THE MORNING OREGONIAN, WEDNESDAY, MAY 20, 1903.

Plowing land for Summer failow is nearly plated, and corn land is mostly all planted. Corn is coming up slowly, owing to the cool reather. Reports from the hopgrowing districts are that the crop is guite uneven, and number of missing hills is much greater and peaches. than usual. The new yards are doing better than the old ones. Gardens and potatoes are promising. Sugar beet planting is well adced and the plants are coming up to good stands.

Reports on fruit are somewhat conflicting. Oregon berries asr fairly plentiful, but many of with the prospects generally favorable for good the arrivals show the effect of rain. crops of berries, chetrics, pears and plums. Peaches will be light, and it is too early to estimate closely regarding apples. COAST DISTRICT.

CAST DISTRICT. Charsop, Claisop County, D. F. Stafford-making and abovers this week; a little cold to the season; all crops thrifty; passure previ-ty good; flow of milk greater than usual. Thewater, Lincoln County, James Monroe-Neather warm, with occasional showers; graw and all vegetation made a more rapid growth that y revious week; a small amount of blanting yet to be done; fruit prospects good. Minerva, Lane County, L. C. Ackerley-beet for fruit very good. Templeton, Coos County, Andrew Olson-Weather excellent for all kinds of crops; stock togs weil; flow of milk increasing. Eckley, Curry County, Joseph Haines-Washing all done, wheat, eats and garbing works; stock doing weil; feed good on

for fruit; stock doing well; feed good on

ranges. WILLAMETTE VALLEY.

Mist, Columbia County, J. W. Jones-Week showery: all crops looking well: grass and grain growing finely: stock of all kinds look-ing well; prospects good for fruit. Greetam, Multnomah County, Mrs. J. Moll-The rains have helped all vegetation;

addi--ine rame nave neiped an vegenation; grain and grass are growing rapidly; pastures excellent; sarly potatoes doing nicely; nearly all crops are planted. Sherwood, Washington County, R. F. Web-ster-All farm crops looking well; hops at top of poles and growers busy training them;

s great deal of complaint made of missing Hubbard (Elictt Prnirie district), Clackamas

 Hubbard (Elliost Prairie district), Clacksman Gommy, George Pope-All grain crops have made satisfactory progress owing to favor able weather; corr planting about completed found also about finished blooming; pastures good, the situation in hop yards is not in-proved; considerable shortage of vines in many parks, which, it is thought, cainnot be overcome even with favorable weather condi-tors.
 Talle City, Polk County, B. B. Harrington-programphes in bloom, pastures are good tock in good condition; strawberries and all run growing nicely.
 Talis a surved for stock; grain in this bi-cality is almost all seeded, with prospective for good seasch; sheep shearing is in pros-ting the system making the growing indigendicies excellent, except petite prunts and inclus; favor contry, J. M. Goldsom-First or prospective excellent, except petite prunts and farts \$1.00.
 Thier, Marion County, S. M. Goldsom-First or goods neason; sheep shearing is in pros-tion farts to almost all seeded, with prospective ress.
 Todeon, Lane County, J. M. Goldsom-First of prospective excellent, except petite prunts and nicely; pastures are good and stock for the prospective excellent, except petite prunts and nicely; pastures are good and stock for the strained for stock is full be resumed as the faint grownes, these phearing the merupation of the stock is full be resumed and stock in good condition; strawberries and all for the prospective excellent, except petite prunts and faint states of the stock four shore the stock is full be the faint states to bloom, faint which for the stock is full be resumed to the stock four shore the stock is full be resumed to the stock four shore the stock is full be resumed to the stock four shore the stock is full be resumed to the stock four shore the stock is full be resumed to the stock four shore the stock is full be resumed to the faint coale.
 The prospective excelent of the stock is full be resumed to the faint coale.
 Hubberd (Ellott Prairie district), Clacasmas County, George Pope-All grain crops have made satisfactory progress owing to favor-able weather; corn planting about completed; fruit also shout finished blooming; pastures good; the situation in hop yards is not im-

