#### CITY NEWS IN BRIEF

The Oregonian's Telephones.

MARQUAM GRAND THEATER - This after noon at 2:15 o'clock, tonight at 8:15, William A. Brady's "Lovers' Lane." RAT'S THEATER-THIS EVENING AT

AUDITOR DEVLIN yesterday sent off to the Bondbuyer. New York, an advertisement asking for proposals for the purchase of £6.00 of city bonds bearing 4 per cent interest, bids to be received until April 6. These bonds are to be sold to refund city bonds issued in 1891, bearing 6 per cent interest to run for ten years. When that time was up two years ago there was no authority to refund them, nor money to take them up, nor has there been any money svailable for that purpose since. The new charter gives authority to refund outstanding city bends when this can be done at a less rate of interest. The bonds can now be refunded at 4 per cent interest, which will save the city \$1130 a year interest, and it is thought that a premium can also be obtained. Part of the money obtained from the sale of the bonds in 1851 was used to purchase the City Park. When they became due and there was no money to take them up, the holders were well entisfied to let them run, and the city has gone on paying 6 run, and the city has gone on paying 6 per cent interest on them till this time. It is known that the new 4 per cent issue could be sold, but it is not known that any premium could be obtained on them.
It is believed that by advertising them.
East a premium can be obtained, which will increase the saving to the city made.

by refunding them.

BRICK BUILDING ON THIRD STREET.—The old shacks at Nos. 185 and 187 Third street, on property owned by Philo Holbrock, have been torn down within the past few days, and the debris is being cleared away as rapidly as possible. It is understood that the ground has been lessed for a term of ten years and that a one-story brick building. 35 by 160 feet, is to be erected thereon, to be used as a dance hall. It is a pity that a better building for a better purpose could not have been built thereon. This might have induced the Ray heirs, who own the adjoining he Ray heirs, who own the adjoining parter block on Third and Yamhill, to eplace the tumble-down shacks thereon replace the tuning solution agood location for business. It is a pity that in these days when office buildings are so crowded, and there is such a demand for office room, so many old shacks are allowed to exist in and about the business

No ELEVATORS IN BESLIN.-A citizen of German extraction, who visited the City Hall yesterday, took exceptions to an elevator being kept in operation there. He said it was a needless expense, as people have climbed the stairs for years and can do so still. "Why." said be, "in Berlin there are many six and eight-story buildwithout elevators, and people trot up and down the stairs without making any fuss about it." A citizen who has visited Berlin says most of the tall buildings there are hotels and the upper stories are there are notes and the upper store are inhabited principally by students, who are mostly young men. The stairs are built on curves and on easy grades. These facts will not induce many Americans to waste much of their lives, which are all too short for the work they have to do, in trotting up and down from top to bottom of modern ekyscrapers.

of modern exyscrapers.

Asks Money for Charities.—Secretary
Walpole, of the City Board of Charities,
has recovered from an attack of the grip and will start out to secure enough su scriptions to make up the \$6000 desired for the work of the board for this year. He feels confident of accomplishing this within two weeks. Demands on the funds of the board have been heavier than usual during the past month, as there has been more sickness than usual among working-men caused by cold and the grip, owing men caused by cold and the grip, owing to the cold snap. Workingmen who have to quit work at this season often find it difficult to secure employment when well enough to go to work again. Their places have been filled and they have to wait till vacancies occur, and in the meantime. cles occur, and in the meantim their families often have to be assisted.

THE GRAND ARMY and other war veter ans are making preparations for a camp-fire and a general good time on next Saturday evening, March 7. There will be a bean dinner from 6 P. M. to 8 o'clock and a fine programme following. The Woodmen will have one of their teams on work as one of the entertaining fea-tures of the evening (all Woodmen particularly invited to be present). There will also be other excellent talent on programme pleasing to all. Invitation extended to everybody. A small admission of 25 cents to ald the Soldiers' Monument fund of Lone Fir cemetery. Don't forget the place, Woodmen's new hall, East Sixth and Alder streets, Take cars to Grand avenue and East Morrison.

