Governor of Pennsylvania Signs Strict Libel Law.

EXECUTIVE IS QUITE CAUSTIC

Assassination of Two Presidents and Other Crimes Are Charged to a Reckless Press—Cartoons Speak Louder Than Words.

HARRISBURG, Pa., May 12.—Governor Pennypacker today approved the Grady-Salus libel bill, and at the same time issued a long statement giving the reasons for his action. The bill, which was in the Governor's hands for more than a month, goes into effect immediately, and repeals all laws, or parts of laws, inconsistent with the new act.

The Governor says in his statement that the questions raised by the bill are of very grave importance, and affect large business interests; the freedom of speech and the press; the right of the citizen to be informed concerning current affairs and the conduct of government, as well as his right to protect his reputation and home from the injuries that rise from careless or negligent as well as malicious false reports.

Real News Not Under a Ban.

The Governor says there is nothing in the terms of the measure which prevents any newspaper from making such comment upon Legislative measures, or upon the official acts of state, municipal, county or public offices as are proper information for the public, or are in the line of legitimate public discussion. Continuing, he says:

"The bill, in its application, is not confined to officials, but affects, as well, the citizen or business man whose conduct constitutes no part of the right of the public to information. The corporation officer who has been falsely charged with crime; the manufacturer who has been falsely accused of being a drunken brawler; the woman whose domestic griefs have been unfeelingly paraded, or whose chastity is improperly suspected; the student who is falsely accused of murder; the clergyman who has been cruelly maligned; the quiet citizen whose peace of mind has been destroyed by the publication of evil gossip; the merchant whose credit has been affected by groundless rumors; the sufferers from reckless, but not necessary malicious publications, are given the right, not to prohibit publication, but to recover damages which they have sustained, provided they prove negligence or lack of care on the part of the publishing newspaper. All these are instances of what has in fact recently occurred.

Covert Assault on Courts.

"Within a few days, in a leading article on the first page of a daily journal, under large headlines, upon a rumor of unknown source as to the name of the suggested appointee to the position of prothonotary of the Supreme Court, when no appointment had been made, and no utterance, official or otherwise, had emanated from any member of that court, this tribunal was subjected to a covert assault under the words: 'Machine after the control of the Supreme Court.' 'Mayor of our chief city has been called a traitor,' a Senator of the United States has been denounced as a 'yokel with sodden brain,' and within the last quarter of a century two Presidents of the United States have been murdered, and in each case the cause was easily traceable to inflammatory and careless newspaper utterances.

Cartoon Defining the Question.

"A cartoon in a daily journal of May 2 defines the question with entire precision. An ugly little dwarf, representing the Governor of the commonwealth, stands on a crude stool. The stool is subordinate to and placed alongside a huge printing press with wheels as large as those of an ox team, and all are so arranged as to give the idea that when the press starts the stool and its occupant will be thrown to the ground. Put into words, the cartoon asserts to the world that the press is above the law, and greater in strength than the Government. No self-respecting people will permit such an attitude to be maintained long. In England, a century ago, the offender would have been drawn and quartered, and his head stuck upon the pole without the gates. In America today this is the kind of arrogance which goeth before a fall.

"If such abuse of privileges allowed to the press is to go unpunished; if such tales are permitted to be poured into the ears of men with the idea of profit, it is idle to contend that reputable newspapers can maintain their purity."

Reckless Press Causes Crime.

The Governor also says that many years' experience on the bench has led him to the conclusion that crimes are widely propagated, not by the malice, but by the recklessness of the press, and in certain classes of cases, among them murder, the accused were at times convicted or acquitted before they reached the courtroom. He holds that the damages provided for by the bill follow the ordinary rule of damages for want of reasonable care, and that no harm can come from the provision in the bill requesting that the names of the owners, proprietor, publisher and managing editor should be printed with each issue of a newspaper published in Pennsylvania.

He argues that the omission of the word "weekly" from the provisions of the bill was unwise, but in no sense fatal, and if hereafter a newspaper should be issued every other day, or twice a day, and thus not be included in the descriptive words used, it would, as well as the journals published weekly, be covered by the general enacting words, and be subject to the provisions of the act. The Governor continues:

"Since the laws of God and nature are immutable and inexorable, unless means are found to uproot some of the tendencies of modern journalism, the influence of the press, which has been so potent an agent in the development of civilization and securing liberty, will be gone forever. With a serious sense that the evil is of more than ordinary moment, with full knowledge of the importance of the press, and with the hope and belief that the greater care and larger measures of responsibility brought about by this law, tending to elevate the meritorious and repress the unworthy, will promote its welfare while benefiting the community, I approve the bill."

