The plaintiff in the case, whose vehicle had been wrecked and the occupants injured, set forth that the motorman was guilty of negligence, and the defense set up that the plaintiff was guilty of contributory negli-gence. Army and Navy.

Army and Navy.

NEW YORK. March 10.—Mr. Brodrick wants £34,200,000 for the army next year. The same amount is required for the navy by Lord Sheibourne. The army estimates, says the Tribune's London representative, have never been approached except in time of war, and the navy estimates, which exceed the current year's figures by £1,500,000, have broken all records. John Bright once said that a government which could not rule the United Kingdom on £30,000,000 a year should be turned out on £70,000,000 a year should be turned out of office. The army and navy alone will cost almost this sum for the ensuing 12 months, and the total national expenditure will reach £150,006,000. The outlook for the British taxpayer is gloomier than

The demands for Wright's prosecution have been incessant since the collapse of the corporation. Whitaker Wright was head of the London & Globe Finance Corporation, which organized a number of subsidiary mining companies. Among these was the British-America Corporation, which bought Le Bol and other noted mines at Rossland, B. C., and turned them over to other corporations, of which the stock was held in England. The failure of the London & Globe a year ago caused a panic on the London Stock Exchange a year ago, and official investigation revealed serious trregularities. The late Marquis of Dufferin was nominal head of the company and was a heavy loser, and the trouble arising from the failure is said to have hastened his death.
