Morgan Opposes Canal Treaty.

The Senate then began consideration of the Panama Canal treaty between the United States and the Republic of Colombla. Senator Morgan immediately took the floor to urge that the treaty be amended in many respects and to oppose it unless amended. He contended that the convention is loosely dray n and said that in order properly to saf-guard the inter-ests of the United States it should practically be made over.

Senator Morgan directed special attention to the fact that there had been a failure to embody the act of Congress providing for the construction of the canal in the treaty, as was set forth in the preamble, and dwelt at length on the unreliability and revolutionary character of the government. He asserted that the price of \$10,000,000 in cash which the United

In this connection, he declared that a recent chief arcentive of the Colombian covernchief executive of the Colombian govern-ment had sold out and abdicated for \$1.000.000

No House members were heard, however, and as Senator Simon was indifferent and declined to urge the amendment and Senator Mitchell's amendment for Salem, the state suffered in consequence.

WHIRLIGIG OF POLITICS.

Has Made Roosevelt a Power Where We Was Formerly Ignored.

OREGONIAN NEWS BUREAU, Washngton, Feb. 12-Up to a few years ago Roosevelt was absolutely ignored in New York politics, and not until he became Governor was he considered a factor in the Republican party. It is well known that Platt wanted Roosevelt for Vice-President, because he thought it would shelve him and take him out of New York politics, but his advancement to the Presidency has made him more of a factor than ver before, and now, when Odell, who was for years an understudy of Platt, dis agrees with the Senator over New York affairs, he comes to Washington to have Roosevelt settle the dispute.

Every situation in New York, whether it relates to state or Federal patronage, must be settled on a basis satisfactory to the President, and the men who were Rocsevelt's friends before he became powerful are taken care of by the present 'machine" and it is recognized that Roosevelt is an important factor in the politics of the Empire State.

Odell's present visit to Washington is one of those occasions on which various interests had to be harmonized and Roosevelt had to do the harmonizing.

Good Sense of Mules.

New York Press. A mule has twice as much sense as horse. I have shaved many a mule tail and never had a hoof raised against me. It matter not how vicious the animal may be at other times, and there is no business like the business end of a mule, it will humbly, sedately and patiently permit you remove every hair from its caudal ap-dage.
