

WHEN MAY 21 COMES

President Will Have a Busy Day.

IT MAY RUN INTO THE NIGHT

Special Committee Is Undecided Whether to Have Evening Parade or to Let Chief Executive Rest After Dinner.

The President is to begin his day's work on May 21 with a half-hour stop at Roseburg, just about the time the sun crawls out of bed and begins shedding light. He is to make another short stop at Salem on his way to Portland, and will arrive at 2:30 P. M.

A special committee spent an hour yesterday afternoon considering the question as to whether the President should be permitted to close his day after dinner, or whether he should be called upon to review an evening parade and conclude his round of sightseeing, speechmaking and reviewing somewhere about 11 P. M. or 12 hours after he began his day.

Most of the details of the day's programme were easily arranged by the special committee, but over the question of the night parade with its attendant reds and brilliant electric lights there was a marked division of sentiment. The general committee had previously decided this would be an acceptable feature, and the President had agreed to review a night parade.

All this, however, was before the special committee had figured it would need all of the President's time up to 9 or 9:30 o'clock to complete his dinner, to have gone through an afternoon of varied experiences, wherein he would take part in a street parade, meet a number of distinguished visitors, review the troops, and lay the cornerstone of the Lewis and Clark monument. When it was discovered that the President would not have much rest during the day, a portion of the special committee, headed by Mr. Wheelwright is chairman, began to doubt whether it would be possible to hold a night parade, even though the President were willing to review it.

Plans for Night Parade. All plans for a night parade agreed upon some of the essential details. The affair was suggested as a uniformed and regular pageant that would pass a reviewing stand, marching in perfect order and between rows of state or Federal troops. The committee members, whether favoring the parade or opposing the plan, insisted that nothing save a uniformed parade should be attempted, and that even such private citizens, not members of the various societies or labor unions, who desired to march past the reviewing stand should submit to the orders governing the formation and action of the parade.

The proposal for this parade was made with the provision that a reviewing stand should be erected in the courtyard of the Hotel Portland, and that thousands of electric lights strung along the streets should make the scene as brilliant as possible. Troops were to be drawn up in the courtyard, and that thousands of electric lights strung along the streets should make the scene as brilliant as possible.

Elaborate Dinner to be Served. The dinner that is to be served the President at the Hotel Portland was discussed at yesterday's meeting. It would give it was urged, an excellent opportunity for the people to see the President, and the Executive to gain an idea of what Portland could do.

Some of the committee members, besides urging the possible fatigue of the President as an objection, also insisted the element of danger to him would be greater in increasing that time, and insisted that the plan should be rejected upon this account. The committee was unable to agree upon a recommendation yesterday afternoon, but will take up the matter again this afternoon at another special meeting to be held at 4 P. M.

Elaborate Dinner to be Served. The dinner that is to be served the President at the Hotel Portland was discussed at yesterday's meeting. It would give it was urged, an excellent opportunity for the people to see the President, and the Executive to gain an idea of what Portland could do.

LODGE'S GOLDEN JUBILEE

Over Two Hundred Oddfellows Celebrate Anniversary

Over 200 Oddfellows celebrated the golden jubilee of Samaritan Lodge, No. 2, I. O. O. F., at the Oddfellows' Hall, last evening.

On April 8, 1882, just 50 years ago, the local lodge was instituted, 11 charter members being admitted at that time. Today the total membership numbers 252. Of the 11 charter members but one is living. Past Grand J. B. Kellogg, who delivered the address on "Charter Members" at last night's celebration.

D. E. Buchanan in his address gave the names of the following past grand masters of Oregon elected from Samaritan Lodge: H. W. Davis, charter member, second grand master, elected 1887. E. St. John, sixth grand master, elected 1891. William Morton, 11th grand master, elected 1895. J. N. Dillon, 15th grand master, elected 1899. C. E. Siphon, 23rd grand master, elected 1923. J. E. Wright, a member of the lodge.

Secretary M. Osvoild gave a statement of the benevolent and charitable work of the lodge, showing that since 1882 \$26,849 had been paid out in sick benefits, nurse hire, funeral benefits, widows' allowances and charity. Many items have been omitted which would bring the total considerably over \$100,000.

The earlier part of last night's festivities was taken up by a program consisting of addresses by different prominent men of the lodge, as well as a number of musical selections. The programme was as follows: "The Blue and the Gray," "Overture," "Jacobson's Orchestra Address of Welcome," J. C. Devlin, P. G. "Our Fifteenth Anniversary," "The Influence of Oddfellowship on Character," "The Benevolent and Charitable Work of the Lodge," M. Osvoild, P. G. Song, "Home," J. B. Kellogg, P. G. Gavotte, "Hawatha," "Orchestra "What Samaritan Lodge Should Do," "When the Corn is Waving," "Eyes," "Don't Make Dem Scandalous."

