

IS BEST ON RECORD

January Jobbing Business Never Surpassed.

RETAIL TRADE NOT SO GOOD

General Price Situation Remains Strong, with Corn and Cotton Leading-Effect of Fuel and Car Shortage.

NEW YORK, Jan. 30.—Bradstreet's tomorrow will say: Trade developments in January confirm the sanguine expectations and predictions made at the outset of the month.

Among the industries, no sign of flagging activity is noted. Iron and steel production is at its highest level since 1929.

The car shortage trouble increases rather than lessens. Smaller than expected movements of grain and lumber to market, of fuel from producing centers to consumers and of general merchandise from wholesalers and retailers to retailers are reported.

Wheat, including flour, exports for the week ending Jan. 27, aggregate 4,420,000 bushels against 4,570,000 bushels in the same week in 1932.

Business failures in the United States for the week ending Jan. 27, aggregate 233 last week, 363 in the same week in 1932.

NEW YORK, Jan. 30.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended January 29, with the percentage of increase and decrease, as compared with the corresponding week last year:

NEW YORK, Jan. 30.—After falling dull and somewhat irregular during the greater part of the day the stock market in the later trading developed a pronounced reactionary tendency.

There was no special feature of interest in the early dealings. The professional element tried to make capital out of the reported setback in the Pennsylvania negotiations, but the greater ease and abundance of money and some moderately sharp advances in a few specialties tended to offset the effect of the traders' selling.
