CARE OF FEEBLE-MINDED

TOPIC IS DEBATED AT CONFERENCE OF CHARITIES AND CORRECTIONS.

Dr. Gilbert Argues Against Imprope Use of State Institution Which Other Speakers Recommend.

"Oregon as a state has no duties to her feeble-minded children merely because of their feeble mindedness." Such was the keynote of a paper read by Dr. J. Allen Gilbert at the Oregon Conference

skeynote will be seen the first Unitarian of Charities and Correct afternoon at the First Unitarian of Charities and Correct afternoon at the First Unitarian of Charities and Correct wrong of apromiscous use of a state inetitution for the feebleminded. Instead of devoting public funds to this purpose he thought that more should be spent in disseminating knowledge of the causes of defective faculties. In the meantime those in that condition should not be supported at' the expense of the state simply because they were feeble minded. The exception was when the child was helpless and deserted or its parents absolutely destitute. "Only where responsibility cannot be fixed with justice upon the private clizen should the state care for even the deserted child," said he. "For the commonwealth to support any members when he can take care of members when he can take care of the following is the result of the election: President, Dr. L. Eliot; first vice-president, Dr. Stephen S. Wise: second vice-president, W. T. Gardner; secretary, Mrs. M. H. Trumbull; treasurer, W. R. Walpole. An executive committee as follows was selected: T. N. Strong, Dr. A. C. Smith, Dr. E. P. Genry, all of Portland; Dr. C. E. Smith, of Umatilia; Thomas Clarke, of Salem.

The conference closed last evening with sales. The conference closed last evening with the sales of the conference closed last evening with sales. The cause of the causes and deprive the man of his independence. The man who can earn his board but will not should be allowed to starve." Then Dr. Gilbert went back to his sub-

ect again. "The mere fact that an in-lividual is feeble minded should no more justify his committment to the care of the public than that one with chronic Bright's disease should draw from the coffers of the state to counteract the evils of his misfortune. Both are diseases, and the inconveniences of each should be borne by those upon whom the misfortune may

It was the opinion of the speaker that an asylum was not the best place for the care of feeble-minded children; that the company of others in the same condition was a serious obstacle to their improve ment. Dr. Gilbert summarized his paper by reading several suggestions as to Ore-gon's duty as to her feeble-minded chil-"First-The state should adopt stringent

measures looking toward the prevention of insanity and weak mindedness. "Second—The state should own and con-

trol an institution for feeble-minded chil-

"Third-Feeble mindedness should serve as the sole criterion for said institution. "Fourth-Tuition should be free to all, other living expenses being charged for at a minimum rate, except where the ap-plicant is without resource for his sup-port, the full expense in such cases to

e borne by the state.

"Fifth—To said institution should be ommitted all children between the age f 4 and 16 not eligible to the public chools on account of mental incapacity. provided that no child shall be commit-ted who is not a detriment to the com-munity in which he lives, and who has friends who desire to and wilt provide for his support and education elsewhere, ac-

"Corollary-In dispensing charity the state should do only that which it is un-just to demand of the individual citizen." "Oregon's Duty to Feeble-Minded Children" was the topic of the afternoon session of the conference. Labor Commissioner Mrs. Trumbull followed Dr. Gilbert. but did not agree with him on many points, and said so very emphatically. Mrs. Trumbull declared that it was the

some better. And papa is going to tear the natural activities of the child, and, instead of antagonizing and stimulating the svil tendencies she will guide them into a constructive instead of a destructive channel." said the speaker, "Yet our State of Oregon makes no provision for these unfortunate children, except to permit them to drag out a purposeless existence in the Asylum for the Insane, and it is in the hope that our clitzens may correct this barbarous custom, this practice which puts our state on the semi-civilized list, that we bring our appeal to you, and by placing before you some of the results which have been attained in other states we hope to convince you that confining the feeble minded in asylums for the insane is not only lahuman and barbarous, but grossly extravagant as well." Mr. Trumbull declared that of

