success not even approached by other specanes. There is no secret about it. For years we have been telling the people in public print just why our business grows. We feel it our duty to do so. We want every man in every walk of life to know about the wonderful potent features that have made our practice grow. One is, we cure diseases quicker and more thoroughthan other physicians can. We cure

diseases that other honest doctors do not pretend to cure. Through twentyone years of practice and study we have gained a broader experience, and been able to perfect newer and more perfect methods, while other continue along the old lines. Our treatment is scientific and thorough-and we are usually able to cure even the most complicated cases in much less time than is commonly required.

"WEAKNESS"

We not only cure "weakness" promptly, but we employ the only treatment that can possibly cure this isorder permanently. It is mainly a system of local treatment entirely original with ourselves, and is employed by no other physicians.

This may seem a broad assertion, but it is just as substantial as it is broad.

So-called "weakness" is but a symptom of some derangement in the prostate gland and a radical cure is merely a matter of restoring this organ to its natural condition, and this we accompaish thoroughly and with absolute certainty.

WE ARE ALWAYS WILLING TO WAIT FOR OUR FEE UNTIL CURE

Contracted Disorders

Improper treatment of contracted disease can easily bring loss of power. An examination reveals this very cause in a large proportion of the cases of weakness. Lingering inflammation centering in the prostate gland is sure to result in disordered functions, and the condition will never be corrected until the inflamed and swollen gland is restored to its normal state. We thoroughly cure every contracted disease we treat. The remedies we employ are known to ourselves alone, and no other phy-sician has as yet produced equally prompt and thorough cures.

Stricture

Our treatment for stricture removes the necessity for surgical operations even in severe cases of long standing. We do no cutting or dilating. No other physician employs our methods of overcoming this disorder, so the service we offer you is original and distinctive. Do not give up hope because others have failed. We will cure you and the cure will be a prompt and a painless one. Our treatment dissolves the stricture and permanently removes every obstruction from the urinary passages, subdues all infammation, refleves all irritation or congestion that may exist in the kidneys or bindder, reduces enlargement in the prostate gland and restores health and tone to all the organs affected by the disease.

Consultation and advice free, either at office or by mail. Our illustrated book, describing the Male Anatomy, is both interesting and instructive. We will send it free in plain wrapper, sealed, upon request. Treatment at home

is a fulfillment of the Democratic prophecy made in the last campaign, namely, that the Republican party never had the slightest intention of keeping its

promises.
"A more solemn compact with the peo-ple was never made than the one con-tained in the inst Republican state plat tained in the inst Republican state platform, which pledged the party to the creation of a railroad commission. Notwithstanding the earnest exhortation of Governor McBride that the promises therein be kept and his solemn warning that to break them would be to dishonor the Republican party, the Republican majority in the Legislature scorned the platform, broke their pledges and flouted the Governor. The Legislature has demonstrated the utter incapacity of the Republican party to govern the state. It has demonstrated that the Republican leaders have no regard for party pledges. In my judgment the result will be a political revolution in this state. Now, if the people are tired of broken faith and of the control of politics and legislation by powerful corporations."

KAISER NAMES A YACHT FOR ALICE ROOSEVELT.

COMMEMORATES HER CHRISTENING THE METEOR.

The Alice Rossevelt is the name of the latest station yacht that has been added to the naval force of Emperor William. It is named after the daughter of President Roosevelt, in commemoration of her christening the Kalser's yacht Meteor on the occasion of Prince Henry's visit to the United States. The new station yacht was being built at the time the Metcor was launched, and as an appreciation of the cordial reception accorded his brother the Kaiser decided to pay graceful tribute to Miss Rocervelt by giving her name to the new vessel.

The Alice Roosevelt is constructed on the lines of modern torpedo-boats, and is capable of great speed. Although elegantly furnished and fitted with every possible convenience, it is arranged so that it may be utilized as a torpedo-boat destroyer in the