DENIAL FROM J. B. NYE.-J. B. Nye, of the Hoffman Cafe, of this city, says he is not mixed up in the case of George F. Snyder and wife, who were arrested in een compelled to disgorge dis that Nye had given the woman. Mr. Nye said that when he read the dispatch published in the papers, he began an investi-gation and learned that a man named J. Monroe Nye was in the case in some way.

SEWER NEARLY COMPLETED.-The sewer in Morrison street, the construction of which has caused so much dirt in the roadway for several weeks, will soon be completed. The pipe is laid and the trench filled from Front to Fifth streets and the trench is dug to Sixth street, where it takes a curve and will go through Postoffice grounds, where it connects with

the old sewer and ends. A LITERARY TREAT.-The Canadian poet, Dr. Thomas O'Hagan, will give a series of ten lectures at St. Mary's Academy and College Hall, corner Fifth and Mill streets, the College Hall, corner Fifth and Mill streets, and Interpretation of Poetry. Tonight at S. P. M., subject, "Tennyson," Single admission is centa Course tickets it.

CHINOOUS HAVE SHORT REST .- Ste

CHINOORS HAVE SHORT REST.—Steelhead fishing in the lower river was closed down March 1 after a very successful season and ready sale for the fish at 5 cents per pound. Chris Henry, Martin Stanisch and several other of the gillnetters who have been fishing for steelheads since December last arrived here yesterday and banked their piles preparatory to having a short holiday and then getting selaing outfits ready for the Spring fishing, which begins April 15. Until this time the noble chinook are supposed to be left unmolested to find their way to the spawning pools of the Clackamas and other streams. It is reported here that tons of these fish have been caught lately at Oregan City where their journey is blocked by the fails, and that so many are working their way up the Clackamas that preparations way up the Clackamas that preparations are being made by gillnetters for fishing that stream, and that the fish will soon be coming into the markets here conbe coming into the markets here con-cealed in covered wagons. The canners say this should not be allowed, and prob-ably the Flsh Warden will do all in his power to prevent it, but it is very difficult on such a long stretch of river to prevent some lawless fellows from dropping down reaches at night with gilinets which rake the bottom and clear the river of fish. Hence the necessity for maintaining salmon hatcheries.

COMMENT ON THE FIRE Among the crowd which stood on Third street, opposite the Dekum building much of the day yesterday viewing the ravages of the fire there the night before, were seen from time to time many of the occupants of the rooms burned out. A number of these had lost all their sapers and implements. Just before noon Councilman Rumelin came along smiling. He said: "We are all right. The safe has been opened and the contents are all intact. Our records were tents are all little. Our records were burned, which we consider a loss to us of about \$1600, though of course no one else would give that much for them." E. W. Moore, whose photograph gallery was cleaned out, said: "Well, I am thankful that I am able to go into business again, if I can get a location. That is what is troubling me now." Several others said: "Oh, we had insurance enough to cover what we lost, but our loss will be from interruption of business, and I do not know where to find another location, everything is full." Many expressed sorrow for the Misses Shogren, in whose dressmaking establishment on the seventh floor the fire started, and who are both East after new stock.

WHEN THE EAST WIND BLOWS.—Previous to the great fire in the Dekum building yesterday morning the fire department had not been called upon for any great exer-tions for some time. A few still alarms from burning flues were about all there was to attend to for a week or more. These were attributed to the east wind. These were attributed to the east wind. No one ever has a good word to say for an east wind and all sorts of evils are attributed to it. "It is always a cold, dry wind," said a fireman, "and the way flues take to burning out when the east wind blows beats the band. Other winds may blow as hard as they please without causing flues to burn out. Probably the east wind being generally a cold one causes more and larger fires to be built than others, and in many flues not com-monly used, and this may account for the unusual number burning out when the east wind blows." At all events the east wind has a bad reputation and anything mean may be said of it.