sane Asylum, said:
"There are two conspicuous methods of dealing with this weighty problem, which, while moving in opposite directions, yet strive for the same ultimate goal. The first is the legal extinction of the unfit, one process of accomplishing which is by permanent sequestration. Degenerates by permanent sequestration. Legenerates are principally increased and perpetuated by the inexorable law of heredity, and the aim in this permanent sequestration would simply be to thus control reproduction. But while on the face of it logical and decisive, and mechanically rendering

such morbid transmission impossible, ac-tual experience establishes the theory as being very limited in operation. The other conspicuous method of striv-

ing to minimize the evils and volume of feeble-mindedness is summarized in one word-education."

The potent results of alcoholism and consanguineous marriages in producing children of defective intellect was dwelt

upon by the speaker.
"The danger of such marriages is that
the combination is likely to contain similar defects and tendencies on both sides, which are thus transmitted in an intensi-

fied form. said Dr. Williamson.

'The duty of Oregon to her feeble-minded may be. in conclusion, defined as follows:

"The duty of Oregon to her feeble-minded may be. in conclusion, defined as follows:

children as nearly as may be self-sup-

educational advantages, while the dis-quieting and discreditable spectacle of placing such children among the insane state

of securing such educational advantages:
By voluntary request of the individual concerned, by application of friends or relatives, or by petition of some duly authorized officer, but in every instance the action to be authorized by some responsible judicial procedure. The state-friends of the concerned of the individual in terms that won my confidence and aroused me to the belief that it was true. I persuaded our teacher to leave off the morning cup of coffee altogether and use sible judicial procedure.

should take care of its weaklings," said Dr. Hutchinson "It has always been a mark of the dominant race to care for the unfit, and it is our duty to do it. As a member of the State Board of Health, I can promise you the entire support of the board in the work which you are doing." Dr. Mary Thompson said that in almost every case a feeble-minded child was capable of development. The one talent they possessed should be scientifically culti-

Rev. Jenkin Lloyd Jones thought that in every public school a room should be set aside for stupid children. In several of the Chicago schools he said this had been done with excellent results.

Three papers occupied the conference

during the session yesterday morning. They were by Mrs. Thomas Clark, of the Oregon State School for Deaf Mutes, who told interestingly of the work in that institution, while "Truancy, Its Causes and Cure," was the subject of W. T. Gardner, superintendent of the Boys' and Girls' Ata

addresses by Rev. E. T. St. Pierre, chap-plain of the Salem penitentiary, and Dr. Hiram W. Thomas, president of the Con-gress of Religions. Mr. St. Pierre spoke of the work arrows the references, while of the work among the prisoners, while Dr. Thomas' subject was "The Law of

A. C. Sheldon, Dom J. Zan, Miss Frances Gill and Miss Louise Bierr. Mayor Will-iams was to address the meeting, but was unable to be present.

PRIZES AWARDED.

Highland Improvement Association Cleaning Up That District.

The Highland Improvement Association held an interesting meeting last night in basement-room of the Highland hool building. There was a large at-dance of the school children and their parents. The important features of the evening were the fine talk of G. M. Hyland, of the American Civic League, and the wording of prizes to the best letters on the subject of local improvements. C. E. Miller, president, presided. A short programme was rendered, it was opened a song by five little folks. Miss Irene kes gave a solo that was heartly ap-uded. The club drill, Miss Freda Bleick, conductress, was very creditable

which was followed by a duet by Mrs. Potter and Bessie Bleick. Mr. Hyland was introduced and held the attention of the audience for half an hour. He told what the children had done toward beautifying Dayton, O. and said the same thing can be done in Portland. At the close of Mr. Hyland's talk, the audience gave him a vote of thanks.

