RAID CHINESE DENS

Constable and Deputy Sheriffs Arrest Gamblers

BY DISTRICT ATTORNEY'S ORDER

Two Chinese gambling-houses were raided last night by order of District Attorney Manning, and the three officers who made the arrests took in 13 players of fantan and the rolling dice. In one house the arrests were made at the point Thirteen Chinamen were of the gun. bunched before Deputy Sheriff Adkins, and one of them, a big, stoutly built fellow, made an effort to escape. Adkins stopped him with his fist and a rush followed, during which the officer was compelled to draw his revolver, and the sight of it cowed the Chinese.

The two houses raided were at 55 and 106 Second street, about a block away from the City Jail. The orders were is sued by Mr. Manning in the afternoon, but they did not refer particularly to any Chinese gambling-house. They simply instructed Constable Jackson to arrest John Doe, alias Chin Bow Quong, on charge of gambling. Jackeon had a general idea of the identity of John Doe, and he started out on a search for him. But there are many John Does in Chinatown, and Mr. Jackson had to enlist the services of his deputy, Mr. Adkins, and of Deputy Sheriff Matthews. The three made a joint search for John Doe. The three sauntered along Second street and when they came to 106 Adkins stopped. "I think Jack lives here," he said in

a tone that betokened a familiar acquaint-ance with the notorious John.

There was every evidence that Jack did live there, and the other officers did not dispute Adkins' word. The stockades were

up, the guards out and the doors were set on a spring for immediate alamming. "Here goes," said Adkins, and he made a dive for the open door. The guard tried to close it in his face, but the lithe deputy was too quick and he passed through by the sole of his shoe. Jackson and Mat-thews were close behind him, but they did not succeed in getting through the iron

Adkins say he has never met a more friendly lot of Chinese. Some of them were so brotherly that he had to call a halt for fear of being suffocated by their effueions. The order to halt was not obeyed as promptly as desired, and the gun had to be called into play. Then the door was opened, and Jackson and Matthews admitted. The Chinamen were taken before Justice Reid and were held for trial at ball in the sum of \$100 each. The officers captured the gambling outfit and also the sum of 15 cents.

The gamblers thought there was an attempt to rob the place, but the display of the stars of Jackson and Matthews quieted * Mrs. Wilson is the wife of ex-Mayor but Adkins did, and there was a sudden Two seconds later, though, the aman got on his feet and rushed down the hallway and made his escape, The Chinamen arrested at No. 23 were: Pap Foo, Wong Loo, Ah Sam, Toy Chung and Long Dock. All gave their names unreservedly, as they said they had never been mentioned in the city directory and they had no fear of bill collectors. Like the others they were held by Justice Reid in the sum of \$100 each.

WHAT FERRY WILL COST. Albina Improvement Association Furnishes Estimates,

The Albina Improvement Association has furnished the Multnomah legislative delegation an estimate of the probable cost of providing another free ferry for Albina to be established at the foot of Russell street. Samuel Connell, president of the association and manager of the Northwest Door Company, prepared a short letter containing the figures. It was desired that he should go to Salem last Friday and in person furnish the information, but ng to his severe sickness he could not ferry operated in place of the present one would not provide the relief asked for, and that nothing short of another ferry-boat will meet the requirements of that portion of the city. The present ferry now carries, he says, 2500 pedestrians, and 700 vehicles of all sorts per day. There would be immediate business enough for the second ferry. There was much delay in the transaction of business, and conse-quent loss. Mr. Connell cites the exper-ience of the Northwest Door Company. of which he is the manager, which has four teams, and says that they have to

Mr. Connell states the cost of establishing another ferry some distance north of the present one. The cost of building a suitable boat he places at \$15,000, and the landings on both sides of the river, with slips and waiting-rooms, at \$25,000, making a total of \$49,000. He places the cost of operation at \$500 per month, Mr. Connell undertakes to show that Lower Albino naturally a good visce for manufacture. bina, naturally a good place for manufac-turing establishments on account of there being plenty of solid and level ground requiring no piles, has been held back for lack of adequate transporation facilities, such as have been provided for East Portland, where warehouses and other build-ings have been erected because there are

walt constantly for transporation.

The Albina ferry bill provides for the issuance of \$50,000 bonds, but it is so worded that only as much as may be required shall be issued. If another ferry should be established it will be necessary to secure landings, which would be the most expensive part of the project, as the streets do not seem to extend to the river.