Atiantic States and over a large part of the Lake region and Ohio Valley has intestilled drouth in these districts. In consequence of bhick crops have made slow progress. The East Oulf States and portions of the Lower Misseurit and Mississippi Valleys have suffered from excessive rains. On the Facilite Coast the week was rather cool, with no rain over the showers over a large part of Oregon, but more in is needed in the last-named state. Ore planting has been further delayed by Atlantic States and portions of the Lake region in the states of the Lower Misseurit Yak Atlantic States and portions of the Lake region intend in the states of the Lower Misseurit Yak atlantic States and portions of the Lake region. Winter wheat has made favorable progress in

Winter wheat has made favorable progress in Nebraska and Minnesota, but in Southern Mis-souri and in the states northward of the Ohlo River and in the Middle Atlantic States, the crop has suffered further deterioration. In the Spring wheat region the weather conditions have been highly favorable for germination and growth of Spring wheat, which is coming up to good stands with vigorous plants. In the Northern Bocky Mountain States, the growth of Spring wheat has been slow; in Washington and Oregon the outlook is very promising.

of Spring wheat has been slow; in Washington and Oregon the outlook is very promising. In the Missouri Valley, Oklahoma and Texas a general improvement in the condition of oats is indicated, but in the Ohio Valley. Middie Atlantic States and the greater just of the Lake regions, the condition of the crop is less favorable, owing to the effects of drouth. There is general complaint inroughout the cot-ton helt of the unfavorable effects of low tem-perature on cotton. Good stands, as a rule, are reported in the central district, but in the eastern and western portions the stands are are reported in the central matrix, but in the eastern and western portions the stands are irregular, and much replanting is necessary. Further improvement in the outlook for applea is indicated, but the prospects for most of other tree fruits are very poor.

SALEM BERRY OUTPUT.

Contract Signed for Its Disposal-

Local Market Overloaded. The Salem Fruitgrowers' Union, composed of

frultgrowers in the territory around Salem, has rigned a contract with a Portland distributing firm to handle its fruit output this season. Of strawberries, the union will turn over about

25,000 crates, a part of which will be cannery

FORTLAND MARKETS.

Grain, Flour, Feed, Etc.

With no foreign inquity for our wheat, and consequently an inactive local market, the fuctuations that are taking place in Eastern grain centers are practically without effect here. The undertone of value is firm, but in the nature of things, quotations are almost purely nominal.

purely nominal. WhitLAT-walls Walls, Tic; bluestern, T4c; Valley, T4c. HARLEY-Feed, \$20 per ton; brewing, \$21; rolled, #22622.00. OATS-No. 1 white, \$1.30; gray, \$1.65 per central

CROP DAMAGE IN SOUTHWEST.

Leads to Plentiful Buying Orders in Chicago Whant Pit. CHICAGO, May 19.-Trading in wheat was dull the early part of the day, but later in the session more activity was manifested, buy-ing orders being plentiful on reports of dam-age in the Southwest. Opening prices were canker on lower cables and on reports of con-tinued raiss in Manitoba, July being off 46% is at 75%678c. The extreme duliness of trade early in the day and lower outside markets had a depressing influence, and prices declined still further, July selling off to 72%675%c. The Hilliobs and Influence contracts to be contested helped decide the bears to cover. The long continued de-conditions on the further specu-lative outfook. The professionals, therefore, generally turned to the buying side, covering their short contracts, sping long in the mar-

stock. Later, the distributors will handle blackberries, raspberries, apples, pears, plums and peaches.

and peaches. The local strawberry market is still over-loaded, a portion of each day's receipts being good condition are selling at \$161.25 per crate. but poor stock is offering at almost any figure. In September pork 20c higher; lard was up 10c, and rise up 224g03c. The leading futures ranged as follows: WHEAT.

TURN OF THE TIDE IN SPECULATION AT NEW YORK. Downward Course of Prices Belleved to Be Arrested-The Professional

Traders Go to the Buying Side.

NEW YORK, May 19 .- Today's recovery in the stock market was in accordance with the expectation of the majority of professional traders. This expectation conduced materially to the recovery by restraining the professional bear element from further attacks on prices. Yesterday's rather violent declines and the increase in the volume of trading over the recent average of the market gave the im-

pression of a culmination of the decline. There was some further decided liquidation in the market this morning, but the professional bear element availed itself of this op-

still further, July selling off to 72% STENC. The limits and Indiana crop reports were some-what builish, and imparted a better tone to values, but trading continued slow during the last half hour, when reparts from the South-west canke in and a good demand developed from pit traders and commission houses. The offerings, however, were limited, and is con-sequence prices advanced rapidly. July selling up to 74% 74%. The close was near the top, July being up 16%, at 74%. There was a light trade in corn, with prices steady, the small country acceptances being the main feature. July closed % % to higher, at 44% 644%c. out.