WANT GRADE CUT DOWN.—Property-owners on Washington street, in the vi-cinity of the highest point of the grade, a little east of Twenty-third street a little east of Twenty-third street, are desirous of having the elevation of this summit reduced. The City Engineer has been figuring on the matter. Some would like to have the grade raised at Twenty-third street, but this is not considered desirable, as it would make it necessary to raise the grade for some distance down Twenty-third street, and on considerable property about the junction of that street. property about the junction of that street with Washington. It is probable that the desired object will be accomplished by making a vertical curve at the summit, which will cut down the apex from a foot to two feet and will make the ascensaler. The matter is not yet decided on To REPAIR TWINTIETS STREET,—The City Engineer has finished his survey of Twentieth street from Washington to Savier and finds that it will not take a great amount of work to get the street in first-class condition. Nearly all the macadam on the street is in good shape and, only needs a few loads of crushed rock here and there to fill the ruts. Al

United States Civil Service Commission announces that on March 24 an examina-tion will be held in this city for the po-sition of laboratory assistant. Certifica-tions from this examination will be made to fill this position in the Bureau of Soils, Department of Agriculture, at a salary ranging from \$860 to \$1500 per annum. Per-sons desiring to compete should call on or address Z. A. Leigh, Secretary Board Examiners, Postoffice Department.

CHARGED WITH EMBERZLEMENT.-Edward Lienluken, wanted in Minneapolis ward Lienluken, wanted in Minneapolis on a charge of embezilement, was yesterday arrested by Detectives Snow and Kerrigan, Lienluken was in the employ of Brown Bros., of Minneapolis, as bookkeeper until August 1 of last year, when he disappeared and at the same time \$1200 belonging to the firm. The case was turned over to the Pinkerton Detective Agency and the man soon traced to Port-

AWNING IN A BLAZE-The awning in front of Mace's market on Fourth street, near Morrison, was set on fire yesterday morning by sparks blown from the fire in the upper part of the Dekum building Fortunately some of the employes and Mr. Mace had heard the slarm and had come down to the market. They tore the J. Monroe Nye is supposed to live in Seattle, and is said to be the husband of the alleged Mrs. Snyder.

ORIENTAL BARAR.-A. Atlych, from New York, is showing for two days a large line of Turkish allk rugs, draperies, Cluny laces, etc., the Portland, room 22, you are invited to inspect it.

DRE. GEO. H. AND ARTHUR W. CHANCE, dentists, formerly Dekum building, are in rooms 60.2 McKay building, Third and Stark streets. Office hours as usual. DES. ANDREW C. SMITH and Luther H. Hamilton at the offices of Dr. Coe and Gillepsie, Marquam building, from 3 to 6. Telephone Oak El.

DR. MAE H. CARDWELL will be in the Marquam building, room 706, until her office in the Dekum is repaired. 'Phone,

DR. ALDEN, dentist, rooms 49-41 Labbe building, N. E. corner 2d & Washington.

#### A LAYMAN Gave Doctor a Hint About Coffee.

Speaking of coffee a doctor of Decatur-ville, O., says: "We used to analyze cof-fee at the Medical College and in spite of our laboratory tests, which showed it to contain caffine, an active poison. I continued to use the drink and later on found myself affected with serious sto-mach trouble, indigestion, headaches, etc. "The headaches came on so regularly and oppressed me so that I found it difficult to attend to my regular duties. One day last November I met a friend whôm I had known to be similarly afficted. His

inte heeding medicines should call at the office for same. Regular practice will be resumed Monday, March 5.

Dr. Josepul has offices temporarily with Dr. Gelsy, 50-10 Oregonian building. Hours 10 to 1 and 6 to 5. Telephones, office, Main 116; residence, East 26.

