His ROSE BUSHES STOLEN.—A lot of fine rose bushes set out on the grounds of William Faber's residence at Eleventh and Market streets Wednesday were all stolen by some contemptible petty larceny thief Thursday night.

Mr. Faber, who is an Albany brewer, took up a residence here some time ago. His house was rather seriously injured by fire a few weeks ago owing to some disagreement between the gas and electric lighting fixtures. He has just completed putting it in order and had a lot of very choice roses planted on the grounds, desiring to do his share toward making Portland a rose city and showed his confidence in the inhabitants by disposing with a fence in front. He is somewhat disgusted on account of his rose bushes being stolen. The authorities will have to make strenuous efforts to secure the arrest and proper punishment of the contemptible thieves who plunder the grounds around residences if they expect people to spend money in trying to beautify the city. It may be suggested that Mr. Faber would do well to put a fence in front of his property, but any ordinary fence is but a slight protection against thieves, and even a meek thief ought to have some respect for a man who shows confidence in him by disposing with a fence.

AMOR DAT OBSERVED AT HIGH SCHOOL.—A pleasing literary and musical program was rendered yesterday in the assembly hall of the High School in observance of Arbor Day. The selections by the Girls' Glee Club were heartily enjoyed, the choruses "Spanish Students" and "Merry June" being especially well rendered. Miss Edna Garret and Miss Dietz gave vocal solos. Miss Garret responding to an encore with "Rosette." Master Struble recited a poem describing a large, lazy boy's feelings in the month of June. Miss Edna Pringle read a poem entitled "A Pable." At the close of the program Principal T. T. Davis introduced Mr. Search, who recently lectured before the Portland school teaching. He spoke very entertainingly for about half an hour, the gist of his remarks being summed up in the epigram which Mr. Search said he had overheard a tramp speak: "Education makes the whole world a man's field; lack of it often makes a field his whole world."

HELD FOR POSTAGE.—There are frequently returned from the Postoffice to this office copies of letters, or parcels, or individuals to friends in other cities on which postage is not fully prepaid. Such matter is not forwarded to destination by the Postoffice Department. In cases of this kind the addressee is notified by the Postmaster that a package of papers or paper is held in this office on which the postage has not been fully prepaid, and that upon receipt of the amount due it will be forwarded. If the postage due is not received in 30 days all such mail matter is destroyed. If all persons sending the Oregonian through the mails will attach 1 cent for each 14 pages, or fraction of 14 pages thereof, they may rest assured that papers will be promptly forwarded as directed. These rates apply to the United States and Canada, and the insular possessions. Foreign rates are double the above rates.

SWISS INSPECTOR EXAMINER.—The building of the Can Manufacturing Company in the northern part of the city is spreading out over a vast scope of territory and causing anxiety to the Inspector of Sewers. It is very unhealthy for sewers to have pipes driven through them, and a while ago a man was kept on the ground all the time the company was driving pipes for a foundation on Bayview street. Lately he has been watching the pipe drivers at work on the Thurman-street section of the foundation for fear the sewer there might be ruined. He is beginning to fear that the proposed building is going to spread all over that part of the city.

PHILOLEXIAN SOCIETY ELECTS OFFICERS.—The Philolexian Society elected officers yesterday as follows: Rachel Smith, president; Isabel Rockwell, vice-president; Cara Mastick, secretary; Ellen Driver, assistant secretary; Grace Carter, treasurer; Helene Blumenauer, editor, and Agnes Rice, secretary-at-large. The Philolexians are preparing to present Tennyson's "Princess" some time in the near future.

Will ex-police officers, who have served in the Police Department since it has been a uniform force, who have police buttons in their possession, return them to Police Headquarters? There must be quite a number scattered about this city. It is important that a sufficient number be collected to be replaced in order to furnish Summer uniforms with buttons.

Charles H. Hunt, Chief of Police.

Mrs. Dye to Lecture Today.—Mrs.

Eva Emery Dye will, at the urgent request of those interested in the Japanese statue, give a talk on the life and work of Saka-jawa, in the rooms of the Oregon Historical Society in the City Hall, today at 2:30 P. M. A cordial invitation is extended to everyone interested in the preservation of the history of Oregon and the erection of a statue in honor of the only woman who accompanied the Lewis and Clark expedition.

The meeting was arranged for Saturday, hoping many of the teachers would avail themselves of this opportunity to hear and meet Mrs. Dye. At this meeting it is hoped to complete the permanent organization which has been for some weeks forming. Many of the pioneer women have already enrolled themselves as members of the association, and it is hoped many more will attend today and add their names to the membership.

YOUNG WOMAN STRUGGLES UP TROUBLE.—The young woman who created so much trouble for E. C. Bulman and his family by charging him with appropriating money belonging to her is now convinced that she was entirely wrong in her charges and is very sorry for what she said. Mrs. Bulman has not yet recovered from the shock she received in the matter, and the regrets of the young woman do not go far toward repairing the injury she has done. She probably will be permitted to make a statement clearing him of the charges she made against him. He was, it appears, suddenly called away from the city having been in a fit of possession belonging to the young woman, but the only wrong in the matter existed entirely in her imagination, and she now desires to put the matter to rights as far as possible.