At the conclusion of the programme a banquet was served in the main hall. Covers were laid for 250, all of whom were present to do honor to the occasion. The table decorations consisted of carnations, roses and Oregon grape, tastefully arranged along the entire length of the festive board. Numerous small candelabra with shades of various colors added charm to the elaborate decorations.

PROSPECTS AT TANANA.

New Strike Not Much Good for About Two Years.

EAGLE, Alaska, March 27.—(To the Editor.)—Having received several letters from your home city, Portland, inquiring as to the truth of the new gold discovery in the Tanana Basin, Alaska, I deem it my duty to my friends in Portland and elsewhere to get particulars relating to the Tanana District, as they at present prevail.

Through reports just brought in from one Commissioner Carl Johnson, who can be depended upon as most reliable, the district comprises an area of 50 miles. The main streams are Chenoa, Pedro, Ma-Mannas and Gold Stream, with their tributaries. Gold has been found in paying quantities on nine different creeks with more to be found. The ground is frozen, and runs from four to ten feet of muck, under which is a deposit of from three to nine feet of pay gravel, paying from 2 cents to 30 cents to the pan, with no pay on bedrock. No. 5 Gold Stream has been cross-cut 20 feet with the above results. Other claims have already been staked, Chenoa and Fairbanks. The latter is supposed to be at head of navigation. There is also a trading post known as Hendrick, and a United States telegraph station located on the Chenoa. The Chenoa is a tributary to Tanana River. The latter is a tributary of the Yukon. At present there is but little gold being taken out and no money in camp. Provisions are scarce, as there are none to be sold. We expect great suffering to prevail before navigation opens, as most of the supplies are being taken to them in them. They are coming from Nome Circle, City Rampart, Dawson, Rampart and Circle City are slimly settled. Circle City is at present the base of supplies, but the dealers make the lowest bid, while the others quote exactly what the bid of each one is. Then the man who gets the job divides up the work among the others. All city work and most of the other big jobs are done this way. It's nothing but a pot. When the other members of the association learn of such a deal they try to break into the ring and are sometimes successful.

LUMPY JAW, OR NOT?

QUESTION AS TO ITS PREVALENCE IN EASTERN OREGON.

Dr. Curry Denies It, But Health Authorities Will Take Vigorous Measures.

"Several people have died in Baker City within the past two years from Actinomyces, or lumpy jaw," said a letter received by State Health Officer Dr. Woods Hutchinson, from Dr. E. B. McDaniel, of Baker City. "A number of cases have occurred among the cattle, and recently I saw three cases in one slaughter yard."

Dr. H. E. Curry, of Baker City, a member of the State Board of Medical Examiners, who was interviewed concerning the matter yesterday, said that he had not seen a single case of lumpy jaw among the cattle within the past year, and that he did not believe that any people in his county had contracted the disease. Dr. Woods Hutchinson, State Health Officer, said that the rumor was so prevalent that the matter needed investigation, and that he would send a competent veterinarian to Baker County at once to inspect the herds. "The cattle are just being turned on the range, and if the in-

fection goes at once he will be able to see all of the cattle before they have scattered. The attention of the State Board of Health to the matter was first attracted by the announcement that several cases of lumpy jaw had been reported at the hospital in Baker City. "I am secretary of the Hospital Board," said Dr. Curry yesterday, "and I have not heard of a single case of lumpy jaw received from Dr. McDaniel. It was stated that he thought beyond a reasonable doubt that several deaths had occurred from lumpy jaw within the past two years. "Are you able to tell just what cases are in the hospital at the present time?" asked Dr. Hutchinson of Dr. Curry. "No, sir," he replied, "but I think that I would surely have heard of it."