MAFIA MAN RUN DOWN.

Police Know Who Put Infernal Machine on Steamer.

NEW YORK, May 12.—Much of the mystery surrounding the placing of an infernal machine on the pier of the Cunard Company was cleared up today, and an arrest may be made at any moment. The police have learned that the box was taken to the pier from a boarding-house in West Thirty-first street, known as the Currie House, and patronized principally by theatrical folk. The police also know the name of the man who sent the box from the house, and have a good description of him. Who this man is, Inspector McCluskey declines to say. The American tomorrow will say:

"The man who made the infernal machine and sent it to the Cunard dock last Saturday lived in this city as a boarder in Mrs. Joseph Currie's house at 366 West Thirty-first street for two weeks. He gave his name as 'G. Rosseau.'

"To all appearances, the man was not a foreigner. He spoke perfect English, without any more trace of an accent than marks the Westerner or Canadian, and his fellow-boarders believed that he had come from the West, possibly from Western Canada."

Ames' Official an Embezzler.

MINNEAPOLIS, May 12.—William H. Johnson, Superintendent of the Poor during the Ames administration, was found guilty by a jury today of the misappropriation of $150 of the city funds. Sentence will be passed tomorrow and the case will then be appealed. The maximum sentence is five years in the Penitentiary.

Johnson had received his appointment from Mayor Ames and later went on the bond of the ex-Mayor.

Hay Asked to Bring Boodler Home.

ST. LOUIS, May 12.—Governor Dockery today, at the request of Circuit Attorney Folk, officially requested Secretary of State Hay to use his good offices with the government of France to have Ellis Wainwright, the St. Louis millionaire brewer, arrested and returned to St. Louis to stand trial on the charge of bribery.

PRAYING FOR RAIN.

Pennsylvania Lumbermen Worn Out Fighting Forest Fires.

JOHNSTOWN, Pa., May 12.—Without stopping work for 40 hours, exhausted and choked with smoke, the lumbermen and mountaineers of Cambria, Somerset and Westmoreland Counties are praying for rain to quench the forest fires that have been raging for a week. By almost superhuman efforts of the inhabitants and with the aid of fire companies from Altoona and Johnstown, the villages and mills at Dunlo, Vintondale and Twin Rocks have been saved. On the Laurel Hill, in Westmoreland County, several houses have been burned and loss of life was narrowly averted. Guards surround the Conemaugh powder plant, at Seward, to prevent the flames reaching that establishment.

Many Acres of Timber Burned.

HAGERSTOWN, Md., May 12.—South Mountain, from Foxville to Buena Vista, is being swept by the fiercest forest fires known in years. Hundreds of acres of fine timber have been destroyed and many inhabitants driven to the towns in the valley.

Firemen Have to Protect Suburbs.

CRESSON, Pa., May 12.—Word was received from Tyrone this afternoon saying that fierce fires are raging in the mountains of that place, and that Tyrone firemen have been called out to protect the suburbs, which are threatened.

Two Towns Are Threatened.

LA TROBE, Pa., May 12.—The most destructive forest fire in years is sweeping the ridge and threatening the destruction of Waterford and Laughlinstown. A large force is fighting the fire.

MAY DROP PANAMA CANAL

UNITED STATES WILL BROOK NO LONG DELAY.

Negotiations Will Be Reopened to Secure Control of Nicaraguan Route—Hay Already at Work.

WASHINGTON, May 12.—Dr. Thomas H. Herran, Colombian Charge d'Affaires here, said today he had not been advised by his government that President Marroquin had resigned, as reported in dispatches from Panama.

If it shall appear shortly that the Colombian Government is disposed to defer final action beyond the "reasonable time" mentioned in the Spooner act, the State Department will at once endeavor to reopen negotiations with Nicaragua and Costa Rica, with a view to secure control of the alternate route for a canal through those countries. In fact, Secretary Hay has already within the week talked with the Nicaraguan and Costa Rican Ministers. So much ill-feeling was excited in Nicaragua and Costa Rica by the dropping of the Nicaragua route, after the protocols had been drawn looking to its acquisition, that the resident Ministers of the two countries here are very loath to take up the subject again without an express agreement that they are not to be used to club the Colombian Government into terms.

