United States Steel Shares Advance on Favorable Decision-Rumored Merger of Rock Island and U. P.

NEW YORK Pob 5.—The aggregate dealings NEW YORK, Feb. 5.—The aggregate deatings in stocks rose to above 750,000 shares. The market was broad and at times very active, and also gave a general impression of strength and advancing prices. That this impression was to some extent filusory is manifest from the small and ranged showing of net gains for the day. Whereas at one time a large number of leading active stocks were a point or more above last night's closing, the last prices for the day were in all cases materially below the best, while in many instances the earlier guins were wiped out, and finally prices were below those of last night. The skilled leader-ship of the market may safely be inferred from

ship of the market may safely be inferred from this showing, and it is not a rash assumption that professional manipulation also played a part in the price movement.

It is evident, however, that operators in stocks with large resources and with an exten-sive organization for the purpose have ven-tured upon a stock-market campaign for an advance in prices. There is no evidence yet that the leadership thus undertaken has been effective in attraction any large ourside busithat the leadership thus undertaken has been effective in attracting any large outside business. There was some increase in commission-house business, and the later downward course of prices warranted the presumption that the professional operators were taking advantage of this demand to realize profits. The prevailing ease of money is the dominant motive for the reviving of speculation, although the low rates to which call loans have fallen are, in part, a result of the recent stagnation of speculative demands.

the creation of a large short interest, which was driven to cover yesterday and today. It was very noticeable that the large concurrent buying of Erie and Ontario & Western resulted in a very slight price movement.

The Pacifics and Southwesterns moved up in company, and this advance was attributed to a bellef that the approximate arrived at heterometers. a belief that the agreement arrived at between the Rock Island and the Union Pacific authorities would be a benefit to the whole railway system in that part of the country. Wabash had the special benefit of the perfecting of its franchise to enter Pittsburg. Profit-taking was in evidence all day in Amalgamated Copper, in spite of the reported strength of other copper stocks in the Boston market, and Sugar was carried down sharply on the announcement of a cut in the refined product. Rock Island also seemed to be under pressure most of the time, and did not share in the early strength in the grangers. the day. The lower cables, both from Liverpool and Paris, showing a marked decline, were
the chief factor in causing the depression. The
openiag was weak, with May off %20%, at
19670%, and a further decline to 78% was
soon made. A fair export demand caused a
raily later to 79%, but local realizing brought
about another decline, and the close was weak,
with May at the low point at 75%, a loss of
%.

Corn ruled steady, in spite of the weakness in wheat, but trading was extremely light, and there was little change in prices. May closed steady, a shade lower, at 44%244%.

Onts were dull. A prominent long was a fair purchaser late in the day, which caused an advance, and May closed its higher, at 39%.

Provisions showed a moderate advance early, influenced by the smaller receipts and higher prices for hogs, but the market failed to hold, and the close was easier. May pork and lard closed Tic lower, and ribs were 12c down.

The leading futures ranged as follows:

REDEEM HAWAIIAN COIN.

American Money Arrives and King Kalakaua's Head Will Disappear.

HONOLULU, Feb. 5, by Pacific cable.)— The First National Bank has received on the steamer Ventura \$50,000 in United States sliver coin, shipped by the San Francisco mint. The bank will at once begin to redeem the Hawalian issue of \$1,000,000 coined in the year 1883, during the reign of King Kalaksua. Exhausted Nerve Force. Frequency, Classification, Symptoms and Treatment.

Most medical men, according to their taste and experience, come to have a peculiar interest in certain diseases; such an interest Dr. Talcott has long feit toward functional diseases of the nervous system.

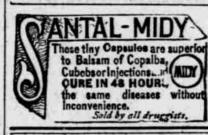

Nervous impairment is one of the most common departures from health. Our experience is that popular ideas, at least upon the subject of remedies, are vague and erromeous. The causes of nervous impairment are of two kinds. varies and erroneous. The causes of nervous impairment are of two kinds. In the first class 'may be placed surroundings and heredity, and in the second all those countiess forms of nervous at the words waste which are so common in modern life, and which may be pretty completely summed up in the words "overwork and dissipation."
