WASHINGTON, Feb. 9 .- Speaker Henderson, who has recovered from his re-cent indisposition, presided over the de-liberations of the House today.

After the reading of the journal, Richardson (Tenn.) took exception to the presentation of the conference report on the Department of Commerce bill at yes-terday's memorial session. He contended that the action of yesterday was void. The Speaker ruled that it was regular. He said in his ruling that it has been repeatedly held that Sunday could be made a legislative day. There had as a fact been no legislation at yesterday's

Richardson protested against the ruling as a dangerous precedent, and moved to correct the journal so as to strike out the action of yesterday. Eleven Republicans voted with the Democrats for this motion, but it was defeated on a rising vote of 80 to 88.

Richardson demanded the ayes and noes, and the roll was called. The motion was carried, 116 to 161. Twenty-eight Republicans voted with the Democrats. The net result of this action is to postpone the consideration of the conference report on the Department of Commerce bill until

agreed to.

The House then proceeded to the consideration of District of Columbia business. A bill to authorize an advance of \$5,000,000 to the District of Columbia was defeated, 95 to 66.

The conference report on the Depart-ment of Commerce bill was presented by Hepburn and ordered printed.

A partial conference report on the bill for a union station in Washington was agreed to, after which Morrill (Pa.) moved that the House recede from its amend-ment to the bill, which reduced the appropriations for the Pennsylvania Baltimore & Ohio railways from \$1,500,000 to \$1,000,000, but this motion was defeated, to 107. TO EXPAND THE CURRENCY. Bill Allowing Banks to Deposit State, City and Railroad Bonds.

WASHINGTON, Feb. 9.—Senator Aldrich today introduced a bill authorizing banks which are National depositories to deposit for the safeguarding of the Government other securities than Government bonds. The intention of the bill is to give greater elasticity to the currency and permit of the release of larger volumes of the Gov-ernment funds in times of stringency. In addition to Government bonds, the bill provides for the Reposit of state bonds, vides for the deposit of state bonds, nicipal bonds of cities of 100,000 popu-on which have been in existence for 25 rs and which have not defaulted on of their debts, and the first-mortgage bonds of any railroad company which have paid dividends of not less than per cent for ten years.

The Secretary of the Treasury is given

authority to determine the proportion of the various securities that he will accept, and also to require any additional secur-ity. The banks are required to pay inter-est on the Government funds in their keeping at the rate of not less than 1½ per cent; and the deposits are payable on lemand. The bill also makes the bonds banknotes. The payment of one-quarter of 1 per cent every six months on such of its notes as are based on the canal bonds

Another provision of the bill authorizes the Secretary of the Treasury to retain in the general fund of the Treasury National banknotes received in the ordinary course of business or presented to the Treasurer of the United States, and pay out such of them as may be fit for circulation for any of the obligations of the Government,

Rawlins, answering some references of Kean to the Mormons, said that in Sait Lake City the non-Mormons are glad to aid in electing Mormons to important po-litical offices because of their desire to give to the municipality good government. Certain elements in the church, he said, by reason of long habit, were disposed to yield to the dictates of prominent individuals in the church.

"It is not to be denied that their influ-ence is very considerable," said he, "but there is still a large element among the dormons who resent the idea of such interference."
Mr. Kean said the people of the United

States are opposed to polygamy, and mean in any way to stamp it out.

Answering Nelson, Kean said that the Mormons who fied from Idaho to Mexico undoubtedly would return to the United States and mix in the politics of Arisona and attempt to usurp the public authority of that state should it be admitted.

Hale interrupted to remark that every time this phase of the subject is reached it presents some new information, and before anything further is done he thought somebody should submit amendments in order to have an expression of the feel-ing of the Senate on this subject and bring

He declared it was wrong to charge the people of New Mexico with being repudiationists, polygamists and ignorant. If given the opportunity, he said, they would present the identical legislation prepared by them in 1899, declaring against bigamy and polygamy. in said in part: "The great questions over which the coming fight for the Presidency will be waged are: First, the foreign policy of the Administration; second, the treatment form; fourth, economy in government administration.

"The great question whether the Philppines are ultimately to be admitted as territories or be given independent now before us for settlement. I be that a majority of Democrats are of the opinion that they should be given com-plete independence at an early date. "The proper regulation of industrial combinations known as trusts is also before the people and many bills have been introduced which under the guise of reguintroduced which under the guise of regu-lation would practically amount to such control over state corporations as to wipe out state lines and establish a centralized form of government not unlike that of France. I believe the first step should be radically to review our system of tariff taxation to the end that foreign competition may come in to take the place of that domestic competition which place of that domestic competition which is being destroyed. Then, by examining the effect of foreign competition, we shall soon find what additional legislation is needed to control monopolies. Meanwhile the Federal Government should enforce existing law and provide new legislation to secure information as to what these combinations are doing."

Mr. Folk discussed the question of of-ficial corruption and declared that, if Samuel J. Tilden were now alive, he would find a situation vastly worse than that he contended against in the days of the Tweed ring.