out. On the labor subject there were reports of disputes in the works of the General Electric Company, Republic Sites!, People's Gas and Allis-Chambers Works. But the rumors preval-ent of a settlement of the Union Pacific labor dispute had a prevailing effect on the mar-ket over the other reports. The rumors, with ket over the other reports. The rumors, with the report of the decided improvement in the condition of E. H. Harriman's health, were made much of in the buying movement. Bo was the weekly crop builtenin of the Weather Bureau, without much attention to the wary-ing showing in the territories of the differ-ont railway aysiens. The generally encour-aging reports as to the Winter wheat crop in the Wortern States were diven more attention aging reports as to the Winter wheat crop in the Western States were given more attention than the continued delay in the planting of the corn crop and the rather unfavorable view expressed of the cotton prospect. The sudden relapse in Louisville & Nashville at the last, which more than wiped out its rain, may have had to do with the cotton showing. An-other rumor which got allost on the tide of the day's advance was an alleged purpose on the part of the Scretary of the Treasury to an-ticipate the redemption of the 5 per cent bonds which mature next year. No color of authority was obtainable for this rumor.

uthority was obtainable for this rumor. authority was obtainable for this rumor. Sterling exchange ruled strong and supply bills was very scarce, leading to the expec-tation that further gold would go abroad with the first available shipping facilities. Sterling at Faris rose a fraction, but did not more than keep pace with the rise here. Money here

than keep pace with the rise here. Money here continued easy and there were reports of seven months' loans at 4% which rate has not ap-piled hitherto this season for longer periods than six months. United States Steel new 5s were actively traded in and fluctuated over a range of a point, closing with a net gain of 5. Otherwise the bond market was irregular. Total sales, par value, \$3,525,000. United States bonds were all unchanged on the last call.

were all unchanged on the last call. Closing Stock Quotations.

Record Is Again Broken in the **Bull Movement.**

NEW YORK COTTON MARKET.

NEW YORK, May 19.-The cotton market opened at an advance of 4 to 9 points. May closed at 11.64c: July, 11.24c; August, 10.85c, and September at 8.78c. November scored the biggest advance, closing at 8.22c, against 8.95c last night. Total sales futures estimated at 800,000 bales.

800,000 bales. The enormous gains of yesterday effected no decrease in builtsh excitement and enthusiasm, and the opening of the market today was one of the most notable of an eventful season. The irregularity of Liverpool after our pronounced advance, the prospects for receipts again more than double last year, and the expectations of a bearink weakly bureau report, as opposed to a bearish weekly bureau report, as opposed to the bullish utisrances credited to the New Orleans Leader, all added to the rush and cou-Orleans Leader, all added to the rush and cou-fusion. Stret prices here were 6409 points high-er, and immediately following the call buil sa-gressivences and further covering by shorts sent prices to another new high level for the season, July selling at 11.36c. August at 11.02c and September at 9.73c. After opening 5610 points higher, Liverpool reported unsettled don-ditions, and reached a level 11%913% points higher of the near month. higher on the near month. Later there was a break of about 5 points,

Later there was a break of about 5 points, which brought prices back to just a little over local expectations. The strength in spot cot-ton at Liverpool was again a remarkable fea-ture, quotations being advanced 18 points there, but the trading showed a marked decrease. At the best point of this morning profit-tak-ing become more general, and before midday prices had declined 8025 points. The traders continually were feeling for the top, and this asturality brought in a considerable volume of continually were feeling for the top, and this naturally brought in a considerable volume of scalping orders on the short side. The violent efforts to cover which followed caused another sharp advance, and within ten minutes July sold up from 11.17e to 11.24c; August from 10.81c to 10.97c, and September from 9.65 to \$.72c. The midday rally apparently exhausted the immediate domands from there and any follower

immediate demands from shorts, and was fol-lowed by another decline. Just before the fin-ish the trading was once more very spirited, ten the trading was once more very spiriter, and a partial rally took place. The general list closed net 7 to 31 points higher, the great-est gain being in November. Spot closed quiet; middling uplands, 11.55c; do Guif, 10.10c; sales, 500 bales.
