Although the fall from the scaffold broke his neck instantly yesterday morning at 6:30 o'clock, murderer A. L. Belding was left hanging for 16% minutes be he was pronounced dead.

The execution was in every way a suc ess. The prisoner bore up well under the strain, and stood on the scaffold without assistance until he was plunged to his death. He waived the reading of the death warrant, and declined to make a state-ment from the gallows. Sheriff Storey and his met had the details of the hanging well planned, and carried them out withaut a hitch.

distance the murderor fell was have unknown and his lifeless form then have suspended about two feet from the ground. The trap was so arranged that as one knows who let the murderer down to his death. Three men sat in a room in the court house and held a rope each. These were connected with the scaffold, dich was not within their view, and at a signal they all pulled together. The names of the three men are not made sublic, and the three men themselves do not know who held the rope that was at-

tached to the trap. A large and curious crowd witnessed the hanging, and, if their actions belie them not, they were glad that they were there. They crowded and jammed, each trying to see the most, and not until the dead body had been carried from the amail enclosure in a coffin, did they finally disperse. No post mortem was held, but Dr. Littlefield, after making a brief ex-amination of the body, said that there was no doubt but that the neck had been roken. "The entire lower part of the ody was paralyzed." said the doctor. The fact that he made no motion after a fell is evidence that his neck was roken." The body was taken directly broken." The body was taken directly to the Mount Calvary cometery and buried. Probably the most interested witness to the hanging was Fred Fiske, Sheriff of Lane County. Upon him will devolve a duty similar to that performed by Sheriff Storey restenday. Murderer Elliott Lyons, who killed Sheriff Withers, will be hanged in Eugene April 10. #### Crowd on Hand Early.

Before 6 o'clock the crowd had gathered about the court house yard, and eagerly watched for something to happen. Ropes had been stretched and a police patrol kept the people from crowding too closely. At 6 the doors were thrown open and within five minutes the small enclosure was filled with people. The capacity of the enclosure is estimated at 250, and fully that number of people were present. An invitation had been issued to the medi-cal students to stimate and there were about the court house yard, and eagerly cal students to attend, and there were medical students galore. It is not sure that all the medical students knew where the school is situated, but they were students all the same, and they saw Belding

Only representatives of the press, and these directly concerned in the execution were allowed on the scaffold.

#### Trying to See Belding.

In the small inclosure the people crowd ed and swayed. They were in a dBemma. If they were too close they could not see Belding when he was led onto the scaffold, and if they were too far back, they would not be able to see him after he had thropped. They were entirely too curious to be satisfied with seeing anything short of the entire proceedings, and each member of the crowd was making a frantic effort to get his position so adjusted that he would be able to see to the best udvantage.

Belding meanwhile was in his cell, alone with Father Gartland, making his last prayer. He had told the Sheriff that he prayer. He had told the Sheriff that he wanted the whole thing to be completed as soon as possible, and the Sheriff had arreed to hasten the execution once it was started. Sheriff Storey had the death warrant in his pocket, but Belding did not wish to hear it read.

"I will not have anything to say at the

"I will not have anything to say at the execution," he told the jaller, and plans were made to snap the trup on time. At 6.29 the rear door to the small in-closure creaked on its hinges. The surg-ing crowd was silent. As if by one im-pulse, every hat was removed, and all stood silent but expectant. Sheriff Storey Jed the procession, and after him came Beiding, followed by Jafter Jackson.

#### Belding Was Stolid.

Belding's pale, pinched face bore a look of set determination. It seemed as If his one desire now was to go through the trying ordeal before him, without making a scene. He wore a black suit and on the inpel of his coat was pinned a white carnation. His once muscular form had wasted to mere skin and bones, and he looked a slender boy as he marched on to his doom. He bore his form erect and looked only straight ahead. If he quivered the motion was not perceptible. Father Gartiand was by his side, speak-ing gently all the while, and encouraging the prisoner to face his fate. At a mofrom the Sheriff Belding stepped on trap door, and stood awaiting the

#### The Final Moment.

ones present at the burial. Several thou sand curious peaple called at the under-taking parlors during the day, and asked to be allowed to see Belding's body, and they would scarcely believe the word of Mr. Finley when he told them that Beld-ing had been buried.

# PARENTS' MEETING.

Superintendent Rigler and Mrs. Gillett Spoke in the Failing School.

A well-attended and most enthusiastic parents' meeting was held in the Assembly of the Falling School yesterday afteron. Professor Pratt, principal of the school, was in charge, and all the teachers were present to welcome the guests. The programme was opened with a pleasing instrumental solo by Mrs. E. E. Williams, followed by remarks by Professor Frait; a most interesting and instructive address by Superintendent Righer; boys' chorus by the ninth grade class; violin solo by Le nore Gregory, an able paper read by Mrs. Gillett, and an instrumental solo by Miss Heinbach.

This meeting was a success in every sense of the word. There were 200 persons in attendance, and all seemed deeply in-terested in the work. After the literary programme, a general reception was held in the handsomely decorated Assembly Hall. The ninth grade class, in charge of Mins Porter, presented an excellent display of work. Especially attractive to the eye of the observer was her artistic display of water color work.
