Lewis of King Declares Measure Is Still Before the House on Secoud Reading-No Other Bills to Be Considered.

OLYMPIA, Wash., Feb. 13 -(Staff co. respondence.)-The railroad commission men today failed to get their unfortunate bill out of the hole into which they unintentionally pushed it on Wednesday. Lewis of King, who is generally held reaponsible for the blunder which enabled to slip through his fingers, endeavored to call it up on second reading this morning, but he would have been fully as suc cessful had he been calling spirits from the vasty deep or four aces with a bob-

There was an air of expectancy hover ing over the House as the reading clerk droned his way through the uninteresting routine and committee reports, and when the calendar was finally reached the gentleman from King arose, amid perfect silence, and with a smile that was childlike and bland asked the speaker for information as to the present status of the bill, which he was apparently surprised at not seeing at the head of the calen dar. The Speaker informed him that the bill had lost its position on second reading, and was still in the hands of the amittee of the whole,

Finding no satisfaction in this direction. Mr. Lewis took a new tack and made the point of order that the bill had been returned to the House with a report, and that no permission had been asked to sit again, and that it was therefore before the House on second reading. He asked that the Speaker reserve his decision until Tuesday morning, in order that the business of the session might not be interfered with by argument. To this the Speaker assented. Lewis then moved that the vote by which the House went into mmittee of the whole be reconsidered This motion was declared out of order and Mr. Lewis appealed and asked that unanimous consent be given that the appeal go over until Tuesday morning, when the matter will be argued. Consent was given and the railroad commission bill will enter on its sixth week as an obstruction to

It would be manifestly unfair for the House to have a railroad commission bauble to play with while the Senate was without such an attraction, so Senator Tolman introduced S. B. 157, which provides for the same kind of a railroad commission as the bill that was killed Wednesday, with the exception that the com missioners shall be elected instead of appointed. Under the terms of the bill three mmissioners are to be elected at the next general election, one to hold office for two years, another for four years and a third for six years, each of their sucors to be elected for a six-year term.

With an elective bill in the Senate and an appointive bill in the House, Senator arburton will probably wait a few days before he introduces his bill, but there is nothing in the situation to warrant the belief that either house will be permitted to forget that there is a paramount issue Washington, and that issue is the rail road question. ### Bill Passed Reducing Term of Jury Service.

OLYMPIA, Wash., Feb. 13.—(Staff cor-espondence.)—The Senate this morning respondence.)—The Senate this morning passed Senator Rasher's bill reducing the from 30 days to two weeks. When it came up the sponsor for the bill made his maiden speech in the Senate. He said:
"I hope every member of this body will sider this bill carefully before casting his vote. Every good citizen and payer is interested in it. It was up by the business men of Spokane, and all agreed that if this bill should become a law it would not only help reduce taxes, but would enable us to get business men and men of affairs to serve as jurors Business men say now that it is impossible for them to leave their business for four weeks, and all kinds of excuses are made to be released from jury duty. If they are asked to serve as jurors for but two weeks and then be discharged, they will be glad to do so. The only ob ject of this bill is to get our best citizens to serve as jurors. If it becomes a law it will put the professional juror out of

Senator Palmer of King opposed the bill, but it went through with only thre dissenting votes.

The Senate passed several other bills,

as follows:

S. B. 108, by Sharp, fixing a standard size fruit box. The bill provides that an apple-box shall be 18 inches long, 11½ inches wide and 10½ inches, deep, inside measurement. IN THE HOUSE, One-Hour Session-Twenty Bills In-\* troduced, Three Passed.

