IS FOR CLEVELAND

Tarsney of Missouri Believes He Could Win.

HE WANTS NO MORE POPULISM

Cry for Ex-President's Nomination Grows in the East and Is Voiced by Missouri Gold Democrats -How to Win the East.

a good deal of talk about Cleveland in the East, and several papers are booming him quite extensively, and consequently anything coming from those who were Cleveland men during his last term has a good deal of interest. Mr. Tarsney, who is in Washington, states that he has not seen Cleveland in a long time, and has no idea that he will be a candidate, but thinks that he would be a strong man, Speaking of what the Democracy used to be, he says:

Democratic party used to win campaigns because it fought on the old-time principles which commanded the confidence of the country and heeded not the heresics of Populism. We hazarded our strongholds to win the West, Tore, gain our lost prestige we must turn to the fundamental issues on which we were fighting 12 or 16 years ago. We must have issues that will enable us to regain Democracy in the States of New Jersey and Connecticut and the rapidly growing Democratic New England."

Asked specifically about Cleveland, Mr. Taraney said:

"If Mr. Cleveland could pass the or deal of the convention of politicians he would be a tremendously strong candidate before the people. No, he is nor too old. He is the kind of man who was able to put his country above his party when fantastic and dangerous ideas were being thrust upon it. His personal attitude as an ex-President has been admirable, his self-poise," repeated Judge Tarsney, "has been splendid. He has endured vituperation with dignity and without rushing into newspaper interviews and denunciation of his accusers. The country has confidence in him. The Democratic nomiof party government and must embody mething of his personality."

Mr. Tarsney claims that the South is Democratic any way, but says that it ognized and fauned the Populistic doctrine because of the fear of negro domination in the South and because of hard When Mr. Tarsney was in Congress he was a low-tariff extremist; in fact, believed in free trade. He thinks now that the trend of sentiment is for tariff for revenue only, and he does not expect that the next Democratic conven tion will go much farther than a declaration of that kind.

CHARLESTON, S. C., March JL-W. G. Crum took charge of the Custom-House as Collector of the port, having taken the eath of office last night. There was an immediate tender of resignation by the chief inspector of customs, a writte man. The matter has been brought to the notice of the Mayor, and it is said he has referred it to the corporation counsel for consideration.

WASHINGTON, March 3L - French financial houses are contending with American, British and German bankers for permission from President Castro to take up the Venezuelan debt. Mr. Bowen today received information from Caracas that the French Minister was in frequent communication with the Banque d'Es-comptoir with a view to converting the Venezuelan debt and establishing a French bank in Caracas.

Until the arrival from Caracas of Senof Pulldo, the Venezuelan Charge at Washington, with advices from President Castro, it will be impossible to ascertain the outcome of the efforts of the various institutions which are in the field. The Brit-ish Ambassador is still awaiting instruc-tions from his Foreign Office concerning the negotiation of The Hague protocol. but it is generally admitted that the allied powers are awaiting Castro's answer to the syndicates before closing the negotiations to send the controversy to The Hague. There has been no communica-tion between Germany and Mr. Bowen for some time, but it is assumed that Ger-many will follow Great Britain's lead.

NOT TO SUCCEED TAFT. Wood to Govern Moros, But Not to Interfere With Their Customs.

WASHINGTON March II -It was stat ed at the War Department today that General Wood is not to be the Governor of the Philippines as a successor to Gov-ernor Taft, even should the illness of the latter cause his resignation. General Wood, it is said, is not to interfere with conditions in the Moro coun try so far as they relate to religious prac tices and slavery and polygamy. The War Department has determined to treat the Moros according to the policy adopted for the government of American Indians. Guided by the reports of American offi-cers, like those of Captain Pershing, the department is confident that this is not the time to attempt innovations among the Moros. Later, when the United States

authority is more fully established, the gradual extinction of slavery and sup-pression of polygamy may be attempted. HONORS FOR THE VICTORS. Taft Rewards San Miguel's Slayers,

In the event of a challenge being sent, the meeting will be at the Queen's Club, as before. It is suggested that the most suitable dates would be July 11 or July 18, and that the conditions will probably be on precisely the same lines as those of previous meetings here with the teams of the American universities and those of the English universities in their contest with Yale and Harvard in 1901. The con ditions, however, cannot be formulated until the next term, which begins at Ox-ford and Cambridge in the last week of April or the first week in May