bee, aged 9 years, first prize; Annie Schiedemann, 13 years, second prize; Katie Douis, 13 years, third prize; Christina Hahn, il years, fourth prize; Marie Douis, 7 years, fifth prize; Emma Hahn, 6 years sixth prize. The letter receiving first prize was as

follows:
"Highland Improvement Association—
To begin our improvements, we sold our chickens, because chickens and improvements do not go well together. Then we began work. I picked up 144 tin cans. It duty of the state to care for its feeble-minded and said that in an institution they could be better cared for than at cans are already to be picked up by the committee.
"We sets lots of bulbs, violets, sweet-

would escape the eye of even the mother is eagerly selzed by the trained teacher. Again, her science teaches her to utilize the natural activities of the child, and,

confining the feeble minded in asylums for the insune is not only inhuman and barbarous, but grossly extravagant as well." Mrs. Trumbull declared that almost every grade of feeble-minded chil. dren could be taught something which would aid them to support themselves.

In speaking of the care of the feeble-minded, Dr. W. T. Williamson, of Salem, first assistant physician of the State Insupe Asylum said:

CHANGED HIM TO A BLACK Boys Play Strange Prank on a Drunken Hobo.

"I didn't think I was as drunk as that." mused a hobo yesterday, as he awoke from a long sleep on the cold hard bleycle path near the Vancouver bridge. hobo had been as white as any man when he started out for his apree, but when he awoke yesterday afternoon he was as black as the most shiny son of Africa. The police know that this drunk did

> MORE THAN HALF. Suffer from Coffee Drinking.

Coffee does not set up disease with all copie using it, on the other hand it ab-

solutely does create disease in thousands and thousands of cases perfectly well authenticated and traccable directly to coffee and nothing else.

This statement may burt the feelings of some coffee drinkers but the facts are

follows:

"First—To cause the knowledge of the physical and moral ills that generate and transmit defectiveness and feeble-mind-edness among mankind to be systematically disseminated among both young and old in connection with the responsibilities of marriage.

"Second—To impart specific teaching to the young as to the particular view and or of one thing, one half of them, yes more than half, suffer from some sort of in-prove it is not the coffee, or would prefer to prove it is not the coffee, and the compart of the provential of them, yes more than half, suffer from some sort of in-prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, or would prefer to prove it is not the coffee, and the coffee in these cases, take coffee away from those persons for from ten days to a month, don't change the food in any other way but give them.

"Second—To import specific teaching to the young as to the particular vices and habits and diseases that tend to beget degeneracy, together with their far-reaching consequences.

"Third—To creet suitable buildings as schools or institutions of training, employ expert trained help and teachers, sparing no reasonable effort to improve and develop the minds and reader these children as nearly as may be self-sup-children as nearly as may be self-sup-children as pearly as may be self-sup-children as pearly as may be self-supach did not retain any food, then elecorting.

"Fourth-Sequestration should be se. course, grew weak very fast and the doctored, not alone for itself, but for its

feting and discrediable spectacle of coing such children among the insane outly be discontinued.

"Fifth-There should be three methods walke of Postum Food Coffee. The state-

action to see authorized by some responsible judicial procedure."

After the papers had been read the president pro tem., Dr. Stephen S. Wise, called upon Dr. Woods Hutchinson, the State Health Commissioner.

"I emphasize the fact that the state"

Postum Food Coffee.

"A change took place. She began to get better. She has now regained her strength and is able to eat almost every kind of food and has taken her sposition as teacher again." Name given by Postum Co. Battle Creek, Mich.

man over here seems to be badly I am afraid he is dead," came a weak and gentle voice over the telephone yesterday afternoon, Captain Gritzmacher dispatched Policeman Kallish at once to the scene, but the man had gone. Inquiry about the neighborhood brought out the fact that a man had been asleep on the bicycle path nearly the entire afterno A crowd of boys passing had decided to take advantage of the man's belpices con-dition and play a trick on him. Their first move was to secure a large amount of soot. Armed with this and some rags they commenced to change the sleeper's form from white to black.

Not content with blacking his face and bands, they stripped him of his clothes and left him shivering with cold , but changed to a black man. No one admits having seen him after he awoke, and the policeman was unable to find any track of him after he left his alceping