The Troutdale Library Association has just closed a year of excellent work in that neighborhood. P. C. Williams, the librarian, has made a report showing how many books were taken out for each month of the year 1902. It shows that the books are being read generally. In De-cember 200 books were taken out, which is the largest number for any month in the year. The smallest was for May, when 26 books were taken out. Throughout year the average daily attendance the year the average daily attenuance was 15, and for the year the whole number of books borrowed was 1129. YOUNG CONFESSES GUILT York Murderer Sentenced to Prison for Life.

NEW YORK, Feb. 9.-William Ho Young on trial for the murder of Mrs. Anna Pulitzer, pleaded guilty to murder in the second degree and was sentenced

Justice Herrick explained that he had advised Young's counsel to change his plea, and also advised the District Attorney to accept it, this action being taken ause of the prisoner's mental condi-n. According to the report of the doctors he was not insane in the legal as-pect of insanity, but from a purely medi-cal point of view he is not sane.

In sentencing Young, the justice said: "There is no occasion now for me to make any remarks as to the enormity of your offense. You are aware of the pen-alty of your crime. The sentence of the court is that you be confined in state prison at Sing Sing at hard labor for the term of your natural life."

For the first time since the case was called Young walked into court today without assistance. Dr. Buckley Causes Sensation at Meeting of Methodist Preachers.

Buckley, editor of the Christian Advocate, of this city, caused a sensation at a meeting of Methodist preachers here today. The previous speaker, D. D. Thompson, editor of the Northwestern Christian Advocate, of Chicago, had spoken in a most enthusiastic way, declaring that there had been 1,500,000 converts made by the Methodists in the last four years.

Dr. Buckley disputed the accuracy of these figures. He declared that statistics showed that Methodism was actually declining, in some of the Eastern confer-ences at any rate. He believed in looking at the facts, and he declared it was a grievous mistake to take an overoptimistic view. His statements were vehemently opposed by the other members. Dr. Buckley made several short answers to

TAKES CHLOROFORM IN FIT OF DESPONDENCY.

Iwo Previous Attempts to Commit Suicide Were Prevented by Eve-Witnesses.

By taking a large dose of chloroform Otto Panck, proprietor of a curied-hair mattress factory at 415 Warren street, yesterday ended his own life. He is thought to have committed the deed in a fit of temporary insanity. His mind has seemed ato be affected for some time past, and twice before yesterday he at-tempted to take his life. No motive is known for the deed. He left a wife and three children. His relations with his family are said to have been happy, and he is known to have been in an unem-barrassed financial condition. Dr. Paul J. Semler has been attending Panck for some time. His two previous attempts at suicide were of much the same char-acter as the one which finally ended in his death. He was taken periodically with despondent spells, during which he would drink heavily and often threaten to kill bimself.

Panck lived at 366 North Twenty-se street. A short time ago some of his prop-erty was destroyed by fire, and yesterday he was to receive a payment of about \$400 on the insurance. His wife went to the insurance office during the afternoon and attended to the details and took the papers home for him to sign. When she tried to find him she found that the door to his room was fastened securely from the inside.

Remembering that he had threatened to take his life, she was at once alarmed and summoned the family physician. By the time Dr. Semier arrived the man was breathing his last. The close room smelled strongly of chloroform, but no bottle could be found from which he could have taken the draught. His prostrate form was lying crossways on the bed, and the door had been tied on the inside so that no one could come in and bother him until the deed was done. Both of his former attempts were checked by the intervention of some one who was watching him The first time he tried to take chloroform but was stopped before he had taken a large enough dose to prove fatal. second time he took morphine. DR. W. NORTON DAVIS,

"Weaknese"

Functional derangements, commonly termed "weakness," are a direct result of inflammation, enlargement of or excessive sensitiveness of the prostate gland, brought on by early dissipation or resulting from some improperly treated contracted disorder. These conditions cannot possibly be removed by internal medicines, and any tonic system of treatment that stimulates activity of the functions can but result in aggravation of the real ailment.

ean but result in aggravation of the real ailment.

This is a scientific truth, that we have discovered, after careful study and observation in hundreds of cases, and is a truth upon which our cwn original system of treatment is based. We employ neither tonics, stimulants nor electric beits. We treat chiefly by local methods, and our success in curing even those cases where others have failed is conclusive evidence that our method affords the only possi-

Stricture

We cure every case of varicocele we treat, and our treat-ment is entirely independent of surgery. Our method is our own, and it cures in every instance. Others must operate because they have been unable to adopt our system successfully. Our treatment is pain-less, harmless and prompt in curing.
