WATERBURY QUIETING DOWN

Strike Leaders Keep Their Men Of Streets, and Help to Preserve Order-Elaborate Precautions of Militia.

WATERBURY, Conn., Feb. 4.-Stormy weather and extra precaution on the part of the authorities carried Waterbury through the dangerous hours of the night without the serious trouble that was confidently expected to mark and mar this payday night. The day brought no vioace the night but little. As the cars were on their last trips, there occurred a little riot and soldiers are authority for the statement that guns were fired by lawless persons. The record of actual damage, however, was better than that of the revious nights of this week. There were stances of missile-throwing and car windows suffered as usual.

The feature of the day was the arrival of a Sheriff's poese of 20 deputies, most of whom were employed in riding in pairs on passengeriess trolley cars. The system-atic patrol of the city by police and militia was much more effective tonight than before and, when midnight arrived, it looked as if the military protection afforded was adequate. Not the least important factor, perhaps, in the interests of order were the efforts put forth by the strikers to keep

their men from the streets. The people in the city dreaded tonight. They feared the injection into the situation of the element of money and what money will buy. Last Saturday was payfor thousands of Waterbury's workers and it is affirmed that the riot of that night was a result of not unusual payday carousals. Wednesday is a wage-day for as many more thousands of the city's employes, and the logic of the thing seemed to point to this night as one of menacing possibilities. All told, the day had been uneasy, and it was with great relief that Waterburyans heard the news from the state Capital this afternoon that Governor Chamberlain had declifed not to withdraw troops tonight,

So far as the peace of the city was concerned, the day has been a quiet one. A heavy downpour of rain kept idlers within

The military headquarters were equipped with a telephone system reaching out to every important point in the strike terri-tory. The Signal Corps put into place powerful are lights at the car barns and powerhouse, and similar apparatus in the tall building on South Main street near headquarters, thus making possible through the corps communication by light signals and removing some of the handi-caps imposed by darkness.

The afternoon brought out another ef-fort on the part of the clergy to induce a compromise conference between the officials of the company and the strikers. The clergymen waited upon Colonel Burpee, but their mission, it is said, was fruitless.

FIELD DAY WITH PIGURES Coal Companies' Statisticians Under Fire of Miners' Lawyer.

PHILADELPHIA, Feb. 4.—Several in-teresting incidents occurred during to-day's sessions of the Anthracite Coal Strike Commission. The merning session was enlivened by the rigid cross-examina-tion of H. D. Newcomb, a statistician of the Reading Company, by Attorney Dar-row for the miners, and a spirited pass-age between the lawyer and the witness. several times Chairman Gray felt impelled to interfere on behalf of the witne is of Newcomb's statements and figures.
At the afternoon session counsel for the

operators intimated that the other side as endeavoring to break its agreement with the operators regarding the basis of percentage in arriving at a definite clusion as to the earnings of contract miners. Numerous witnesses have tes tified that the operators' statements pre sented to the commission show only the gross earnings of the contract miners, and fail to account for the division of money with the helpers. Counsel for the operators admitted that the books accounted for the wages paid to the contract miners only, as the laborers were paid by the only, as the laborers were paid by the miners. This fact having been previously stated to the commission, and an agree-ment having been reached by both sides as to the manner of making deductions in order to learn as nearly as possible the actual earnings of the miners, the the calling of so many witnesses to at-

tack the company's figures.

Charles Neil, assistant recorder of the commission, was asked by Chairman Gray to state the agreement, and at the con-clusion of Mr. Neil's statement, the chairman said the parties to the controversy could not make agreements which would necessarily be acceptable to the commission, although the intention was clearly for the purpose of facilitating the inves-tigation. Chairman Gray decided that the ners were entitled to produce witnesses elucidate the operators' figures. The miners expect to conclude their evidence

The testimony of miners employed by the Delaware, Lackawanna & Western, the Pennsylvania Coal Company and the Temple Iron Company occupied much of the time of today's session.

OPPOSE "SHOOTERS' BILL." Operators Will Not Talk Wages Until

It Is Withdrawn. INDIANAPOLIS, Ind., Feb. 4.—The operators of the soft coal fields who have been in conference with the wage scale committee of the United Mineworkers' organization at 1 o'clock today notified the miners' committee that it would be a waste of time to consider further the scale for the next year until the "shooters bill," now pending in the Indiana Legis-lature, is withdrawn. The bill provides for blasting after the miners have left the mines. The operators say this proposed law would greatly increase the cost of mining, and they told the miners they must have the objectionable bill with The Indiana situation is now the chief obstacle to a wage agreement for

FOUR POLICEMEN MUST GO Commissioner Greene Dismisses the Men for Neglect of Duty.

NEW YORK, Feb. 4.-Police Commis s,oner Greene today dismissed from the force an inspector, a captain, a sergeant and a patrolman, all of whom were charged with neglect of duty in falling to suppress disorderly houses. The men dismissed are: Inspector Donald Grant, of the Second

Inspector Donald Grant, of the Second Inspection District; Captain John S. Stephenson, of the Mulberry-street station; Sergeant John Shlelds, of the Charles-street station, and Patrolman Dwyer, formerly wardman with Edward Giennon in the West Thirteith-street station.

