OREGON WEEKLY CROP REPORT.

Weather in the Valley and Coast Counties Has Been Favorable for Growing Products-Fall Wheat Backward,

United States Department of Agriculture, Oregon section, climate and crop service, Portland, Or., May 5.-The weather during the Counties continues very favorable for the growing crops. In portions of Southern Oregon ore rain is needed for Spring wheat and for corn. In the eastern sections more rain is also needed, and the nights have been too cold

Fall wheat is backward, but otherwise thrifty and promising. Spring wheat is nearly all seeded, and with the advent of warm rains will make rapid progress. Corn and po-tato planting are well advanced. Hope are doing nicely, but some yards are very backgood progress has been made in planting late arieties. Stock is gaining fieth, and the flow of milk in the dairy districts is satisfactory.

Light frosts have occurred on several mornings in many portions of the state, and although fruit is generally in full bloom, corndents are unanimous in their belief report the prospects so far excellent for good crops of prunes, cherries, pears, apples, strawberries and all bush fruits. Early peaches suffered from frosts during the mid of April, but late peaches promise well. COAST DISTRICT.

Hain is generally needed on the Pa-cific Coast.

pecially in California.

Very little seeding of Spring wheat could be done over the northern portions of the Spring wheat region during the past week. The reports indicate that no serious damage has been done to early sown wheat over the southern portions. On the North Pacific Coast, the crop is now in need of rain. Nearly all fruits have suffered further damage from frosts and low temperatures, apples having apparently escaped with the least injury. pecially in California.

NEW YORK, May 5.-The day's developments bearing on the value of securities were rather favorable than otherwise, but this did not enable the professional traders in stocks, who were the buyers of yesterday, to realize theif profits without turning prices downwards once more.

There was a fair degree of activity in the market up to noon. In that time some 300,000 shares of stock were dealt in. During the latter part of the day, the trading fell into semistagnation. Part of the activity was undoubtedly due to manipulation to facilitate the taking of profits Delaware & Hudson continued, vesterally a advance to the aximal of doubtedly due to manipulation to facilitate the taking of profits Delaware & Histon continued yesterday's advance to the extent of 1½, and St. Paul, Northwestern, Canadian Pacific and Louisville & Nashville were lifted at one time I to I¼ over last night. These was a continued large trading in National Railroad of Mexico and in Beading, the last named rising at one time ¾ over last night. Fennsylvania was lifted as much. This stock sold ex-dividend of 3 per cent and there was an element among traders who bought it and Atchison yesterday on the supposition that the taking of the semiannual dividends from the price would make them look cheap and attract buying. But the buying thus attracted was not sufficient to offset the seiling to realize by yesterday's buyers. A recovery in the price of copper gave firmness to Amalgamated, flome of the obscure industrial stocks were pushed up sharply in an effort to sustain the market after the realizing sales began to have some effect, but this maneuver proved unavalling and there was practically nothing left of the day's rise at the close, which was heavy and showed small fractional net to

lies by yesterday's buyers. A recovery in the price of copper gave firmness to Amalgamated. Some of the obscure industrial stocks were pushed up sharply in an effort to sustain the market after the realizing sales began to have some effect, but this maneuver proved unavailing and there was practically nothing left of the day's rise at the close, which was heavy and showed small fractional net lesses generally.

The recent rise in sterling exchange came to a halt today, although the late market was firm and discounts in London were also easier. At the same time, there was a sharp advance in sterling exchange at Paris, which was sufficient to wipe out the profit on the co-called triangular gold export operation. It is not expected, therefore, that gold will go out to Europe this week, although a small shipment to South America is indicated. The strength of sterling at Paris is believed to be due to remittance to participate in the Transval loan.

MEDICAL EDUCATION.

merican Association Working Hard to Raise the Standard.

NEW ORLEANS, May 5.-With many distinguished physicians, surgeons and scientists present, the 5th annual meet-ing of the American Medical Association ing of the American Medical Association opened today at Tulane Theater. President Frank Billings called the meeting to order and later spoke briefly in acknowledgment of the several addresses of welcome. The main business of the association is trynsacted by the house of delegates, the first meeting of which was held to be the formal opening of the convention. President Billings presided and presented his annual report. He laid stress on the importance of elevating the standard of medical education in the United States.

A committee from all the states was named to consider the whole subject of the code of ethics as one of the most important matters coming before the association at this meeting.

the code of ethics as one of the most important matters coming before the association at this meeting.

Dr. Arthur D. Bevan submitted the report on education. It said our educational standards connected with the practice of medicine compared unfavorably with those imposed in Europe. The committee proposed a high school education and a four years' medical course of not less than seven months to the year. and a rour years meancal course of not less than seven months to the year. The report of the trustees showed for the year total receipts through the Medi-cal Journal of \$150,021. There is a total cash balance on hand of \$150. The as-

sociation owns a building upon which \$75,000 has been spent. In five years the membership of the association has al-most doubled. Mrs, Carlisle's Tender Care of Horse. Mrs. Carlisle's Tender Care of Horse.

NEW YORK, May a.—Mrs. John G. Carlisie, wife of the ex-Secretary of the Treasury, was driving on Fifth avenue yesterday afternoon, when one of the horses slipped, bursting a blood vessel, While waiting for a veterinary surgeon. Mrs. Carlisle sat on the pavement and put the animal's head in her lap. She patted and rubbed it, and taiked softly to the horse while a crowd gathered and watched the actions of the elderly woman seated in the middle of the street. The horse died as it was lifted into the ambulance.
