The contention raised by Judge Stiles, and which attorneys in the Legislature have agreed is well founded, is that the constitution states that no money shall be paid out of the state treasury with out a specific appropriation for the purin all cases save the payment of moneys for the maintenance of the comschools, specific appropriations are made, as for instance from the state grain inspection fund, though the law is equally specific in its direction as to the purpose of this fund and the manner in which it may be expended. Other special funds are treated in a similar manner.

McBride Too Busy to Talk.

Governor McBride declines to discuss the matter at the present time. He is a very busy man, looking after the flood of bills which await his signature or veto. and will not look for any more trouble until he gets rid of some of that now before him. He signed no bills today, all of his time being taken up in segregating the numerous appropriation bills, some of which will undoubtedly meet his dis approval. The total of the general appropriation bills exceeds the revenue of the state by nearly \$400,000. They amount to over \$2,500,000, while the revenue is but \$2,100,000, aside from that which goes into the special funds. It will be a difficult matter to do much paring, as the appropriations are all for worthy enterprises, and are not out of proportion to those of former years, when the increased growth of the state's population and institutions is considered. Discussing the refusal of the Legislature to appropriate money for conducting the suit against the Northern Securities Company the Governor said today:

"Every possible effort was made to in duce the Legislature to appropriate this money. It refused to do so. It is very probable that the suit will be dropped. As soon as I can get around to it I willhave a consultation with the Attorney-General on the subject. It may be that we can rulse a popular subscription. I will know in a short time what steps we will take."

Governor McBride will reappoint Colonel Blethen as a Regent of the State University. The appointment will be made in few days. It will be to succeed Regent George H. King, of Seattle, whose term expired last Monday. The Governor may appoint Regent King to fill out the unexpired term of Colonel Blethen, whose ap-

ntment was rejected by the Senate. The Governor announced today that he would appoint Victor F. Martin, of Wenatches, as Superior Judge of the newly insurance.

The ground on which this order was based was an error in the information relative to the location of the road. It stated that the road was in the castern portion of section 6, T. 7 N., R. 9 W., whereas the testimony showed that it was in the western portion of the section. The testimony showed that the proceedings in establishing the road were irregular in many particulars and the road is accord-ingly illegal.

The trial of the case of Charlotte Grim The trail of the case of Charlotte Grim-berg, administratrix, vs. the Columbia River Packers' Association began in the Circuit Court this afternoon.