"Then you cannot say positively, that there is not a case of lumpy jaw in the Baker City hospital at this time?" queried Dr. Hutchinson. "I cannot," admitted Dr. Curry. "But I think that a great injustice is being done to the Eastern part of the state," continued the doctor. "Our cattle are as free from disease as any cattle in the world. We have taken an especial pride in breeding fine cattle. "As for lumpy jaw existing among them, I am sure the report is false. We have our own inspector, and he is a good one, too. We have such fine cattle that we cannot afford to allow them to become diseased. We kill an animal with a lumpy jaw just as we would a mad dog. "And as for the report that the butchers have been selling diseased meat to the Eastern part of the state, I cannot believe that a butcher in the county would stoop so low. The average sales in the butcher shops are 25 cents, and I cannot think that any man would deal death out to his customers for a 25-cent profit he would make on a 25-cent sale. "They do it in this county," interrupted Dr. Hutchinson. "Why, these beasts with whom we have to deal, and the doctor emphasized his statement with an impressive gesture, "would sell anything that they could get into the market. As soon as an animal begins to show signs of disease they kill the animal, and rush it to market before the meat shows signs of decay. "And there seems absolutely no way at present to stop them, except through chance. We have no method of meat inspection except for the meats that come under the charge of the Bureau of Animal Industry. We must have a system of inspection throughout the state and it must be inaugurated at once. "But be cautious," said Dr. Curry. "Do not harm the stock-raising interests of Eastern Oregon by announcing that there is lumpy jaw among the cattle. "The announcement has already gone out," said Dr. Hutchinson, "and the report has circulated to such an extent that an investigation is necessary. I shall send a competent man to Eastern Oregon at once to look over the herds. If he finds that there is no lumpy jaw there, his report will assure the people that they are safe in buying in Eastern Oregon. If he finds the disease does exist among the cattle, he can order all diseased stock killed, and will then be prepared to announce that the disease is stamped out. It is the best thing for the public health and for the business interests of Eastern Oregon, that an investigation should be made at once. I calculated that as the Fair would bring a great amount of work into the city we could afford to pay the man more, even without figuring the additional 50 cents a day in our contracts. When more work is being done we can afford to make less off each man than if

TO BUILD \$10,000 HALL

FIDELITY LODGE, A. O. U. W., HAS SUBSCRIBED \$3000.

One Thousand Shares of Stock Will be Issued and Sold to Members at \$10 Each.

At a rousing meeting of Fidelity Lodge, No. 4, A. O. U. W., held last night in Logan Hall, on Grand avenue and East Washington street, the question of the proposed \$10,000 hall was discussed with much enthusiasm. During the evening over \$3000 in shares of stock was subscribed, and another \$3000 was pledged, making a total of \$6000 shares taken of the 1000 it is proposed to issue.

Fred Gifford, chairman of the committee appointed to make investigation of cost, location and plan, reported that a \$10,000 hall was feasible. The money was to be raised by issuing 1000 shares of \$10 each. It was decided to make the shares payable monthly at the rate of \$1 each. On delivery of the certificate of share or shares the purchaser pays \$1 down on each share taken, and thereafter \$1 a month on each share until paid up. It was the consensus of opinion that the hall should be built as near East Mor-

risson street and Grand avenue as possible. However, the definite location will be settled later. On motion, the following committee of ten was appointed to place the shares of stock with the members as rapidly as possible: Fred Gifford, Frank Schlegel, C. J. Wheeler, H. L. Camp, W. H. Reader, J. H. Zane, A. Kaddery, S. W. Fryer, William Dixon and J. B. Great. It was decided that the whole number of shares should be issued before the subscription was closed, and that the binding. After the stock has been subscribed the joint stock building company will be formed and directors and officers will be elected. From the enthusiasm displayed last night, the project is certain to succeed. Many short talks were made, all favorable to the erection of a building devoted to fraternal purposes.

SEWER WELL CONSTRUCTED. East Twenty-Eighth street Residents Have No Ground for Kick. M. E. Gordon, who is inspector of the sewer now being built for the East Twenty-eighth-street district, which is an extension of the East Oak-street sewer, said yesterday that the people are getting a first-class sewer for their money. The sewer begins at East Twenty-fourth street and until it reaches East Twenty-eighth street is 22 inches in diameter. That part laid on East Twenty-eighth street is 20 inches in diameter. Objections have been raised that poor work was being done on the last two blocks. Citizens measured the pipe that was being used, and found it lacked something of being 20 inches in diameter, inside measurement. They also thought that the joints were not being properly made.

PAINTERS PATROL THE CITY. But Few Nonunion Men Are Reported at Work. Though the patrol was just as busy yesterday as on the previous days of the strike, not so many cases of nonunion men were reported as on Monday and Tuesday. A concerted effort has yet been made by members of the Master Painters' Association to place nonunion painters upon any number of jobs. The business agents said the union was not to be broken, and painters cannot be obtained. The contractors say they wish to give the local painters a last chance to return to their former positions. Whatever the cause, the union remains that few were paid to work. "I put two nonunion painters to work this afternoon," said William Sheehy. "Ernest Miller placed two, and Sutcliffe & Bledsoe three. We will have a number of nonunion men here within a few days." Messrs. Sheehy, Christensen and T. A. Clarke were on their way to confer with a committee of the Master Builders' Association at the city hall. "Going to a meeting, gentlemen?" they were asked. "Oh, no, a man down the street has offered to set up the cocktails, that's all," said the discreet Mr. Clarke, and the committee proceeded on its way to the Sherlock building.

