

RED FLAG IS FLOWN

Revolutionary Outbreak in Siberian City.

STUDENTS BEATEN BY POLICE

Troops Called Out to Suppress Mob, Which Shouts, "Down With Autocracy"—Brutal Treatment of Prisoners the Cause.

ST. PETERSBURG, March 23.—Letters received here from Tomsk, West Siberia, describe the riots which occurred there March 2. About 70 students, it appears, attended a local court in connection with a slander case, and on leaving were surrounded by the police. The students broke through the cordon and marched past the university, shouting:

"Down with the autocracy!"

The numbers of those taking part in the demonstration were increased to some 300 persons, and the situation became so alarming that the Chief of Police barricaded the bridge and summoned reinforcements. The Governor, Prince Viazemsky, arrived on the scene and ordered the rioters to be attacked. Some of them were beaten and the whole body of rioters was finally overcome.

Seventy-six men were confined in the courtyard of the police station, where, it is alleged, they were much abused. Dr. Schlechter and a lawyer named Yonizensky, who remonstrated with the police, were seriously injured. A petition to the president of the Tomsk Bar Association, signed by every lawyer in the city, corroborates this account and declares that the maltreatment of the prisoners was needless and wilful.

The students met again on March 3 and protested against the treatment the rioters had been subjected to, and marched through the streets, their ranks being augmented by 500 sympathizers carrying red flags and making revolutionary demonstrations. Vice-governor Delovskiy, played with the processionists and withdrew the soldiers. News regarding the subsequent developments has not yet been received here.

DEBATE ON RELIGIOUS ORDERS.

French Chamber Occupied With Case of Passionist and Other Fathers.

PARIS, March 23.—Towards the end of today's session the Chamber of Deputies took up the applications for authorization made by the preaching orders. These orders form the second class into which the commission has divided the male congregations, and include the English Passionist Fathers, in whose cause British Ambassador Monson and United States Ambassador Foster interested themselves because the Passionist order has an Anglo-Saxon church in the Avenue de Hoche.

The debate did not make much progress, because the Nationalist Deputy, M. Lascaux, moved a resolution calling on the government to hold a referendum in the localities where the congregations exist, in order to ascertain whether the inhabitants desire the dissolution of these religious institutions. M. Lascaux demanded urgent consideration for his resolution, and the debate on this demand took up the rest of the sitting. The chamber finally, at Premier Combes' solicitation, refused urgent consideration of the resolution by 377 votes to 155, and then adjourned.

FRANCE AND THE VATICAN.

Motion to Abolish Embassy Rejected by the Chamber.

PARIS, March 23.—Foreign Minister Delcasse made two speeches in the Senate today, the first reviewing foreign affairs along the lines of his similar recent speech in the Chamber of Deputies, and the second relating Senator Clemenceau's efforts to secure the suppression of the French Embassy to the Vatican. Concerning foreign affairs, M. Delcasse said that the Moroccan situation had grown worse, owing to the gradual extension of the insurrection, and he added that the Moroccan situation had improved, owing to the reforms formulated by the powers.

On M. Clemenceau's motion to suppress the embassy to the Vatican, M. Delcasse declared that such a course was not warranted under the present conditions. A test vote was taken on M. Clemenceau's motion to reduce the appropriation for the Vatican Embassy, and it was defeated by 332 votes to 22.

FRANCE MAY INTERFERE.

Brigandage in Southern China Pretext for Sending Troops.

PARIS, March 23.—It is said at the Foreign Office here that recent official reports show there is a growing state of disorder in South China, particularly along the border of French Indo-China, chiefly due to the operations of bands of Chinese brigands. Although the French authorities have not yet taken definite action, the officials here confirm the reports from Shanghai to the effect that a continuance of the disorder will undoubtedly lead to the sending of French troops across the border to suppress the brigands and insure protection of French interests.

The petitioning creditor is Sir Alfred Hickman, ex-president of the British Iron Trade Association, who cashed one of the forged bills for \$75,000. Claims aggregating \$100,000 were presented. KINGSTOWN, St. Vincent, March 23.—The activity of the Soufriere during last night was less formidable than during Saturday night, but this volcano is now again in violent eruption, throwing a black cloud over the entire colony. The people are terrified.

The lands beyond Georgetown and Chateau Belair, where the erosion of the former deposits has been reported since last October, are again overwhelmed, causing serious hindrance to, if not the complete abandonment of, future cultivation. The arrow root exposed in the drying grounds has been spoiled, by volcanic dust, and the groves are in a state of despondency.

At Georgetown windows were broken by falling stones, and the streets are covered with three or four inches of sand. Earth tremors are felt constantly.

The assets of the concern are placed at \$100,000. The liabilities are not known, but a book was turned over to Marshal Morrissey containing about 100 names, supposed to be the list of depositors.

More than 11,000 certificates of depositors in the John J. Ryan Investment Company are now in the hands of Marshal Morrissey, representing deposits estimated at \$1,000,000. It is stated the assets will pay less than 25 cents on the dollar.

WEAK, SENTIMENTAL JURY

Judge Severely Condemns Acquittal of Accused Murderers.

CLEVELAND, O., March 23.—"A weak and sentimental jury has made the public proclamation that murder committed by a woman is no crime in this county," cried Judge John Nott today, in Criminal Court, assailing the jury that Saturday night acquitted Mrs. Wierkowski of complicity in the murder of her husband and made her a free woman. The Judge used the forcible language in condemning the jury while he was sentencing Charles Janowski to the penitentiary. Janowski was given a life sentence for the murder of Mrs. Wierkowski's husband.

