Thugs Got No Money, but Escaped Safely-den They Attacked Were at Table Eating-Suggestions as to Burdick Murder.

PUEBLO, Colo., March 15 -A daring attempt at robbery and brutal tragedy in the most fashionable restaurant created intense excitement early this evening. The robbers, two in number, and both small men, wore black masks. They first entered the back door of Locatau's fine cafe opposite the Opera-House, advanced half length of the long room and then went back.

Presently they re-entered by the front door. One went to the cashler's desk, the other attempted to rob guests at the tables. He held a revolver toward Dr. J. H. Turner, who was eating his supper. and told him to throw up his hands. The doctor was surprised and hesitated, whereupon the robber fired full in his face, killing the doctor instantly and scattering his blood and brains all over the corner of the cafe. Then the desperado attacked another guest, C. B. Bishop, and shot him in the left side. Without securing any booty, the ruffiane fied. Bishop was taken to a hospital and is in critical condition. He came recently from Sugar City, where his brother lives. Dr. Turner was about 30 years old and from lows. He was a graduate of Princeton and of Rush, and has been here two

The robbers in their escape were fired at by a policeman and his bullet perforated a plate-glass window, but thus far there is no clew.

Burdick will be called to the stand at tomorrow's session of the inquest, and Mrs. Huil may be recalled. The Express tomorrow will print an in-terview with a person who at one time was a stockholder in the Buffalo En-velope Company, and for 12 years a close friend of Edwin L. Burdick. The inter

view in part is as follows: "I had been acquainted with Mr. Bur dick for 12 years prior to his death. I came in almost daily contact with him and for some time past had been more or less in his confidence.

Though I knew in the early part of De cember that Mr. Burdick had made a wil cutting off his wife, it was not until shortly after Christmas that I learned anything about the divorce proceedings. "I cannot completely believe from all I but the ant heard of Mr. Burdick that the motive for

Soon after Mr. Burdick told me of his aving begun divorce proceedings he howed me a letter he had just received from New York. In this letter the writer was trying hard to bring about a reconcil-ation between Mr. Burdick and his wife the pleaded with Burdick to take 'Allie ck.' The writer also wrote in this letter something that Burdick construed as a threat that unless there was a reconcil a threat there would be a double suicide. I cannot remember the exact words, but they were something like this: 'Do you want to put an end to all our lives?' Mr. pointed out that particular part ter to me and said: That means suicide. Well, let them go ahead and do it.' It seems to me that this letter ought to be found. What has become of it? Did has become of it? Did has become of it? Mr. Brown was always delicate physi-cally, but his death was entirely unex-pected at this time. He was born near this citw in 1856, and had always since early manhood been prominent in county and city politics. Mr. Brown served as the head of the Department of Public Safety from November, 1877, until August, 1991, when he was removed by Recorder 1991, when he was removed by Recorder A. M. Brown. In November, 1991, he was A. M. Brown. In November, 1901, he was appointed Recorder by Governor Stone, to succeed A. M. Brown. His resignation was sent to Governor Pennynucker on last Friday, to take effect tomorrow. When the fact of his resignation was made known to his followers the con-sternation was great, and he was made the target of much reproach by those who counted upon his holding office until succeeded by Recorder-elect William B. Hayes on the first Monday in April. I' The death of Mr. Brown makes the third of prominent politicians in the county of prominent politicians in the county during the past two years. It is further stated that two sur-very here here been the California of the Sar-Call. It is further stated that two sur-veys have been made along the Califor-nia and Oregon coast between Portland and San Francisco, and that those inter-ested in these surveys have already sub-mitted to Mr. Hill two routes by which he can reach San Francisco. One sur-veying party worked northward from Marin County and the other southward from Portland, Or. Both routes surveyed are shorter than the Shasta routes of the those inter are shorter than the Shasta route of the Southern Pacific Company, one by 120 miles and the other by at least 140 miles. It is said that the routes selected by the Hill surveyors guarantees the construc-tion of a railroad along a grade of about 2 per cent, as against 4 per cent and more which is experienced along the Southern Deads. Pacific line.

The further information has been obtained that in routing the new line the surveyors were instructed to include Coos Bay among the towns to be touched, or some other city on Coos Bay, Crescent City and Bureka, in California, but it is possible that the latter two points may now be ignored, for since the surveyors completed their work the Santa Fe has suddenly acquired the roads around Cres-cent City and Eureka and announced its intention of immediately extending these small properties southward to San Fran-

cisco. Among those familiar with President Hill's purpose it is the belief that the Santa Fe's determination to get a foot-hold along the California coast was prompted and greatly hastened by an in-timation that President Hill was pre-paring to cut through the same territory. As to President Hill's plans for a termi-nal on San Francisco Bay, it is claimed that he has already serviced outlon on

Mas claims that he saw the accident, as he was near the spot at the time with his bicycle, and he says he heard Mrs. Fair groan after her husband was dead. He went to the United States Consul with his story, but an investigation failed to re-veal any person who saw Mas anywhere in the vicinity of the scene of the acci-dent, either before or after the accident occurred. A number of persons, however, were found who said that Mas did not own a bicycle, and could not even ride one. He says he came here because the lawyers who are trying to prove that Mrs. Fair was the first to die were endeavor to keep him in France.