The union men were asked as to the nonunion painters whom Mr. Sheehy said he had put to work. "I don't know anything about them yet, but we'll have them off by tomorrow," said the business agents. Later in the day President Warde had a laugh. "Yes, we found one of Mr. Sheehy's men, and he leaves for Spokane tonight," said he. "You know, they are advertising to pay union painters \$1.50 a day in Spokane. This man had drifted into Portland without knowing anything about the strike. Just as soon as he was told there was a strike on he came to headquarters and left the key of the house he was working upon, such was his hurry to leave town for a place where they are willing to pay at least \$1.50 a day for a man's work. Ritzinger took the key to Mr. Sheehy's shop."

"Yes, we have the city pretty well patrolled," continued the president. "All the work is done by volunteers, except the business agents, who are specially appointed; there are five of these now. The first thing in the morning when the executive board meets, I call for volunteers to pay union painters \$1.50 a day. It is never the least difficulty in getting enough men to do this. We might have stirred up much trouble in this city by the strike, and could very easily have had a riot. That is the way we will win the strike, for public opinion would be turned against us. As it is, a reasonable, peaceable strike, orderly conducted, will bring public sympathy to our aid, and we will win."

Practically all the carpenters and plasterers who quit work on the Mohawk building of the Falling estate at Third and Morrison street, Monday, are now back at work. The legend, "This job is fair," on the Morrison-street side, brings union men at once.

BUSINESS ITEMS. If Baby Is Crying Tonight. Be sure and get a bottle of Mrs. Winslow's Soothing Syrup, for children's colic, teething, and all the other ailments that afflict the little ones. It is the best thing for the public health and for the business interests of Eastern Oregon, that an investigation should be made at once. I calculated that as the Fair would bring a great amount of work into the city we could afford to pay the man more, even without figuring the additional 50 cents a day in our contracts. When more work is being done we can afford to make less off each man than if

MISSIONARY SOCIETY MEETING.

Two Sessions Were Given in the Sign Language by Two Mutes.

The Women's Presbyterian Missionary Society of the Oregon United Presbyterian Church, on Wasco street and Grand avenue, Mrs. J. A. Spicer, in the absence of the president, Mrs. W. P. White, presided. After devotional services, conducted by Miss Meda Dunlap, the minutes of the previous meeting were read, which was followed by reports of the officers.

Then followed the programme, as follows: Paper, "Indifference of Church Members to Missionary Work," Mrs. J. A. Morrow, of Ontario; 11st Psalm in the sign language, by Miss Nina Reiche; paper, "Necessity of Prayer in Mission Work," Mrs. C. H. Stewart, of Albany; "Nearer My God to Thee," in the sign language, Miss Lena. The two sign language exercises were particularly interesting to the audience. They showed the character of the work that is being done in the East Side United Presbyterian Church. Dr. Gibson, the pastor, has preached regularly to mutes for some time, and his wife has interpreted the sermons. Mrs. H. Gibson, who has been a devoted worker for the cause, delivered an illustrated lecture on India, delivered an illustrated lecture on India, delivered an illustrated lecture on India.

At the business meeting, which followed the dinner, F. A. Spence, president, Mr. Spence was re-elected president of the congregation; Wilson Benefield was elected treasurer; F. Fortmiller and Walter Johnson, trustees for three years; Walter Johnson, secretary and treasurer of the congregation. Reports were received from all departments of the church, and were highly satisfactory. The report of the Ladies' Industrial Society showed that the society had raised a total of \$106.10 for the year, all of which has been used in church improvements. The total membership of the church was reported as being 100, a 20 per cent increase. A most harmonious feeling prevailed, and the reports showed the church in a most prosperous condition. Rev. Andrew E. Montgomery and wife, who came here at the close of Rev. Robert McLean's pastorate, have been very successful in their work.

WILLIAM HOLLEY ARRAIGNED. Charged in Mount Tabor Justice Court With Assault. William Holley, who fired a charge of shot into Louis and Ernest Lingren and Charles Law, in Center addition north of Mount Tabor, was arraigned before Justice Graham, of the Mount Tabor Justice Court, yesterday. He was given until this afternoon at 3 o'clock to bring his witnesses to show he had no part in the shooting. He was arrested by Deputy Sheriff W. A. Dunn Tuesday on the West Side. The charge is assault with a dangerous weapon. Holley was held until this afternoon, when the hearing will be held.