Dr. Fond Wannan will have her office temporarily at her residence, 234 Montgomery street, corner Seventh. Office hours from 20 to 5.

Mass Supposeur can be found at room in the control of the change in year. In the week I noticed a little difference, but not much. The third week the change and made the same change myself. The first week I noticed a little difference, but not much. The third week the change was almost magical. I have continued with the Postum and now my digestion is perfect, the nervous heafaches have entirely disappeared, and I am well. My own analysis of the Postum Food Coffee Shows it to be a pure food drink of strong character, which is a marked contrast to the old-fashioned coffee." Name given by building.

CLEANING GROOVES OF STREET-CAR TRACE.—During the Winter the manage-ment of the Portland Railway Company has been having a hard time keeping the groove in the rails on Washington street free from obstructions. The street west free from obstructions. The street west of Sixteenth is not paved yet, and the dust occasioned by the recent dry weather locates itself in the groove, with the result that the wheels of the cans are sometimes thrown from the track. Several methods of sweeping were resorted to, but to no avail, and it was thought that it would have to be given up as a bad job until some shrewd person hit upon the idea of sluking the grooves out with water. As the track is down hill from St. Clair street, all the company has to water. As the track is down hill from St. Clair street, all the company has to do is to put a man at the upper end with a garden hose connected to a nearby faucet, and turn the water on the rails. The groove retains the water for many blocks, and it runs along with speed enough to carry off all dust and dirt from the tracks.

NO NEW SIDEWALKS WITHOUT PERMITS Now that the wheels of the city govern-ment are running smoothly under the new charter, no excuse will be accepted by the City Engineer from property-owners for not complying with the ordinances for-bidding the laying of sidewalks without permits. Persons inside the city limits found tinkering with their sidewalks without first having secured a permit from the authorities in compliance with the regu-lations of ordinance 12,881 will be sub-jected to a fine ranging from \$50 to \$500. The City Engineer wants this thoroughly understood, and violations will be immed iately followed by arrests.

Owing to fire in the Dekum building my dressmaking establishment will be closed for a few days until suitable quar-ters can be secured. For orders or in-formation 'phone Grant 1691, Max.

DRS. ADIX & NORTHBUP, Osteopaths, formerly in Dekum building, have offices 415, 416 Abington building, same hours. RICHARD MARTIN, JR., architect, 411 Commercial building, Second and Washngton etreets. Wiss Bnos., dentists, The Failing.

#### COMING ATTRACTIONS.

"Lovers' Lane" Matinee Today. "Lovers' Lane," which is, by the way, one of the most charming plays of its kind on the American stage today, will be on the Marquam boards this afternoon in a popular-priced matines—adults to cents and children & cents. "Lover's Lane" might be called a play something on the lines of "'Way Down East" or others of that nature, with some of the country appropriate left and Open to the country appropriate left and the country appropriate left an numpkins left out. Owing to the fact that there are 20 school children in the cast, the little ones will derive great enjoyment from the play, and the matwill no doubt prove a treat for them and the grown-up folks as well.

Nance O'Neil Tomorrow.

Miss Nance O'Nell, the young American tragedienne, who startled London with her genius last year, possesses one of those overmastering personalities which is irresistible. She plays upon the emotions of her audiences as a musician sweeps the strings of a harp, and when the final curtain falls they sit spellbound by the subtle influence of her art. Miss O'Neil will make her first appearance O'Nell will make her first appearance here since her return from Europe at the Marquam Grand Theater tomorrow (Thursday) night, presenting her wonder-ful success, "The Jewess." Friday night "Magda" will be the offering, Saturday matinee "Camille," and Saturday night "Elizabeth," Seats are now selling.

Laughter at the Baker.