Inspector Grant's district included the famous "Red Light district," of which the Mulberry-street station was a part. Captain Stephenson is a brother-in-law of Inspector Grant, and was once before dismissed from the force, but was reinstated. Sergeant John D. Shields and Petrolman Dwyer were attached to the West Thirtleth-street station during the Summer of 1901, and were tried on charges of neglect of duty growing out of a raid made on the alleged disorderly house of Laura Mauret. Inspector Grant and Captain Stephenson were tried before Deputy Commissioner Ebstein about three weeks ngo, and it was upon his recommendation that the officers were dismissed from the force,

C., Feb. 4.—Advices have been received by the steamer Empress of China of the capture of four Japanese and an American named Thompson, hunt-ers of the Japanese sealing schooner Ishi-kawa Maru, at Robben Island, the sealers being alleged to be raiders. The sealer were captured by the garrison of Cos-socks on the island and taken to Vladivostock, where they were sentenced to four months' imprisonment. The imprisoned scalers have taken steps

to protest against their confinement through the Japanese Commercial Com-missioner at Vladivostock. Before his intervention the prisoners fared badly. When they landed on Robben Island they had only a Japanese flag and a piec cloth saturated in kerosene, but no

CAPTURE OF PRETENDER. Fierce Fight Ends in Disaster to His

Army. PARIS, Feb. 4.—A dispatch received here from Tangler says a special courier from Fez has brought a renewed report that the pretender to the throne, Bu Hamara, has been captured.

A later dispatch from Tangler said that, while pursuing the pretender's forces, the Sultan's cavalry was attacked by the Klata tribesmen, but the other troops of El Menebhi, the War Minister, came up in time to participate in the fighting and the result was a victory of the imperial army with heavy losses on both sides. The remainder of the pretender's followers are reported to have been captured.

LONDON, Feb. 5.-According to a dispatch published in the Morning Leader from Tangier, the Spanish Embassy has received news of a still more bloody battle than that which took place January The Sultan's troops, numbering 12,000, attacked the pretender's new encampment, treachery and bribery again giving the Shereefian army the advantage. A terrible fight took place around Bu Mam ara's person, and, according to the latest accounts, continued right up to the gates of Fez, where, after losing 2500 siain, the rebels succeeded eventually in rescuing Bu

MILES AT WILD WEST SHOW. He Shakes Hands With Old Chiefs Who Fought Against Him.

LONDON, Feb. 4.—General Miles and a party, which included Henry White, Sec-retary of the United States Embassy; the United States Naval Attache, Captain Clover; Consul-General Evans and others, were tonight the guests of Colonel Cody at Olympia Hall, where the Wild West Show is being given. An interesting meeting took place between the General and his old scout. After dinner the healths of King Edward and President Roosevelt were pledged amid great enthusiasm. Colonel Cody then conducted the party to the Indian quarters, where the chiefs greeted them with utmost cordiality, many of the Indians not having seen General Miles since they fought against him. The General recognized and conversed with some of the Indians, who were much gratified at being allowed to shake hands with him. The party then moved to a with him. The party then moved to a box, which was lavishly draped with the British and American national colors, and witnessed the show.

WE TREAT FOR AN AB-SOLUTE CURE ONLY!

Men's Diseases

There is no safety in a partial cure. There may be a sense of safety, but with-out the reality. The patient may believe himself cured, though constantly drifting toward a relapse or a chronic stage. In all our work, thoroughness is given its due consideration. The new and strikingly original methods of treatment we have leveloped and perfected are more ample and comprehensive than those commonly employed. They meet even the most mi-nute details of those ailments to which they apply, and are readily modified according to the requirements of individual cases. Because our treatment is ample, scientific and thorough, our cures are complete and lasting, and our patients have no relapses. For the same reason we are usually able to cure in much less time than is commonly required in obtaining but partial results.

"Weakness"

We can safely say that no physician has met with the success in curing so-called "weakness" that we have. Our treatment is mainly a local one and brings a speedy cure. We have treated successfully thousands, and in no case have we failed to cure permanently.

and in no case have we failed to cure permanently.

So-called "weakness" is only a chronically swollen and inflamed prostate gland, and to reduce the prostate to its normal condition, and remove the inflammation, is what we accomplish, and thus bring return of strength and vigor. It is the only kind of a cure a patient desires, and is the only kind of a cure we will treat for.

Varicocele

Varicocele has robbed many a man of his strength and vitality, and if neglected results in a withering and wasting away of the organs involved. We cure varicocele by an absolutely painless process, without cutting or caustic.

Many neglect treatment for this disease through dread of the harsh methods usually employed by others in striving for a cure. No need to suffer longer, if you will consult us.

Specific Blood Poison

Some doctors dose the system with mineral poisons scarcely leas dangerous than the disease itself. The best they hope to do by this treatment is to keep the disease from manifesting its presence upon the surface of the body. Under our treatment the entire system is cleansed. The last taint of virus is destroyed. Every symptom vanishes to appear no more. We employ harmiess blood-cleansing remedles heratofore unknown in the treatment of this disease. They cure by neutralizing and absolutely destroying the polson in the system. Such cures cannot be otherwise than complete and permanent.

Contracted Disorders

We cure every case of contracted disorder we treat. Our patients have no relapses. No case is so trivial that it should not have the best treatment, as mild neglected cases are the ones which work back to the prostate gland most frequently and cause loss of vital power. We will guarantee to cure every case that we treat so it will stay cured, as well as do it in half the usual time required.

We treat most cases by letter. If you cannot call write for our interesting book describing our method of treatment. We send it free, securely sealed, in a plain wrapper.