Cars Run on East Harrison Street. Cars on the Woodstock and Waverly branch of the City & Suburban Railway Company commenced running on the new tracks on East Harrison and East Tenth streets yesterday morning. The old track on East Seventh and East Sherman streets has been abandoned for the present, and will probably be removed after a time. Double tracks will not be laid on Clinton through to East Twenty-sixth street. When these improvements are completed a ten-minute service is promised.

G. A. R. Committee Meeting. A meeting of the joint committee appointed by the G. A. R. posts of the city to make arrangements for entertainment of the state encampment, which will be held in Portland next month, will be held tomorrow evening in G. A. R. Hall. All members of the committee are requested to attend this meeting.

East Side Notes. The body of Thomas Theodore Magee was shipped to Spokane last evening for interment. He died at 1642 Belmont street, April 7, at the age of 28 years. The Oregon conference of the United Evangelical Church will begin its sessions this morning at 9 o'clock in the First Church, East Tenth and East Sherman streets. Bishop W. P. Plimpton, wife of Blas P. Plimpton, was held from her late residence in Willsburg, Tuesday, and

FREE MEDICAL ADVICE TO YOUNG WOMEN.

All young girls at this period of life are earnestly invited to write to Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women, her advice is freely and cheerfully given; her address is LYNN, MASS.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries; less learning and more health needed.

the body was cremated at the Portland Crematorium. Mrs. Plimpton was 50 years of age.

PACIFIC CABLE ABOARD. Two Steamers Leave London for the South Seas. LONDON, April 8.—The cable steamers Anglia and Colonia sailed today to lay the remaining sections of the Commercial Pacific cable from San Francisco to Manila. It is expected that the cable from Honolulu to Manila, by way of Midway Island and the Island of Guam, will be completed July 4.

Bribery Charge in Patrick Case. NEW YORK, April 8.—District Attorney Jerome has preferred charges before the Bar Association against Edward J. Kohler, who is interested in the appeal of Albert T. Patrick, against the latter's conviction for the murder of William M. Rice. Mr. Jerome charges that Kohler offered a bribe of \$1000 to Detective Sergeant Brindley to make a certain affidavit, and he seeks to have Kohler disbarred. District Attorney Jerome also alleges that Brindley was to be employed permanently by Kohler to deliver information regarding the Patrick case from the District Attorney's office. Mr. Kohler denies the charge and says he has demanded an investigation.

Missouri Requests Kelly's Return. ST. LOUIS, April 8.—Governor Dockery today issued a requisition on Governor Odell of New York, for the return of Daniel J. Kelly, who is charged with offering a bribe of \$1000 to Lieutenant-Governor John A. Lee for the purpose of securing his influence in legislative matters. Boodle scandals connected with the Missouri State Legislature believed to have been prompted in St. Louis, will be the first case taken up when the April grand jury convenes tomorrow. Inquiry will be directed chiefly to the alum bagging powder boodle deal.

Choice of Routes. New overland service to Chicago via the Union Pacific and Chicago, Milwaukee & St. Paul lines. Double daily train service. East via Minneapolis and St. Paul and the Chicago, Milwaukee & St. Paul Railway to Chicago. The Pioneer Limited and three other special trains run daily. You can't help liking them, they are so very small and their action is so perfect. One or two pills dose. Carter's Little Liver Pills. Try them.

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in Lydia E. Pinkham's Vegetable Compound.

"I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. "I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich.—\$5000 Worth of original advice letter proving genuineness cannot be produced.

Come Up Where You Belong.

Perhaps you know why you fail in the plans for money, fame and position. Some don't. Just why the brain does not produce practical money-making results is a puzzle to many men. Strong, healthy, natural brains cannot be made from the food most men eat and good brains can't work sharp when slugged to weakness by coffee. Unsuccessful brains come from improperly selected food and from coffee drinking. Coffee affects the stomach and nerves, thence the brain and prevents proper digestion of even good food. A distinct improvement in mental power will follow in a week or ten days after coffee is left off and Postum taken on. The results are multiplied when the brain-building food Grape-Nuts is used twice a day. There are well established and very clearly understood reasons for these sure results from the change in food and drink. You can make Money, Position, Fame if you have the kind of Brain that works that way. Postum well boiled produces a delicious beverage, satisfying and nourishing. Quit drugging and poor food and Come Up Where You Belong.