A broad grin still remains on the faces of those who were fortunate enough to witness the production of "Recause She Loved Him So," at the Baker Theater. This play is a true to be a street of the street. This play is so true to nature, yet so humorous, that it is sure to produce laughter. Last night the Baker Theater was crowded with an appreciative audience. From the beginning of the first act, which commences with a quarrel between the young married couple, to the end of the last act, when all is quiet again, one is kept in a state of laughter. "Recause She Loved Him So" is not a senseless, plotless farce, but is a comedy with a fine plot and amusing situations.

A genuine treat is in store for theater-goers next week when "Captain Swift" will be presented by the Baker Stock Company. This is a much discussed and very popular play by Hadden Chambers. This will be the first local presentation of this play for a number of years, which has come into exceptional prosperity under the direction of A. M. Palmer. This is the play in which Maurice Barrymore played the titular role, and Arthur Forest made it famous throughout the country. "Captain Swift" will be presented under a special arrangement made by Manager Baker. The play is one of the best con-structed, most interesting and human of modern dramas, teeming with an atmosphere of romance and mystery. This production will follow "Because She Loved Him So" at the Baker Theater next week.

The Council this afternoon will order the improvement of the following seven streets: East Twenty-ninth from Burn-side to Davis, Kearney from Tenth to Fourteenth, Lovejoy from Tenth to Twen-tieth, Johnson from Tenth to Fourteenth, Hoyt from Ninth to Fourteenth, Four-teenth from Savier to Front, and Eleventh from Everett to Northrup. These streets have been hanging fire for some time, owing to the fact that the City Engineer's office has been rushed with work, but they have at last been estimated and the time for protest has expired, so the time and manner ordinances will be passed this afternoon. The streets all call for macadam improvement, with sidewalks.

Next Week at Cordray's.

Leslie Morosco will present that spark-ling farce, "The Man From Mexico," at Cordray's for three nights, starting Sun-day matines, March 8. It is one of the day matthee, March & It is one of the few plays which can be seen more than once and enjoyed at each performance. It will be presented here by a company of legitimate actors, so a performance of a marked degree of perfection may be

"The Cowboy and the Lady." S. Miller Kent, who will be remembere as giving Portland such an enjoyable holi as giving Fortuna such an enjoyate and day entertainment a year ago last Thanksgiving in "The Cowboy and the Lady," will again be seen in the same role next Monday and Tuesday nights, March 9 and 10, at the Marquam Grand Theater. The advance sale of seats will begin next Friday morning.

Farewell to Sam Morris Tonight. Sam Morris, in "The Peddler's Claim. gives his last performance tonight at Cor-dray's Theater. Mr. Morris has endeared himself in the hearts of those who enjoy and appreciate good, honest acting, and no doubt there will be a full house tonight to bid good-by and good luck to their fa-vorite.

"The Gamekecper."

"The Gamekeeper," a beautiful and in-teresting Irish comedy-drama, from the pen of Con T. Murphy, will be produced at Cordray's next week, starting on Wednesday, March II.

Mrs. Lillie Guilty of Murder. DAVIS CITY, Neb., March 2.—The jury in the case of Mrs. Harvey Lillie, charged with the murder of her husband last Octoher, this afternoon returned a verdict of gulity of murder in the first degree, and recommended life imprisonment. Mrs. Lena M. Lillie, well-to-do, educated and a member of a prominent family, was accused of the murder of her husband, Harvey S. Lillie, on October 24 last, by shooting him as he lay sleeping in his bed

Five Killed in Edison Disaster. EASTON, Pa., March 1.—So far as can be ascertained at this time five men were

killed by yesterday's explosion at the Edison Cement Works at New Village, N. J. The dead: Lames Meyers, New Village, Daniel Smith, New Village. Nathan Hopkins, Washington, N. J. Edward Philips, Philipsburg, N. J.

— Kinney.

Nothing but shreds of flesh and bits of clothing have been found of Kinney.

The officials at the works refuse to give out any news of the disaster. They declare they do not know how many were injured and they will not admit that any men were killed. The list given above, however, is believed to be correct.

LADRONES TAKE A TOWN Disarm Police and Surprise Constabulary, Capturing Fifteen.