LOGGING RAILWAY GRADED.—The grading of Benson's logging railway up the Clatskanie is completed for three miles. The rails for this section are on the ground, and the grading will be commenced at once, while the grading of the remaining three miles is in progress. Connection for this road with the Astoria and Columbia River Railroad has been made by Mr. Hanson, so that the cars of the latter loaded with supplies, etc., can be run up the logging road as far as desired, and empty cars can be run there to be loaded with ties, piles, cordwood, lumber, etc. There are several sawmills back in the woods along the Benson road to which this arrangement will be a great convenience, as it will enable them to ship their output by rail direct from the mills to a market.

TO-LOGGERS SOCIETY ELECTS OFFICERS.—The To-Loggers Society of the Portland High School held its election of officers yesterday. The election resulted as follows: Oliver Walker, president; Claude McCulloch, vice-president; Arthur Barendrick, secretary; William Reuter, assistant secretary; Nathan Blackburn, treasurer; Curtis Gardner, editor, and Albert Young, sergeant-at-arms. The To-Loggers Society is now in a very flourishing condition, numbering about 30 members. A banquet will probably be held in the preparation for the debate with Willamette University, which will take place in Salem, May 22.

THURST WANDERS BACK.—Frank Kelly, the trusty who disappeared Thursday from the County Jail with a box of blankets and a roll of blankets, returned to the jail yesterday with the canine, but denied having taken the blankets. William Henry, an old man, left the blankets in the door of the County House while he went to the office of the County Judge to obtain a permit to go to the County Hospital. Kelly is addicted to the use of opium and consequently little credit is given to his statements. The blankets will doubtless be found in some second-hand store.

SWALLOWED HIS FALSE TEETH.—On Sunday last, O. M. Scott, of 415 East Alder street, was the victim of a very peculiar accident. He was doing justice to a bountiful dinner before him when suddenly and without warning he swallowed his false teeth. The artist who made the small gutta percha plate about half an inch wide and an inch long, and it passed down the road to his stomach with little difficulty. He was left with a sore throat, and with this he appears to be no worse for his little adventure.

MEN'S RESORT ENTERTAINMENT.—Tonight, 7:45, at the Men's Resort, 66 North Eighth street, the usual Saturday night entertainment will comprise a musical and literary program. Admission is free, and all are welcome.

STOLEN.—Friday afternoon, from Seventh street, near Washington, boy stalling "Mack Goe" and buggy. \$500 reward will be paid for arrest and conviction of man taking same. See description elsewhere on this page.

A BEAUTIFUL COLLIE PUPPY, from C. D. Nairns' Oregon Collie Kennels, Ballston, O., will be given away tonight at the dog show, exposition building.

FIRST PRESBYTERIAN CHURCH.—Services at 10:30 A. M. and 7:30 P. M. The pastor, Rev. Edgar P. Hill, D. D., will preach moving and evening.

MAKE IT OVER.

Change of Diet Will Build an Entire New Body.

People can be entirely made over by a scientific course of food and drink. Even old, chronic diseases and hereditary ailments are eliminated by the wonderful processes of reconstruction under modern methods of feeding.

An illustration is worth attention. A lady writes: "I feel this letter will exceed all reasonable bounds, but how can I be brief when I have so much to tell. First about myself. I inherited nervous headaches and had invalid condition. I had to give up tea and coffee but some months ago a friend insisted that I start on Postum Food Coffee and Grape-Nuts breakfast food."

"I prepared the coffee myself, carefully according to directions on the package, and used good cream. The first cup seemed the most delicious and satisfying drink I ever tasted. I drained it and it filled it again. I was impressed with the idea that it was just what my starved nerves demanded. So I used Postum and Grape-Nuts with good rich cream. Now for about four weeks I have been entirely free from headaches and nervousness, and am feeling unusually strong and well. There has also been a marked change in my appearance. I am 47 years old and my hair is very white, but the haggard, care-worn look is entirely gone from my face, my cheeks and body have filled out, the face shows a fine color, fresh firm and smooth, eyes clear and lips red. My friends comment on the change and say I look 15 years younger. They are incredulous when I tell them that I am feeding on scientific food like Grape-Nuts and Postum Food Coffee has wrought the change."

"Now, as to my son 24 years old, who has been afflicted with epilepsy from infancy. I hardly dare tell the facts, but he is here in the body to prove them. He has had the best treatment in this country, all without perceptible benefit. His memory was gradually growing weaker. At the time I started on Postum and Grape-Nuts he started also and the change in him has been so wonderful that I can hardly describe it. Now he carries himself erect instead of in his former careless way, his eyes are clear and bright, and best of all his memory is growing stronger and stronger every day until I am fairly overcome with astonishment. He shows a declaration of character quite unusual and has lately expressed a strong desire to study. I dare not say what hope his improvement has raised."

"It is perfectly evident that bodies and brains can be rebuilt by skillful feeding and that I can hardly describe it. He shows a declaration of character quite unusual and has lately expressed a strong desire to study. I dare not say what hope his improvement has raised."

"It is perfectly evident that bodies and brains can be rebuilt by skillful feeding and that I can hardly describe it. Now he carries himself erect instead of in his former careless way, his eyes are clear and bright, and best of all his memory is growing stronger and stronger every day until I am fairly overcome with astonishment. He shows a declaration of character quite unusual and has lately expressed a strong desire to study. I dare not say what hope his improvement has raised."
