Dr. S. F. Herdine, of this city, has made a careful miscroscopic examination of

bacillus taken from a human patient and compared with the bacilan animal afflicted with lus from npy jaw, or big jaw, as it is commonly known, and he said this afternoon that ere could be no mistake about the disease in the human patient, being the same character as lumpy jaw in cattle. Dr. McDaniel also confirmed the statement that the disease has developed in patients that have come under his observation

A prominent stockman said today that did not think there was anything in the stories about himpy jaw in human patients. He said he had often given lumpy lawed steers to Indians and they had eater the meat, lumpy jaw and all, and it never ed them. He knew the disease existed, and while he would not himself eat the meat of an afflicted steer nor sell it

When told that the State Veterinarian be heard from. was coming over, he said he would have a hard time to find any lumpy-jawed cattie, because the cattle-owners would be very apt to find them first.

# ROAD MAY NOT BE BUILT.

Oregon City Discovers liself to Be Deeply in Debt. OREGON CITY, Or., April &-(Special.) -A small brease was raised at the meet-ing of the City Council last night by a re-port of the street committee on the pro-posed road leading into the south end of the city. The road has been hanging fire

for years, and the estimates of its cost vary from \$3000 to \$20,000. The commit-tee's report showed that the city was in debt over \$30,000, not including the in-debtedness of the Water Commission, and decidentess of the water Commission, and cited the fact that the Hem of interest was becoming a greater burden each year, and that the money to be received by the road fund from this year's taxes would be practically consumed in making repairs

to streets. The committee recommended a special election be immediately called and a spe-cial tax levy made to cover the cost of building the road. The City Recorder was instructed to advertise for bids for that portion of the road beginning at the top of the biuff to a point where the road would cross the railroad track at Third street

street. The report is considered a blow at the road, which is greatly desired by the property-owners of the south end of the
