Victory of Regular Republican in Chicago Primaries. CHICAGO, March & Graeme Stewart, the present Hepublican National Com-

by Choosing Gorn Finally Repudiate Bryaniam. OREGONIAN NEWS BUREAU, Wash ington. March 6 .- The return of Gorman to power is one of the features of the rejuvenation of the Democratic party. German went out of power on the Bryan wave. He was refused a place on the

finance committee by the silver element of the Democratic party six years ago and he immediately refused to longer serve as chairman of the conference which gave

him the leadership of the party in the Senate. Turple, of Indiana, was elected to succeed him and when his term expired, Jones, of Arkansas, who has been chairman of the Democratic National

ommittee in two unsuccessful campaigns, was selected for the place and has held it up to the present time. Under the leadership of Jones, the Democratic party in the Senate has amounted to very little.

The party is now very small comparatively, but it hopes to retrieve itself to some extent under Gorman's leadership Gorman was one of the number of Demo crats from states outside of the solid South that did not believe in the Bryan heresy and, like others, went down under the load which the Democratic party was carrying. New York, New Jersey, Delaware, Ohlo, Indiana, Wisconsin, Illinois and West Virginia had Democratic Sen ators only a few years ago. Gorman held on longer than any of the others, but was defeated four years ago, as Maryland went Republican while Bryanism was as-

cendant in the Democratic party. Gorman's selection today is a distinct

acknowledgement on the part of the Democrats of the Senate that Bryanism was a failure and that free sliver is a thing of the past and that the old Demo cratic ideas must prevail in order to achieve success. He has been missed every day since he has been out of the Senate, for he always had more sense than any of the Democrats and his advice and counsel, while heeded, gave the Democrats some prominence in the National

aunella. It is believed that under his leadership actional and personal ideas will not prevall and small-callber politics will be dispensed with as far as possible. This gives reason for the belief that the Panama canal treaty and the Cuban reciprocity treaty are likely to be ratified without Senators oppose the Panama canal treaty.
