EVIL OF RESERVES

Will Retard the Growth of Counties Affected.

POOR LAND TRADED FOR GOOD

Governor Chamberlain Voices Protest and Points Out the Use That Can Be Made of Scrip Taken for Barren Acres.

SALEM. Or., May 19.—(Special.)—If President Roosevelt takes the trouble to sound public opinion in this state upon the subject of forest reserve he will find that there is a very strong opposition to the creation of the reserves proposed for Southern and Southwestern Oregon. The people of Curry and Josephine Counties have already made a vigorous protest against the creation of a reserve which covers about half the area of those two counties. Men who are acquainted with conditions in Lake County, where 200,000 acre were withdrawn from entry yesterday for the purpose of creating a reserve, say that a no less vigorous protest will go to Washington from that part of the to Washington from that part of the

In the Interest of "Scrippers."

The creation of reserves is quite generally believed to be a move wholly in the interest of men who own worthless land in the tract withdrawn and who wish to exchange it for valuable timber land. Conservation of water supply is regarded as a mere subterfuge to cover up the

real motive.

The Blue Mountain reserve in Eastern Oregon is the only one that has been conceded to be necessary in order to preserve the water supply and there are many who know that country who will question its utility for that purpose. The conservation of water in Curry

County strikes people who know that county as being an attempt at humor, though very serious to those whose interests are affected. There is no scarcity of water in that region and never will be. Governor Chumberlain Protests.

There is no reason whatever for th creation of these reserves," says Governor Chamberiain. "You can quote me as say-ing that if the reserves in Curry, Jose-phine and Lake Counties are created the officit will be to retard the development of those sections of the state and evi-dently for no other purpose than to en-rich men who own large tracts of land in the area withdrawn from entry. I am creditably informed that the Oregon Cen-tral Military Wagon Road Company, or its assigns, own 80,000 acres of wagonroad grant land.

"They have sold off the best of it and want to relinquish the remainder and se-cure 'acrip' in return, which they can use to take valuable lands in other parts of the state. By this means they can give up their worthless lands and secure good lands instead and when a home-seeker goes to take a homestead he will find that the Government has nothing to

offer that is worth taking.
"I am also informed that the Oregon & California Raliroad Company has thousands of acres of land of little value in the proposed Southwestern Oregon reserve.
If that reserve is created the owners of that land will be permitted to exchange its lands for valuable lands elsewhere with the result that all the best lands will be

Injury to the State.

"The creation of these reserves will prove a direct injury to the state for when these wagon road and railroad companies are given 'scrip' covering thousands of acres of land, which they can use themselves or sell, it is impossible for the state to realize anything upon the base it may have for sale,

'The withdrawal of large areas of land from settlement not only retards devel-opment, but reduces the amount of land

Of Water There Is Plenty.

"The reason given for the creation of these reserves is that the water supply will be conserved. From all that I can learn there is no foundation in fact for the assertion that the reserves are needed for this purpose or that they will do any good whatever, I hope the reserves will not be created." State Treasurer Charles S. Moore, who

has resided for many years in Klamath County, adjoining Lake, and who is familiar with all the country from which it is proposed to create a reserve, says that there is no occasion for such a re-serve, and that the project will meet with strong opposition from the people of that section of the state.

Lands Do Not Affect Water Supply. He says that with the exception of one or two townships on the head of Chewaucan River, two or three at the head of Sprague River and as many at the head of Drew's River, there are no lands that materially affect the water supply of that region. Out of the whole if townships that have been withdrawn. there are not to exceed 12 or 15 that could possibly be used to conserve the water

More than this, the best timbered lands have already been sold, and these are the ones which must be preserved in order to hold the snow and water. Since it has passed out of the power of the Government to prevent the cutting of the tim-ber, the alleged object in creating the reserve is now impossible of accompilehment, even though it might have been

Mr. Moore regards the creation of the of wagon-road grant lands are the prin cipal persons in interest. Regarding the proposed reserve in Curry County, Mr. Moore says that the problem in that county is more likely to be how to get rid of surples water rather than how to conserve it. Conservation of water can-not be assigned as the purpose of a reserve in Curry County.

