Every Bottle Warranted

Every bottle of Chamberlain's Cough Remedy is guaranteed, and the dealer from whom it is purchased will refund the money to anyone who is not satisfied after using it.

The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and it may be given as confidently to a baby as to an adult.

HERALD GETS COUNSEL

WILL MAKE STRONG DEFENSE IN LIBEL SUIT.

Portland Attorneys to Appear on Both Sides—Cases May Go Over Until Next Term.

BAKER CITY, March 12.—(Special.)—The cases of the State vs. Messrs. Hill and Livermore, the manager and editor of the Herald, of this city, who were indicted for criminal libel by the grand jury recently, will probably not come on for trial this term of court.

So far there has been nothing done in the case on the part of the defense save to move the court for an order to allow the attorneys for the defense to examine the report of the expert accountants employed by the County Court, to expert the books of the county officers, also to examine Sheriff Huntington's official bond and such of the county records as they may wish to see.

It is understood that the defendants in this libel case are anxious to have the case disposed of at an early date, and it is possible that they may insist on a trial immediately after the Armstrong case is disposed of.