OLYMPIA, Wash., Feb. 13.—(Staff corre-pondence.)—The House was in session but one hour this afternoon, and the busi-ness for the entire day was of moderate proportions. Aside from the introduction of about 20 bills and the passage of three moriais, the only business at the morning session was the reading of committee reports on about 50 bills, a dozen of which were indefinitely postponed. None of the bills which met that fate were of much equence, and of the bunch recom mended for passage but few will add to the wealth or happiness of the people of the state. The Congressional apportionment bill came up with the two reports previously mentioned and passed on to second reading. The omnibus appropriation bill was made a special order for Monday at 2:39 P. M. The committee appointed to investigate the state printing matter reported that they had summoned an expert, and were making satisfactory prog-ress. After this routine was cleared away, Mr. Lewis, of King, arose for in-formation. He desired to know the present status of H. B. 94, better known as the railway commission bill. The chair ruled that it had lost its position on the calendar and was still in the hands of the committee of the whole. Mr. Lewis ap-pealed from the decision of the chair, and moved that the vote by which the bill fell into the hands of the committee of the whole be reconsidered, and that the mat-ter go over until 10 o'clock next Tuesday morning for argument. The chair then made this motion a special order for the

time stated. At the afternoon session four bills were passed, the only ones on which much time was wasted in argument being that of Johnson for an eight-hour day for underground workers.

## AGREE TO OMNIBUS BILL

ESTIMATE OF STATE BOARD OF CONTROL IS ACCEPTED.

Appropriations Aggregating \$764,-650 for State Institutions Will Be Asked For at Olympia.

OLYMPIA, Wash, Feb. 12 -(Staff correspondence.)-The highest compliment that could well be paid to the Washington State Board of Control was given it today by the appropriation committees of the House and Senate. These two committees, meeting in joint session, unanimously agreed on an omnibus bill, carrying appropriations aggregating \$764,650, and a bill asking for that amount will be introduced in both houses on Monday. The remarkable feature of the appropriation lies in the fact that the Board of Control was given every dollar that they asked for, and the money was cheerfully granted by a committee dominated by the men improvement purposes. Such lands are now exempt.

# MEN CURED

## THOROUGHLY **PERMANENTLY**

Our methods appeal practically to men who have tried other treatments to meet with disappointment, or at least, but temporary relief. We wish to impress upon these men the fact that our superior skill justifies us in making men's diseases our specialty. We wish to prove conclusively that we are not offering treatment such as most physicians are able to give. No matter if other doctors have failed to cure you, feel fully assured that if we accept your case the treatment given will be absolutely scientific and fully effective.

### Contracted Disorders

Improper treatment of contracted disorders can easily bring loss of power. An examination reveals this very cause in a large portion of the cases of weakness. Lingering inflammation centering in the prostate gland is sure to result in disordered functions, and the condition will never be corrected until the inflamed and swollen gland is restored to its normal state. We thoroughly cure every contracted thoroughly cure every contracted disease we treat. The remedies we employ are known to ourselves alone, and no other physician has yet produced equally prompt and thorough cures,

## Stricture

The service we offer you is origi-nal and distinctive. Do not give up hope because others have falled, We will cure you and the cure will be a prompt and painless one. Our treatment dissolves and permanent-ly removes every obstruction from the urinary passage, subdues all in-flammation, relieves all irritation or congestion that may exist in the kidneys or bladder, reduces enlargement of the prostate gland and re-stores health and tone to all organs affected by the disease.

Piles

Our treatment is mild, gentle and certain, and our practice in this disease constantly grows as a re-sult of recommendations from those whom we have cured.

## "Weakness"

Functional derangement, such as prematureness, loss of power, etc., is neither a "weakness" nor a disease. It is a symptom of prostatic disorder. To stimulate activity by the use of powerful tonics is an easy matter, but such results are merely temporary drug effects. Most doctors treat "weakness" in this manner because they do not Most doctors treat "weakness in this manner because they do not know how to cure the real cause of the derangement. We use no tonics at all. Our treatment is principally a local one and corrects every abnormal condition of that vital center, the prostate gland.

## Varicocele

Our treatment for varicocele is a radical departure from the unscientific and violent measures commonly employed. We effect a complete cure in even the most advanced cases, and our method is absolutely affected. cases, and our method is absolutely safe and certain, and is entirely painless. The patient need not be detained a single day from his bust-ness. No man afflicted with vari-coccle should hesitate to place himself under our treatment, as there is no uncertainty whatever as to