F. A. VANDERLIP WEDS.

His Marriage to Miss Cox, of Chicago, a Brilliant Social Function

CHICAGO, May 19.—The marriage of Frank A. Vanderlip, ex-Assistant Secretary of the United States Treasury, and now vice-president of the City National Bank of New York, and Miss Narclessa Cox, of this city, was celebrated at Christ's Reformed Episcopal Church this evening, Dr. L. P. Mercer, of Cincinnati, and Bishop Charles Edward Cheney officiating. The wedding was a notable one in local society, as Mr. Vanrelip is a former Chicagoan and newspaper man, and the bride has been especially prominent in university and social circles. The bride's attendants numbered mostly her university clasemates and the men of the bridal party included some well-known newspaper men.

E. W. Harden, a former Chicago news-paper man, and now of New York, was the best man. The ushers were Eugene R. Cox, brother of the bride; Blatchford Kavanaugh, George Ade, Allen G. Hoyt, Ames Higgins, John T. McCutcheon, Ralph Hobart, Charles Rich and Arthur

The bride entered the church alone while a double quartet, chosen from among her university friends, sang the wedding music. Her gown was of French wedding music. Her gown was of French net made over satin with full veil and orange blossoms and bouquet of white orchide. Her sister, Miss Clover Cox was the maid of honor. The bride was given away by her father. The ceremony was followed by a reception at the Cox residence for 300 guests.

Mr. and Mrs. Vanderlip left for New York, and will sail in a few daws to spend York, and will sail in a few days to spend

Con-gressmen are to be nominated by the old method, and a convention will be held for framing the state platform.

WAR ON PACIFIC.

(Continued from First Page.) boat Company at Scattle had taken a shipment of freight away from the Pa-cific Mail and sent it north to go to the Orient over his steamers. In effect, this is the same as a cut rate, for it would owned by large corporations. This is not have been impossible to thus divert the right and should not be permitted by the Government.

San Francisco to Puret Sound was abfreight unless the coastwise rate from San Francisco to Puget Sound was absorbed, thus leaving the Seattle line but \$5.50 per ton after paying the coast rate

of \$1.50 per ton. Flour is preferred freight on the Ori-ental run and takes a \$5 rate, while for wheat, \$1 per ton more is exacted. A Portland shipper had an order for about 2000 tons of wheat for Japan, and offered it to the regular lines at the flour rate. This they refused to accept from Portsubject to inxation, and, in the case of Curry County. I fear it will make it almost impossible for them to maintain a terday that he could not only necure the the wheat, but by adding another 1600 tons to the shipment, could secure a rate of \$4.50 per ton.

More Boats for Portland. The Portland & Asiatic Steamship Comcany is carefully guarding its secrets as to the future, but there is a well-defined rumor that the service will be increased when the present contract for the three "Indras" expires next year. One story has it that Harriman will send some of his cast-off boats from the Pacific Mail to this route, but this is not generally credited, as the boats are all small carriers of deep draft. Portland will undoubtedly emerge from the coming mixup in fully as good shape as she is at present, and with the assistance of a line like the China Commercial Steamship Company, which seeks only outward cargoes, will probably handle more of the trans-Pacific trade that originates in Portland territory than she has ever been able to handle with present facilities.

Shooting the Outcome of a Fight Against Union Printers, and Caustic Personal References of .Writers to Each Other.

DURANGO, Colo., May 19.—David F. Day, editor of the Democrat, and Frank Hartman, a newspaper writer, exchanged II shots at each other on the main street of this city, without serious results. Hartman received a slight flesh wound in the leg. The shooting was the outcome of a fight Day has been making against union printers. The latter started an opposition paper, on which Hartman was the principal writer. The personal references of the editors to each other in their respective papers have been very caustic, and when they met, shooting was commenced hardly without warning. Each claims the other began the duel. Day used two revolvers. No arrests have been made. It was reported that Day had previously challenged Editor Higgins, of the Evening Telegraph, to mortal combat, and when the shooting began it was thought that these two had met.

