HILL AND MEN MAKE TERMS GREAT NORTHERN AVERTS STRIKE AND INCREASES WAGES. Employers Make Slight Concessions on Double-Header Proposition, the Cause of the Dispute. ST. PAUL, May 14.—All danger of a strike on the Great Northern Railway system has passed and an amicable agreement between the company and its trainmen has been reached, the schedules being signed shortly after 5 o'clock this afternoon. Both sides made concessions, although on the face of the terms of compromise, as stated by A. E. Garretson, the assistant grand conductor of the Order of Railway Conductors, who with Mr. Newman, of the Brotherhood of Railway Trainmen, has conducted the negotiations, the men have somewhat the better of it. They are granted an increase of wages which averages 15 per cent; the increase to date from March 1 last; the yardmen get the Chicago scale, which is 3 cents an hour higher than the St. Paul scale; new men are given increased wages after one year's service, instead of five, as proposed by the company, and upon the double-header question, which was the cause of the deadlock in the negotiations, the men modified their demands to a slight degree. East of Minot, according to the agreement, the road may run 1/4 of 1 per cent of the gross mileage as double-header. On the mountain division west of Minot 2 1/2 per cent of the gross mileage is allowed to be double-header. But in computing the percentage of double-headers, helper engines must be included. Mr. Ward, the general manager of the road, in his offer to the men, in reply to their demands for a complete abolition of the system of double-heading, proposed to confine it to 3 per cent of the gross mileage, which is about the present percentage upon this road. He, however, reserved the right to double-head on any part of the

system. This offer the men rejected and a complete deadlock in the negotiations ensued and a strike seemed inevitable. The business men of the twin cities, however, undertook to bring the parties together again, and succeeded so well that, as forehanded in last night's dispatches, an agreement was practically arranged at once, and today's conference had only to do with considering the details. Mr. Ward retired from his offer of 3 per cent double-headers and agreed to redistribute the road and confine the bulk of the two-engine trains to the mountain divisions. With this understanding the men receded from the demands for a complete abolition of the system, and the details of their wage schedule and other matters at issue were then settled in a manner satisfactory to each side. Mr. Garretson, on behalf of the men, expressed himself as extremely well pleased with the result of the negotiations. General Manager Ward refused to make public any statement further than to say everything had been settled in a manner satisfactory to the company. President James J. Hill, who has been making a tour of the Mesaba Range, arrived home shortly after the signing of the agreement with the men, and said he was very glad an arrangement had been reached and a strike averted. OTHER RAILROAD MEN WIN. Chicago & Northwestern Grants an Increase in Wages. ST. PAUL, May 14.—It was reported today unofficially that the Chicago & Northwestern system had settled with its trainmen granting the same terms that have been conceded by most of the transcontinental lines. The freight men receive an increase of 15 per cent and the passenger men an increase of 12 per cent. Double-headers are to be abolished except on the Dakotas Central division, on which single engines are unequal to the demand and double-headers are necessary. It was also reported that the Milwaukee trainmen had reached a similar agreement with the management of their road, and that the papers are to be signed tomorrow. The Great Western's telegraph operators and agents came to an understand-

Harriman Joined by Conference. OMAHA, May 14.—E. H. Harriman, president of the Southern Pacific Company, passed through Omaha at midnight on his way to Chicago, where he goes to take part in the conference with the representatives of the boiler-makers of the Southern Pacific. At this city he was joined by President Burt, of the Union Pacific; E. F. Kennedy, district president of the Boiler-makers' Union, and John O'Neill, grand president of the order. Will Strike if Hours Are Not Cut. PITTSBURG, May 14.—The engineers and brakemen employed on the shifting engines at the Jones & Laughlin plant have made a demand for shorter hours, and threaten to strike tomorrow unless it is granted. The men work ten hours daily for \$2.65. They want eight hours during the Summer for the same pay. Both Sides Allege Progress. MOBILE, Ala., May 14.—Mobile & Ohio Railroad officials allege that the strike situation is improving and that through freight trains are running between Mobile and St. Louis. The strikers say that the men are holding out steadfastly. Funeral of Miss Ramsay. PITTSBURG, May 14.—The funeral services over the body of Miss Anna L. Ramsay, daughter of President Joseph Ramsay, Jr., of the Wabash Railway, who died in Egypt early in April, of typhoid fever, were held at the home of J. W. Patterson, in this city, this afternoon. The Rev. Dr. Rhodes, pastor of St. Mark's Lutheran Church, St. Louis, conducted the services. The pallbearers were all uncles of the dead girl. Many friends of the dead girl from St. Louis, Cincinnati and Chicago attended the funeral. The interment was in Homewood Cemetery.