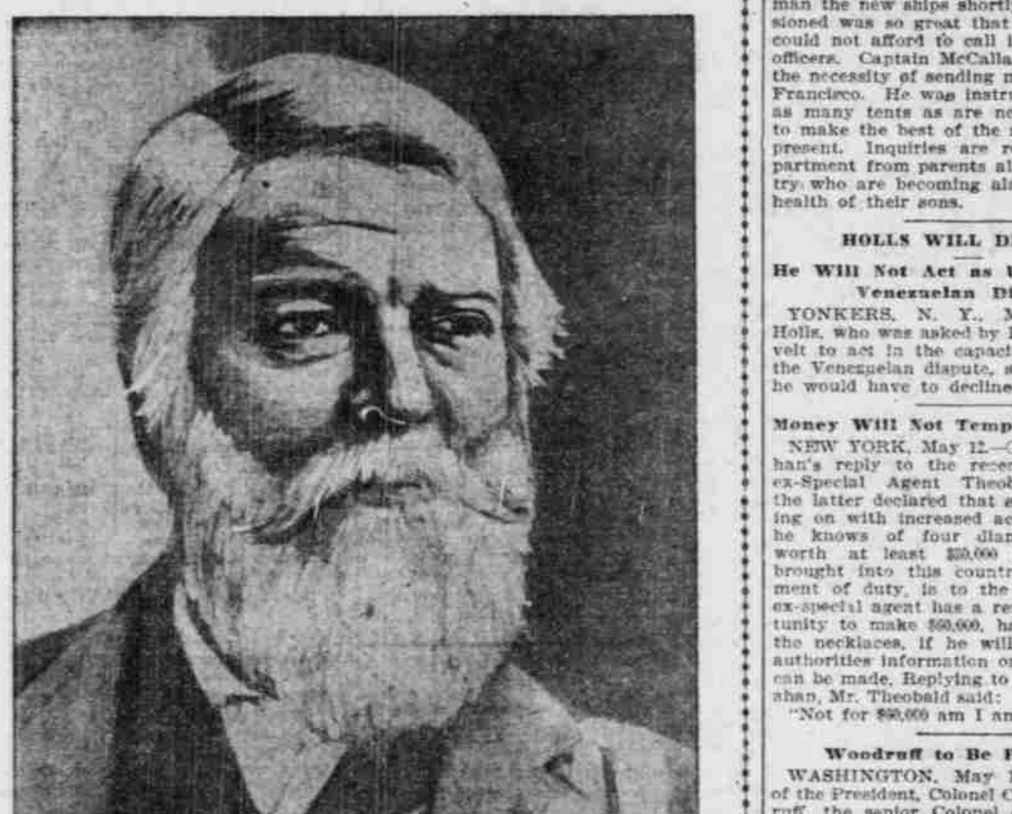
The officials here, however, feel very confident that it will not be necessary to resort again to the Nicaraguan route, for they believe that the present difficulties in the Panama negotiations are solely attributable to efforts on the part of the Colombians to make the most of the opportunity to induce the Panama Canal Company to divide with it some part of the $20,000,000 to be received by the company from the United States.

Newspapers just received from Bogota contain articles adverse to the Panama Canal treaty, and private letters from Bogota of recent date, referring to the growing opposition there to the treaty, affirm that even a certain number of the government officers are wavering in their adherence to the treaty and prophesy its rejection by the Colombian Congress in its present form.

There is some dispute as to the title of General Reyes to the position of "designado," the one designated by Congress to succeed to the Presidency in the event of the death or incapacity of the President.

It is said here that General Reyes holds to the title of "designado" under the law, although the last Congress failed to redesignate him. The attitude which General Reyes will assume toward the pending canal treaty is a matter of anxious speculation by the officials here. He has been recorded on both sides of the question, and no one knows how he now stands. It is held here that the call issued by President Marroquin for the special session of Congress June 20 will hold good regardless of any change in the administration.

WELL-KNOWN POET SUCCUMBS TO RHEUMATISM OF THE HEART.