MANILA, March 3.-Ladrones capture the town of Ous, in the Province of Al-bay, yesterday. They first disarmed the municipal police and then surprised the constabulary garrison. Two of the con-stabulary were killed and 15 were cap-

tured.

At the request of General Allen, General Davis will furnish two companies of scouts to assist the constabulary in suppressing the disorder in Albay Province. Colonel Scott has been sent to Albay to command the joint forces.

General Allen has also requested that two companies of scouts be sent to Batangas and two to Nueve Ecuada. There is no trouble in those provinces, but it is the General's intention to use the scouts as police. Fourteen companies of scouts, numbering 1300 men, are now assisting the constabulary.

numbering law men, are now assisting the constabulary.

The territory around Manila is quiet except in the vicinity of Cavite, where small disorders have occurred. The Government has a large force in Risai Province, but it is unable to locate the ladrones, who are apparently scattering.

AFFAIRS OF HAWAII.

Governor Dole Recommends Divers Farming-Japanese Are Leaving. HONOLULU, Feb. II. via San Francisco, March 2.—(Correspondence of the Associated Press.)—Governor Dole's message to the Legislature was read in both houses on the 20th inst. It refers to the unprosperous times among sugar men during the past year as emphasizing the need for giving special attention to securing ing the past year as emphasizing the need for giving special attention to escuring a diversity of industries and encouraging small formers. Attention is called to the decrease of leproxy and the diminishing number of inhabitants of the leper settle-ment. The Governor recommends a liberal appropriation for an exhibit at the St. Louis Exposition, and also an appropria-tion for the establishment of an agricul-

tural experiment station Local option is advised in the matter of liquor laws. The suggestion has been made here that the claims of British subjects against the Hawalian Government on account of the alleged illegal imprisonment of them dur-ing the Hawalian revolution might be re-ferred to The Hague tribunal. The claims have been the subject of continuous ne-gotiations since the revolutions of 1886 and 1881, and in his message to the Legisla-ture Governor Dole proposed that a com-mission be provided to assist them.

The dredging of Pearl Harbor is now roceeding satisfactorily. It is stated by ne contractors that within a few days the channel leading to the locks will be deep enough to allow small steamers to

The Island of Guam is said to have been The Island of Guam is said to have been considerably changed as a result of the earthquake of September 22. Navigating officers report the waters shallower than before the disturbance at some points.

Japanese are migrating to the coast from Hawaii in large numbers. Almost every boat going to San Francisco carries a big delegation of the little brown men and their wives and bables.

A movement is reported to secure Chinese from these islands for Mexico. It is stated that several hundred of them are willing to go.

PHILIPPINE COMMERCE GROWS. But Bulk of Imports Is Food and of Exports Hemp.

WASHINGTON, March 3.—The Bureau of Insular Affairs of the War Department has received the complete official figures of the Philippine commerce for Novem-ber, 1995, the importations for which month, exclusive of gold and silver and Government supplies, were valued at approximately \$5,000,000, or slightly in excess of the average for the 11 months of the calendar year 1902. More than half of this amount is credited to the purchase of food articles, and is due in a great measure to crop fallures.

The experts show a trade of nearly

The exports show a trade of nearly \$3,500,000, being the largest monthly export shown since American occupation, with the exception of that for September last. Hemp shipments approximated three-fourths of this amount, nearly \$2,000, 600 worth being sent to the United States On worth being sent to the United States.
During 11 months ending November 30,
1992, the total imports were valued at \$30,
513,872, on which the duty amounted to
more than \$7,000,000, an increase over each
of the two previous years.

A steady gain is shown in the exports
for 11 months of 1902, as compared with
the figures for each of the two preceding
years. The total value of this trade during the last calendar year period amount.

ing the last calendar year period amount-ed to \$25,567,297. Exportations to the United States are valued at nearly \$10,500. 000, as compared with a showing of only
