the records of the Tower," and in the sweet assurance of her deputy Grey "that he had left little for her to reign over but

ashes and carcasses," in the confiscation of the church lands by the royal roue, "the only supreme lord and head of the church and clergy of England," in the kingly courtesy of James to his petitioner subjects "what is it to you what I do?"; In the benefactions in the plantations of Ulster, Munster, etc.; in the graces and concessions of Charles in defending the title of Catholic estates; in the beatl-tudes of Cromwell: "If by liberty of con-science you mean a liberty to exercise the mass, I judge it best to use plain dealing with you and to let you know where the Parliament of England has power that will not be allowed"; in his cheerful as-surance to the Catholic priesthood, "I will give you wormwood to chew on"; in his gentle association of God Almighty with gunpowder and heresy, for instance, the wholesale butchery of the suckling babes at Drogheda and Wexford, the murder of "the flower and cholcest of the women and ladies," the braining of the friars, the unspeakable desecration of the persons of heipless women, and all, yes all, God above have all the glory"; in the in-tegrity of the Prince of Orange and his good faith in the "articles of Limerick" and his deep devotion to things papletical, in the pure and magnanimous act of union, sometimes called "the sale of the constitution," a proceeding so exalting that one of the auctioneers, Cornwallis, writes, "I despise and hate myself every

four for engaging in such dirty work."

British justice to the race that Lynch belongs to is fully reciprocated and em-bodied in the following resolution, unani-mously adopted at a full meeting of the Irish party held in the City Hall, Dublin, on the actual day of the coronation of Edward VII, on motion of the chairman, Mr. John Redmond, M. P.:

"That, inasmuch as the governing classes of England have made the coronation of parties the coronation of parties, before the

classes of England have made the corona-tion an occasion of boasting before the world of the unity and solidarity of their empire, we, the Parliamentary represen-tatives of five-sixths of the Irish people, whose native legislature has been, by base and fraudulent methods, suppressed, more than half of whose population has been carried away by famine and emigration, and who are at this moment stripped of population, deem it our solemn duty to declare that Ireland separates herself from the rejoicings of her imperialist op-

pressors, and stand apart in rightful disntent and disaffection. And you will find Irish justice speaking through the medium of its chief organ, the Freeman's Journal, sympathizing with suffering and with unbounded admiration for spartan endurance: "For the first time in the history of the country, not in the arrogant and insulting spirit in which the words are ordinarily used, but in the spirit of reverent plety, Ireland breathes the prayer, 'God Save the King.'