RICHARD HENRY STODDARD.

NEW YORK, May 12.—Richard Henry Stoddard, the poet, died in this city of rheumatism of the heart today. Mrs. Stoddard died less than a year ago, and his son, Lorimer, is also dead. The funeral will be held Thursday, at 4 P. M., in the Church of the Messiah, Rev. Robert Collyer and Rev. Minot J. Savage officiating. The interment will be at Sag Harbor.

(Richard Henry Stoddard was born in Hingham, Mass., July 2, 1825. In his youth, he worked as an ironmolder, and while at this work began to contribute to papers. He was in the customs service, 1853-1870. From 1870 to 1873, he was confidential clerk to General McClellan. In 1874, he was elected City Librarian of New York, and served one year. He was literary reviewer of the New York World, 1860-70, and of the New York Mail and Express since that time. He was the author of a large number of popular poetical and historical works.)

WILL DRAW PENSIONS.

A Practical Plan for Pensioning Employes.

NEW YORK, May 7.—The Gorham Manufacturing Company, the prominent silversmiths of New York and Providence, R. I., has recently put into operation a practical plan for pensioning their 2500 employes in factory and stores which has been most favorably commented upon by leading sociologists.

This plan provides that any employe whose record is satisfactory to the company may be placed upon a permanent pension roll, provided he has served the company for at least 25 years, and receive thereafter as long as he lives, a pension equal to 1 per cent of his wage at the time of retirement for each year of service. Thus a man who has been with the Gorham Company 40 years will receive an annual pension payable in monthly installments of 40 per cent of the amount he was being paid at the time he retired.

Ample provision has been made by the company to create a permanent pension fund without taxing the employes for the purpose. This is one of the most generous, and at the same time practical, plans yet devised for profit sharing on an acceptable basis.

Aliens Must Pay Tax.

EL PASO, Tex., May 12.—By a ruling of the Commissioner-General of Immigration, received here, all aliens and immigrants coming into the United States must pay the $2 head tax, regardless of the means of transportation. This will apply to those who travel on the street-cars between Juarez, Mexico, and El Paso, Tex., and affects numbers who daily transact business between the two places. Among them is the German Consul at Juarez, who necessarily makes two or three trips a day.

HALT IN RURAL DELIVERY.

No More Routes Will Be Established Until July 1.

WASHINGTON, May 12.—Postmaster-General Payne today announced that there would be no more establishments of rural free delivery service until July 1, the beginning of the next fiscal year. This is one result of the investigation of postoffice affairs, and the discovery that at the present rate of increase of routes there will be a deficit of $20,000 in the rural free delivery service by the end of this fiscal year. Instructions have been given to Fourth Assistant Postmaster-General Bristow to curtail expenditures. It is not intended, however, that the investigation of proposed routes shall be suspended, and the field work therefor will continue. Mr. Payne estimates that the total number of routes fairly entitled to be established in the entire country would be 28,000, and at the present rate of increase this would be reached two years hence.

Mr. Payne said tonight he had asked the Civil Service Commission to have its representatives make an investigation of the Washington Postoffice, in addition to the investigation already made by Postoffice Inspectors. He said this action was taken on account of charges of violations of the civil service law in that office. The civil service men, he said, will make their report tomorrow.

TULLACH WILL BACK UP CHARGES.

Ex-Postal Official Honors Payne's Second Request for Facts.

WASHINGTON, May 12.—Postmaster-General Payne today made public a letter making a second request upon S. W. Tulloch, ex-cashier of the Washington City Postoffice, who alleged irregularities in the service, for information in substantiation of his charges.

The letter is addressed to Mr. Bristow, Fourth Assistant Postmaster-General, and says:

"Some time since there appeared an interview with Mr. S. W. Tulloch, formerly cashier of the Washington City Postoffice, which reflected upon the official conduct of certain high persons in the Government service and others holding office.

"On the 5th instant I wrote Mr. Tulloch stating that I should be pleased to receive from him any statement confirmatory of the charges. This he has failed to furnish. I therefore request that you will call upon Mr. Tulloch and ask him to give you any statement which he is willing to make in writing, accompanied by any papers, documents or evidence confirmatory of the charges he has made to the end that they may be inquired into, and if it is found that any irregularities exist that they may be corrected."