A feature of the testimony introduced by the defense was an attempt to show that Janowski had been hypnotized by the woman.

SHOOTING IN LEGATION.

Minister Crossland Tells About His Fight in Liberian Capital.

NEW YORK, March 23.—Dr. J. R. A. Crossland, United States Minister to Liberia, and C. W. Ellis, secretary of Legation, were passengers on the steamer La Champagne, which arrived tonight. Both are negroes. They came in under assumed names, giving as their reason that they wished to avoid being asked questions regarding the shooting at Monrovia until the Minister had a chance to report to Washington.

According to cables received in this country, Crossland had an altercation at the legation building with Thomas Faulkner on October 6. Faulkner was shot three times by Crossland, but recovered. Crossland said tonight that the shooting was done in self-defense. According to his story, he had trouble with Faulkner over the Legation building. The building was owned by a Mr. Hill, and Faulkner acted as agent, collecting rents. Crossland boarded with Faulkner and his wife. After some time, as Mr. Hill was not receiving his rent, he came to inquire about it. Crossland said that after hearing the story Hill decided to lease the building to the United States. Crossland then ordered Faulkner to move out. He said that was the cause of the shooting, and this was followed by Faulkner assaulting him with a razor. On October 6, the Minister said, he was assaulted by Faulkner without provocation, and shot him in self-defense.

STARVATION IN ALASKA.

Eskimos Are Hungry and Appeal to Government for Aid.

OREGONIAN NEWS BUREAU, Washington, March 23.—Because of numerous reports that have been received at the War Department telling of the destitute condition of the natives of Alaska on Plover River, near Nome, and at other points on Seward Peninsula, Judge Advocate General Davis today recommended that the commanding officer in Alaska be directed to make a careful investigation and report, both as to the condition and the needs of these Indians, believed to number thousands. General Davis says destitution among the Alaska Indians is becoming chronic, possibly because of the great influx of white men, because of stricter game laws or from some other cause, but that his department is without authority to make donations of subsistence, and would only be justified in doing so when the conditions are such as would warrant Congress in making a deficiency appropriation to cover the cost of supplies so furnished.

BRITAIN AT THE FAIR.

Grant of \$150,000 Is Only Preliminary, Says the Government.

LONDON, March 23.—In the course of the discussion of the estimates in the House of Commons today, Sir Walter Foster, Radical, expressed the hope that a more liberal grant would be made toward British participation in the St. Louis Exposition. He said he believed the money spent would return with large interest.

The Financial Secretary of the Treasury, Mr. Fisher, informing Sir Walter Foster's views, said \$150,000 was only a preliminary grant. The final sum to be asked for had not been determined upon.

Continuing, Mr. Fisher said the United Kingdom should maintain friendly relations with the United States above all other countries, and this exhibition was the best means of doing so. He believed it would produce far-reaching results. The government also desired to know to what extent it would be supported by private manufacturers and hoped the debate would be the means of bringing the matter to the attention of the leaders of industry and insure an exhibit at St. Louis worthy of Great Britain.

PARKHURST IN ERUPTION

PARKHURST POIRS FORTH HIS WRATH ON FUNSTON.

Condemns "Deceit and Treachery" Used in Capture of Aguinaldo—Discusses Lying Generally.

NEW YORK, March 23.—In his sermon Sunday morning the Rev. Dr. Charles H. Parkhurst referred to the incidents of the capture of Aguinaldo by General Funston, and criticized the American people for condoning what he called the "deceit and treachery" practiced by Funston in making the celebrated capture that utterly discouraged all other belated Philippine leaders. "Wherefore putting away lying, speaking every man truth with his neighbor," was the text. "A deplorable illustration of the general apathy upon the matter," he said, "was shown by the easy popular assent given to the ignominious treachery practiced upon the Filipino leader, Aguinaldo, by our Army officer, Funston—a treachery ordered and approved by General MacArthur. The facts in the case were these: Funston disguised himself and some of his men in the uniform worn by Filipinos, crept in upon Aguinaldo stealthily under that guise, tricked him by a forged letter, pretending that they were hungry, made capital out of a hotly right of hospitality, and then flung Aguinaldo to the ground and made him captive: violated the laws of war, the laws of hospitality and the laws of God."

Dr. Parkhurst concluded by saying: "I have not lived to my age without knowing what internal and infernal lies I sometimes tell myself, and how desperately hard I sometimes work in the effort to fool myself. And I would stake all I am worth on the assertion that in this particular you are just like me—insincere, evasive, knowing God, slinking off into the woods with the serpent; fascinated with the face of Jesus, daubing his face with an amalgam of lust and higher criticism; knowing duty, lying out of it; beholding God, crouching behind the tree."

"It would not seem so bad in us thus to crawl if it had not been God's intention for us that we should be only a little lower than the angels."

EMANATES FROM A CRANK.

Funston's Opinion of Parkhurst's Criticism of His Conduct.

VANCOUVER, Wash., March 23.—(Special.)—A correspondent of The Oregonian interviewed General Funston this evening regarding the sermon of Dr. Parkhurst in which the latter condemns the policy of the General in his methods of capturing Aguinaldo. General Funston said he did not desire to engage in newspaper controversies, but he considered the article as emanating from a crank and unworthy of reply. He said the words in the article referred to would disappear like water running off a duck's back. This is all he cared to say regarding the matter in question.
