

ANKENY IN CONTROL

He Will Dictate Appointments in Washington.

FOSTER AND JONES BACK HIM

Cushman and Humphrey Each Play a Lone Hand—Ankeny Ends Fight on Irbey—Fight for Spokane Land Office.

Senator Ankeny will control the Federal patronage of Washington, supported by Senator Foster and Representative Jones. Cushman opposes them, and Humphrey "goes it alone."

Ankeny has withdrawn his opposition to Irbey for the Kittitas Postoffice. There is a fight for the appointment of a Register at the Spokane Land Office and of Postmasters at Vancouver and Castle Rock.

The appointment of Dresser and Knowles to the Oregon City and La Grande Land Offices is held up by protests filed with Secretary Hitchcock, who says he will make changes only when they are for the better.

OREGONIAN NEWS BUREAU, Washington, March 19.—Present appearances would indicate that Senator Ankeny is to dominate the Washington delegation and will have the support of both Senator Foster and Representative Jones in a number of recommendations recently made for local appointments. These three members have acted unitedly. Representative Cushman running in opposition, while Humphrey has been identified with neither side. All signs point to a continuance of the combination between Jones and the two Senators, and if it is carried out they will be able to largely control local appointments, especially as the two Senators will have the last say on all appointments to Presidential offices made on recommendation of Cushman or Humphrey, when those nominations come to the Senate for confirmation.

Ankeny has withdrawn his opposition to the confirmation of John F. Irbey for Postmaster at Kittitas, as recommended by Representative Jones, not that he is any less hostile to Irbey, but that he does not desire further to embarrass the Yakima man. With this disagreement out of the way, so far as pending controversies are concerned, Jones and Ankeny are one.

There are three appointments hanging over which the Washington delegation is at odds. Ankeny and Foster, with Jones, some days ago recommended the appointment of H. J. Cole for Register of the Spokane Land Office, to succeed William J. Ludden. When Cushman heard of the recommendation he protested against the removal of Ludden, insisting that he has been an exceptionally efficient Register. Land Commissioner Richards found Ludden's record to be good, and recommended that he be not removed. The case has been pending before Secretary Hitchcock ever since.

The Postmaster at Vancouver is also under fire. Lloyd Dubois, the present incumbent, being a candidate for reappointment. Cushman is said to favor Dan Crowley, while Ankeny wants the office to go to C. G. Shaw. At Castle Rock Cushman has recommended A. F. Kirby, but Ankeny is behind A. W. Carner. It now rests with the department to decide, and if Cushman is favored, the Senators must reason will have to pass upon both appointments before they become permanent.

Sensors Fulton, Foster and Ankeny will remain in Washington two or three days clearing up department matters and then return to their homes. Senator Mitchell expects to remain here some little time looking after affairs that accumulated during his illness. Senator Heyburn will soon return to Idaho.

ONLY FOR BETTER MEN

Will Hitchcock Displace Officials—Dresser and Knowles Held Up.

OREGONIAN NEWS BUREAU, Washington, March 19.—When the Senate adjourned today the President had failed to nominate two Land Officers recommended by the Oregon delegation—Dresser for Register at Oregon City and Knowles for Register at La Grande. Both recommendations, when made, were referred to Secretary Hitchcock and were by him held up because of protests made against the appointment of these men.

When urged by the delegation to send in the names, the Secretary replied that, in view of the protests, he could not endorse the men, at least not until he had further looked into their records. He explained that it is his desire that where changes are made they shall be for the betterment of the service, and unless better men than those now holding offices are recommended to him, he gave the impression that they could not have his endorsement.

The protests against Dresser and Knowles are being investigated, and, in view of the exceptional record of Moore at Oregon City and the further complication growing out of the President's promise to Senator Simon, it is very much to be doubted if any change will take place there.