The Postmaster-General says Mr. Tulloch has promised to submit a statement on Friday.

MUST KEEP NAVAL RECRUITS.

Department Orders Tents to Relieve Crowded Barracks.

WASHINGTON, May 12.—To lack of sufficient shore barracks at the naval stations on the Atlantic and Pacific Coasts the Navy Department attributes much of the sickness that now exists at the stations. Captain McCalla, at San Francisco, sent an urgent telegram to the department today asking that no men be assigned there. The dispatch was brought to the attention of Admiral Taylor, Chief of the Bureau of Navigation, and acting Secretary Darling, and after a conference it was decided that the need for men to man the new ships shortly to be commissioned was so great that the department could not afford to call in the recruiting officers. Captain McCalla was advised of the necessity of sending more men to San Francisco. He was instructed to ask for as many tents as are needed there, and to make the best of the situation for the present. Inquiries are reaching the department from parents all over the country who are becoming alarmed about the health of their sons.

HOLLS WILL DECLINE.

He Will Not Act as Umpire in the Venezuelan Dispute.

YONKERS, N. Y., May 12.—F. W. Holls, who was asked by President Roosevelt to act in the capacity of umpire in the Venezuelan dispute, said tonight that he would have to decline the honor.

Money Will Not Tempt Her to Tell.

NEW YORK, May 12.—Collector Stranahan's reply to the recent statments of ex-Special Agent Theobald, in which the latter declared that smuggling is going on with increased activity, and that he knows of four diamond necklaces, worth at least $30,000 apiece, recently brought into this country without payment of duty, is to the effect that the ex-special agent has a remarkable opportunity to make $60,000, half the value of the necklaces, if he will lay before the authorities information on which seizures can be made. Replying to Collector Stranahan, Mr. Theobald said:

"Not for $60,000 am I am informer."

Woodruff to Be Promoted.

WASHINGTON, May 12.—By direction of the President, Colonel Charles A. Woodruff, the senior Colonel of the Commissary Department, is to be appointed a Brigadier-General and retired in July, when vacancies will occur as the result of the retirement of Major-General Davis. The retirement of Colonel Woodruff will promote Lieutenant-Colonel William L. Alexander to be Colonel, and Major James N. Allison to be Lieutenant-Colonel in the Commissary Department.

Warships Unloading Ammunition.

NEW YORK, May 12.—A telegram has been received at the Navy-Yard from Washington ordering the different war vessels in commission now stationed at the yard, to unload at once all the ammunition remaining in the magazines. The dispatch stated that the details would be sent on by letter. The officers on board the different ships immediately set about carrying the order into execution.

Many Tons of Money Counted.

NEW YORK, May 12.—Clerks from the Treasury Department, Washington, have completed the counting of the many tons of money in the vaults of the United States subtreasury in Wall street. The cash was found to be correct. The amount for which Hamilton Fish, the new assistant Treasurer, becomes responsible, is $286,471,256, of which $200,774,007 is in gold.

Quarantine Against San Francisco.

WASHINGTON, May 12.—Information reached the State Department today from Vice-Consul General Jones at Guayaquil, Ecuador, that quarantine has been re-established against San Francisco.

YALE COURSE ELECTION.

New Rule Allows Freshmen to Drop Three Branches.

NEW HAVEN, Conn., May 12.—The Yale Corporation has made the entire four years of the college course elective by allowing freshmen in the future to pick five courses annually out of a set of eight, dropping any three of the eight they wish. The vote makes it possible for the freshman to drop Greek, Latin and mathematics if he wishes.

Greek as a required subject for entrance examination was abolished, the change taking effect in June, 1904. Advanced mathematics and modern languages will be accepted as a substitute for Greek hereafter. The change will make a large difference in the preparatory schools of the country.

Yale professors will be retired at the age of 68 years, except when specially requested by the corporation to continue in active service, according to a vote passed by the corporation. This rule will take effect three years from date, and will apply to all officers of the university who hold permanent appointments. Several years ago the corporation voted to allow professors to retire voluntarily at 65 years old.

Gifford Pinchot, National forester, was appointed professor in the Yale forestry school. Professor William H. Brewer, head of the Yale department of agriculture, resigned, and was elected professor emeritus.

MISS EVANS WEDS.

Daughter of Famous Admiral Is Married in Tokio.

