Wool Markets

Wool Markets.

BOSTON, Feb. 17.—The Boston wool trade is quiet, with a moderate business doing in small lots. Large buyers are waiting for further developments in the market before taking stocks. Others are said to be holding off in an endeavor to weaken prices. The situation, however, continues firm, with an advance probable at an early date. Fleece wools have been in fair demand, while territory wools seem to be in better shape than other varieties. Quotations:

PRICE MOVEMENT SPOTTY

INDUSTRIALS AGAIN FEATURE OF STOCK TRADING AT NEW YORK.

tumored Engagements of Gold for Export by Steamer Causes Active Selling Movement.

NEW YORK, Feb. 17.-The movement prices of stocks today was irregular. The in-terruption to the wire service by the storm was given as one cause of the dearth of out-side orders, but business from commission houses was at a low level from all sources. The general approval accorded to the petition of the governors of the Stock Exchange to make Saturday a holiday, in addition to the regular Monday holiday, is a sufficient indication of the small proportions of commission-

house business at this time.

The industrial stocks had a rather more prominent place in the trading today than they did yesterday, but their price movement they did yesterday, but their price movement was very spotty. The speculators who inaugurated the movement in those stocks yesterday were inclined to take profits. This was
conspicuously evident in the United States
Steel stocks and in sugar. The operators
seemed to be prompted by the new anti-trust
measures in Odngress. The bull campaign in
Amalgamated Copper was continued this morning, and that stock was lifted an additional
1%, but the later reaction of the market left 1%, but the later reaction of the market left only a small fraction of this gain. The rise of 2% in Tennessee Coal was based on the increased earnings disclosed by the annual reincreased earnings disclosed by the annual re-port, and the expenditure of these earning on the property without any intimation of early dividend disbursements did not seem to de-tract from the favorable influence. The seven-point rise in Anaconda, with a reaction of 114, was in sympathy with Amalgamated. There was a notable demand for American Locomo-tive late in the day, but its rise was not fully maintained. maintained. Metropolitan Spreet Ballway led a further advance in the local tractions, which

was not held.

The rather active selling movement which developed midway of the session was prompted by the well-defined rumors that exports of gold were being negotiated for Thursday's steamer. No official acknowledgement of the truth of these rumors could be secured, but the refusal to disclaim them by prominent banking houses gave color to the report. Ster-ling exchange advanced several points here, but reacted a fraction of a centime in Paris. The rate of time money here operates as an obstacle to an outgo of gold. London was a buyer of stocks here telested and obstacle to an outgo of gold. London was a buyer of stocks here today, and the fact that part of the Eric convertible bond issue is to go abroad promises a supply of exchange. On the other hand, the buying of grain for ex-port today was rather light, thus restricting the supply of exchange. The question of en-gagements of gold tomorrow for export on Thursday is still converse. Thursday is still open. Damage to property by the great storm was of some influence in prompting the light seiling. The market closed heavy at about the lowest.

There was heavy seiling of St Louis & San Francisco funding bonds. The market gen-erally was fregular. Total sales, par value, \$2.290,000. United States old as declined a per

BUYING CAUSES UPTURN

MAY WHEAT AT CHICAGO CLOSES THREE-EIGHTHS CENT HIGHER,

Armour's Efforts to Buy Around the Low Point Gives Strength to the Situation.

CHICAGO, Feb. 17.—Wheat ruleddull during the greater part of the session, and weakness prevailed until near the close, when fair buying by commission houses and local traders caused an upturn, and the close was firm. The opening was easier on indifferent cables, May being down a shade to the control of th a good cash demand. After seiling at 10%, May closed %c up at 77%877%c.

After a high opening, the corn market developed considerable strength, and higher prices prevalled throughout the day, in spite

prices prevailed throughout the day, in spite of heavy selling by commission houses and short selling by scalpers. The close was firm, with May 4644c higher at 454c.

The increase in the contract stocks of oats invited renewed liquidation in that pit, and the market ruled rather easier. The close was easy, with May 4644c lower at 3546505c.

Provision were decidedly strong at the state. Provision were decidedly strong at the start, keeping pace with the upward movement in hog prices. The better prices brought consid-erable realizing throughout the day, and the greater part of the early gain was lost. Pork closed 106124c higher, lard unchanged, while