ATTEMPT TO POISON PRISONER. Bottle of Whiskey Is Seized by

Jailer in the Nick of Time. WINCHESTER, Ky., May 19.—It has just been disclosed that an attempt to polson Curtis Jett was made at the jail here last Sunday. A stranger, who asked to see Jett, was admitted by Jailer Boone. Jett did not recognize the man, who talked to him quite familiarly. After a while the stranger drew from his pocket a bottle of whisky and offered it to Jett. Jailer Boone took the bottle from Jett's band as he was about to drink. Jett prohand as he was about to drink. Jett pro hand as he was about to drink. Sett pro-tested, saying he wanted the whisky, but Boone refused to let him have it, and kept the bottle. It has been found that the whisky contained poison, and it will be sent to the State College for analysis.

Jett Is Denied His Liberty. LEXINGTON, Ky., May 19.—Curtle Jett, charged with the murder of J. B. Mar-cum, was brought into the Circuit Court today at Winchester on a motion to dis-miss the habeas corpus proceedings. The county attorney was not present, but Jailer Boone, against whom the relief

neasure was directed, conducted his own

case.

The court decided to bold Jett and made a statement that to return him to Jackson, Ky., would be instantly to turn him loose. He will await the action of the Breathitt grand jury. It is said there was some trick in today's proceedings which Judge Benton turned down.

The habeas motion had been overruled and the case set for hearing June 4 to ascertain the facts as to the killing and satisfy the court whether he should hold Jett at all. Jett's attorney came into court and made a motion to dismiss his own motion. Judge Benton believed this appearance a preparatory step to demanding an examining trial, as the iaw provides. In this case he could not get provides. In this case he could not got the Breathitt witnesses and Jott could ask for dismissal in their absence.

ROSEBERY IS NO FREETRADER. He Questions the Policy Advocated by Chamberlain. LONDON, May 19 .-- In a speech at Burnley, Lancashire, tonight, Lord Rosebery, referring to Mr. Chamberlain's speech at Birmingham, May 15, in which the Colo-

nial Secretary made an appeal for trade reciprocity within the British empire, said that before tariffs were changed the colonics ought to be represented in the government of the country, and he did not think this was so impracticable as it was some times considered. He did not regard free trade as a part of the "summons for restraint," but the question arose whether it would be wise without long and deep consideration to change the fiscal system under which Great Britain had achieved

her commercial success.
"We must consider," continued Lord
Rosebery, "whether it would be judicious to quarrel with customers who give us two-thirds, and possibly three-quarters, of our trade, in order to oblige customers who give us a quarter of it, or only a third of it. In any case, a conference be-fween British and colonial financial ex-

perts should precede any alteration of the British fiscal system." British fiscal system."

Women's Dragging Pains

There is nothing of so much interest to a sick woman as getting well. I write this to sick, thoughtful women who have dragged along a weary existence not knowing which way to turn for health. I have been in this precessions condition, but today I am in perfect health, thanks to Wine of Cardut. I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstrantion, had blinding needsches and rushing of blood to the brain. What to try I knew not for it seemed that I had tried all and falled, but I had never tried Wine of Cardut, that bleaked remedy for sick women. My attention was called to it by a little booklet and I decided to yit. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my retus and after using eleven bottles I was a well woman.

I am grad to be able to give this institutional as I

Could Mrs. Bush have given a happier message than this to the thoughtful sufferers to whom she gives advice? What like health can bring the sufferer nearer to enjoying life? To make a sick woman well is to open almost every door of blessing and privilege to her—the blessing of having children in her barren home, the privilege of taking part in the real affairs of life.

Yet thousands of women are continuing to suffer without making the effort to secure health—the health that would give strength instead of weakness, vigor instead of pain, happiness instead of dejection and hope instead of despair.

If you are suffering what can be of more interest to you than the fact that Mrs. Bush was in a precarlous condition, weary of existence and is now in perfect health because she took Wine of Cardui for menstrual pains, bearing down pains and blinding beadsches when all other remedies failed to bring her relief?

This should bring you to consider her letter seriously and to decide to give Wine of Cardui a trial. This is not a diagnosis and a theory as to how a cure can be worked. It is a case demonstrated by this prominent Chicago woman herself.

Is there any doubt in your mind that you can be cured by Wine of Cardui the same as Mrs. Bush was cured? Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle with its quick and lasting relief soon convinces the patient she is on the road to health.

Will you secure a \$1.00 bottle of Wine of Cardui from your druggist and start today the treatment which brings perfect health?