TOKIO, April 30, via Victoria, B. C., May 12.—The wedding of Miss Virginia S. Evans and H. T. Sewall took place in the Trinity Cathedral, Tsukiji, Tokio, last Wednesday. The ceremony was rendered additionally impressive by the large attendance of distinguished personages. Baron Komur, Sir Claude Macdonald, N. Wilson, United States Charge d'Affaires, Baron Sannomiya, Lieutenant-Commander Marsch, United States Naval Attache, and wife were among those present. Mrs. Sewall is the daughter of Admiral Evans.

BIG CATTLE QUARANTINE

Colorado Will Move Against Six or Eight States.

DENVER, Colo., May 12.—What will be the most extensive quarantine of cattle in the West for many years will be in effect within a few days, as the result of the general prevalence of the mange. Governor Peabody will issue a proclamation. Other states and territories to the number of six or eight will come under the same rule before the end of the week. Cattle from the Mexican border to Canada will come under those regulations. Officials of all states and territories included within these bounds are acting together in the movement to stamp out the disease and protect the herds. Practically all of the territory from the Rocky Mountains to the Missouri River will be included in this quarantine.

Washington Has Unofficial Word.

WASHINGTON, May 12.—The Department of Agriculture has received unofficial advices indicating that the States of Colorado, Kansas and Wyoming are contemplating quarantine measures to protect their livestock from mange.

It is said at the department that the mange, or scabies, which a contagious disease, caused by a parasitic mite, prevails to a considerable extent in the range country between the Missouri and the Rockies, and that it is steadily increasing.

CLEVELAND WILL NOT TALK

He Is in Ohio to Fish and Refuses to Discuss Politics.

MIDDLE BASS ISLAND, O., May 12.—Ex-President Grover Cleveland and Captain Lamberton, U. S. N., who recently arrived here to fish, have been joined by several other distinguished visitors. Among those now in the party are ex-Governor Charles Foster and John U. Lloyd, of Cincinnati; J. G. Mitchell, of Toledo; Judson Harmon, ex-Attorney-General, of Cincinnati; Le Roy Brooke, of Cincinnati, and C. C. Dwight, of Chicago. Mr. Cleveland steadfastly refuses to discuss his possible candidacy for the Democratic nomination for President next year, and politely informed newspaper men that he is here to fish and not to talk politics.

Republicans Will Let Negroes In.

BIRMINGHAM, Ala., May 12.—The state Republican executive committee today adopted resolutions that will let negroes come into the next state convention, provided they can vote under the Alabama constitution. The action of the last convention in eliminating them has thus been overthrown.

LAST FOR THREE DAYS.

Joy of a New Jersey Man Nearly Proves Fatal.

GLASSBORO, N. J., May 12.—For three days Lewis Krechmer, of Monroeville, laughed. The doctors who attended him said it was hardly possible for him to recover, but he was finally stopped laughing and will get well. He was seized with laughing hysterics in the midst of the excitement of the burning of his home Friday night. Relatives and friends did all they could to stop him, but did not succeed. The sufferer kept on laughing at intervals of a few minutes until he was weak and practically helpless. Many physicians were called, but their efforts were vain for a long time. Finally, however, the paroxysms became less violent and finally ceased.

Extensive National Fraud.

PORT-AU-PRINCE, Hayti, May 12.—The Monateur Officiale today publishes the report of a committee of inquiry appointed by President Nord, charging extensive frauds in the issuing of Haytian government securities. The amount involved is about $2,000,000, and the securities are alleged to have been fraudulently issued with the complicity of the National Bank of Hayti, a French institution.

Remarkable Increase in Births.

NEW YORK, May 12.—Statistics compiled by the Board of Health shows that the population of the City of New York is increasing at a remarkable rate. The births reported in Manhattan alone during the first four months of the present year were 2000 in excess of those reported in the same period last year. At the same time there has been a falling off in the percentage of deaths.

The city has also gained enormously by foreign immigration. The Board of Health estimates that the population of the city has grown from 3,437,202 at the last Federal Census in 1900, to 3,732,390 at present.

Alaskan Boundary Commissioner.

TORONTO, Ont., May 12.—Justice Armourr, one of Canada's Alaskan boundary Commissioners, is ill, and may not be able to act on the commission. He had intended leaving for England on May 22.
