Trend in Eastern States to the Pacific.

300 PEOPLE ARRIVING DAILY

Sarriman Immigration Bureau Al rendy Accomplishes Results, Although the Movement Has Hardly Begun.

"The trend in the Eastern States is toward the Pacific. Over 300 people daily are coming to Oregon. They are good people, thrifty people—the best people on earth."

The foregoing words came last night from William Westerlund, head of a Chi-cago firm of land and immigration agents which works along the lines of the Har-riman system to Oregon. A company of 120 people headed by him has just arrived in Oregon.

"The immigration movement is hardly

started," said Mr. Westerlund. "As Spring opens, the number of settlers homeseckers will grow even more. You see many new faces on your streets already, don't you?"

The person to whom the question was Vesterlund continued:
"This month, on March 17, the home-

Most of the newcomers are farmers, who bring with them sufficient means to pur-chase farms and establish themselves in comfort. Many of them come to view the new country and to carry back reports to their friends and neighbors. Very fre-mentic they are sent out here by away. quently they are sent out here by asso-ciations of intending settlers."

Mr. Westeriund said that of the 120 who came with him, the majority would lo-

Mr. Westerlund said that the Harriman Immigration Bureau was distributing in the East 3000 pamphlets on Oregon every day. This work was undeniably bringing highly satisfactory results.

AMERICAN BOWLED OVER Driven Out of Corea by Intrigues of Japan and Russia.

WASHINGTON, March 8.-The short WASHINGTON, March 2.—The short notice from Pekin of the resignation by William H. Sands, a son of Rear-Admiral Sands of the United States Navy, of his position as adviser to the Corean government, marks the development of another phase of the struggle that has been going on quietly but incessantly between Russia and Japan to control the policies of Corea. Mr. Sands was appointed secretary of the legation at Secul during President McKinley's first administration. In 1888 he was induced to accept the post of adviser to the Corean government, succeeding two Americans who had been

eminently successful in the same position, Messrs. Legendre and Greathouse. Not long ago the Japanese government, desiring to increase its influence in Corea, sent to that country a Mr. Kato, skilled in diplomacy and finances. Very soon he had ed in diplomacy and finances. Very he had succeeded in connecting him-with the department of agriculture and then became an adviser to the gov-

and then became an adviser to the government, displacing Mr. Sands, whose influence had waned.

The Russian government, which had been watching developments closely, at this juncture sent to Seoul a Mr. Alexandrovitch, also a financier and a man skilled in Oriental ways. He had been for some time stationed in Japan and was acquainted thoroughly with Corean methods, being a former resident in Corea, It is intended that he, too, shall become an adviser to the Corean government, restoring the balance of government, restoring the balance of government, which was destroyed by the apment, which was destroyed by the ap-pointment of the Japanese adviser, in violation, it is said, of an agreement en-tered into about five years ago between Japan and Russia. ORIENT TUG-OF-WAR IN COREA. Russian and Jananese Influence Are Alternately in Control.

TOKIO, Feb. 21, via San Francisco, March 9.—(Correspondence of the Asso-ciated Press.)—The first bank note difficulty which threatened serious complica-tions between Coroa and Japan had hard, by been settled with the back-down of Corea, owing to the firm attitude of Japan, when another complication arose. This took the form of a Russian demand for a concession to lay the projected railway between Scouland Wigu, a purely strategical line. The concession to lay the Seoul-Fusan Railway had been granted Japan. The demand naturally excited considerable indignation in Japan, though some publi-cists profess that it was merely made as a diplomatic "bluff" to forestall a possible and by Japan for the same privilege as a guld pro que for the late first bank

However that may be, it is ann today that Corea has rejected the Russian demand. The incident is another piece of evidence that Corea is the storm center of the Far East, and it will require the keenest watchfulness on the part of represents watchfulness on the part of representatives of all the powers to maintain peace. It is understood that Dr. Allen, the United States Minister at Seoul, has considerable influence with the court, though at the present moment an Alsatian woman by birth and a Russian by sympathies is said to exert most potent sway over the Emperor. Yi Yong Ik, who was recently discredibled at the court and later recently discredited at the court and later reinstated in his former office, is believed to have strong pro-Russian leanings and a proportionate anti-Japanese bias. These reports must, however, he received with reserve, and it is netoriously difficult to penetrate the mysteries of the perpetual intrigues going on in the Seoul court. that certain grants will have to be made, which were not anticipated when he left England last November, and the Chancellor of the Exchequer must make provision for them in his budget. The Irish land bill will involve a big demand upon the public purse, and it is only natural that the government should desire to consult its strong man on the policy to be embedded in that measure before it is introduced in the House of Commons.

The result of the indulgence which the members are now enjoying will be a congestion of work at the end of the session, and a liberal use of the cloture to stop discussion.

