Possibly advance knowledge of additional trust company accessions from the Clearing-House privileges may have been a factor in the hesitaing tone of the market, although no announcement was made on the subject after the close of the market.

The bond market was dull but steady. Better Service to Vancouver.

VANCOUVER, Wash., April 20.-(Special.)-One of the officials of the Portland Railway Company has notified the crew of the ferryboat plying between this city and the Oregon shore, connecting with electric line, that on or about May action was arrived at this week by the officials of the company. It had been charged that the men on the boat were obliged to work overtime. The men, however, made no complaint. As it was nec essary to put on more men, it was thought best to add more cars. The new service is what the city has been asking for many years, and will give excellent satisfaction. The travel is increasing very fast on the line.