He Denies Report of Unfriendly Belations With France.

ROME, March 5.—The pope this morning received Cardinal Perraud, Bishop of Autun, France, in andlence, thus contradicting the alarming rumors which had again been circulated regarding his bealth.

His holiness, in the course of this morning's audience, said to Cardinal Perraud that he hoped the relations between France and the Holy See would continue to improve, for they were not so bad as the enemies of the church wished.

The pope during the afternoon received in separate audiences five cardinals who are leaving Rotne, now that the jubiles celebrations are over. He will receive tomorrow a delegation of British Catholics, headed by the Duke of Norfolk.

The appointment of a coadjutor to the archbishop of St. Louis will not be made for a fortnight or so.

Worst Symptom of Pope is Disorder of Digestive Organs.

PARIS March 5.—A special dispatch from Rome says a correspondent has obtained an interview with a prelate attached to the Vatican, showing the real state of the pope's health. "The reception of 5000 pligrims yesterday did not fatigue the pontiff seriously," the correspondent asserts. "In fact, the audiences and recent solemnities seem to have had the effect of stimulating the vital forces of the man. His chief sources of fatigue have been the giving of long private audiences and serious work with the cardinals and of the Vatican.

It Waits Upon Board of Education and Represents Necessity of More Accommodations for Pupils.

People in the neighborhood of East Twenty-eighth street want a new schoolhouse. A committee from the sub-Board of Trade in that region, which waited upon the Board of Education at its meet-ing last evening stated that PS children, beside the inmates of the Boys' and Girls' Aid Society, numbering & of school age, were in that rapidity-growing vicinity and that the younger ones could not walk to the nearest schools. An investigation will be, made and improved school service granted if necessary.

BOOKS ON BIRDS.

Public Library Opens Special De-partment of Ornithology.

Bold, impudent English sparrows and other feathered inhabitants of the air making their Winter home in Portland have been industriously hanging around the Portland Public Library for some time past, arousing considerable speculation by their persistent twittering, and many small boys have audibly wondered why the birds have evinced such a sudden admiration for the library building. One fact was easily settled. The birds could not be received as members of the library, however strong their political "pull" might be. So it was decided that these domestic friends would not cease their indignation meetings until a special department pertaining to bird lore was devotted to them in the Library building. This was done yesterday through the Bold, impudent English sparrows and devoted to them in the Library building. This was done yesterday through the
kindness and happy thought of Miss Mary

POINTS YIELDED IMPORTANT.

Families of Armenian Immigrants May Now Join Them. WASHINGTON, March 9.—The State Department has not been fully informed of the concessions obtained from the Turkish government by Mr. Leishman, as re-ported from Constantinople. The Turkish government has up to this declined to recognize medical diplomas or even those is-used to graduates from American insti-tutions in Turkey, a fact which naturally greatly diminished their usefulness.

A more important concession from a humanitarian point is that respecting the wives and children of naturalized Armenians. The Turkish government hereto-fore held that the wife of a Turkish citi-zen who is naturalized in America does not by that act become herself an Ameri-can. International law admits the right of the woman to share the conditions of her husband and, while our Government under the principle of the international law above referred to, the Turkish gov-ernment was not justified in detaining these women in Turkey. As for the children, even under our own law they could not be claimed as American citizens un-less they were actually residents in America when their father was naturalized, therefore the concession of the Turkish government on these points is consider-

The recognition of American education-al, charitable and religious establishments will greatly enlarge their usefulness and add much to their security, for there is no question of their claim to military protec-tion from the Turkish government, if they are threatened in times of riot.

"The symptoms of Fibroid Tumor given in your little book accurately describe my case, so I write to you for advice."—(Signed) Mrs. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Note the result of Mrs. Pinkham's advice-although she advised Mrs. Hayes, of Boston, to take her medicine - which she knew would help her her letter contained a mass of additional instructions as to treatment, all of which helped to bring about the happy result.

"Dear Mrs. Pinkham:—Sometime ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and to-day I am a well woman.

The use of Lydia E. Pinkham's Vegetable Compound entirely expelled the tumor and strengthened my whole system. I can walk "Lydia E. Pinkham's Vegetable Compound is worth five dol-

lars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial."—(Signed) Mrs. E. F. Hayes, 252 Dudley St., (Roxbury) Boston, Mass. Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration, falling and displacements of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial let-

ters we are daily printing in the newspapers can leave no room for doubt. Mrs. Hayes at her above address will gladly answer any letters which sick women may write for fuller information about her illness. Her gratitude to Mrs. Pinkham and Lydia E. Pinkham's Vegetable Compound is so genuine and heartfelt that she thinks no trouble is too great for her to take in return for her health and happiness.

Truly is it said that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women, and no other medicine; don't foret this when some druggist wants to sell you something else.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genulueness.
