Grosvenor Pavors a Declaration for the President, as Silence Would Be Taken to Mean That Hanna Is a Candidate.

OREGONIAN NEWS BUREAU, Washington, May 22.-Various reports are received here from Ohio concerning the con test between the Hanna and Foraker factions over the indorsement of Roosevelt in the coming state convention. The Toledo Blade has published answers to an inquiry from 50 Republican editors of the state, and all but six are in favor of in-dorsing the President as the candidate for next year. Hanna is quoted in an interview as saying he is opposed to the in-dersement, and will continue to oppose it until some one shows a reason for this year's convention doing next year's work. He is also quoted as saying of the indorsement: "It is not only unprecedented, it is absolutely ridiculous. President Roosevelt himself is opposed to it."

Many men have been interviewed on the subject. Charles Daugherty, of the state ommittee, who has not been in the Hanna campaign, is in favor of the indorsement and says it would mean that the Ohio Republicans had faith in the President.

Governor Nash says the vast majority of Republicans are in favor of the President, and it does not make any difference whether he is indorsed or not.

Representative Grosvenor thinks it would be a wise thing to indorse Roose velt, especially as the matter has been brought up, and that if the indorsement is not given, it will be taken to mean that Hanna is opposed to it, and may himself appear as a candidate. Grosvenor adds that if Hanna is a candidate, Ohio would be for him but if he is not, he should not be placed in an equivocal position as being constructively against Roosevelt.

A number of other Republicans of more or less prominence seem to think that the matter of indorsement should not have been brought up at all, but that the discussion of it has made it almost impera-tive to indorse the President. Senator Hanna is said to be very bitter against Foraker for pushing the matter so vigor-ously. He was alleged to have said that Foraker's purpose was to "smoke him out," but this Hanna denied in another interview.

CUBA SIGNS THE TREATY Platt Amendment Is Accepted in Its Entirety.

HAVANA, May 22.—The permanent treaty between the United States and Cuba, in which is incorporated all the provisions of the Platt amendment, was

signed this afternoon.

The act of signing the treaty took place at 4.30 o'clock this afternoon at the office of the Secretary of State. The signers were Secretary of State Zaido and United States Minister Squiers, who were constituted special plentpotentaries for that purpose. Senor Zaldo and Mr. Squiers simply met, accompanied by their secretaries, and the signing was accom-plished, and copies of the treaty ex-changed within a few minutes.

The permanent trenty contains no provision for its abrogation, and no ex-traneous conditions of any kind. It sim-ply incorporates the entire Platt amendment into the form of a treaty. The length of time consumed by the negotia-tions was principally due to the fact that the Cuban Government desired to include in the treaty various extraneous capecially one to the effect that there should be no intervention in Cuban affairs by the United States, except through the initiative of the Presint of Cuba. All these conditions were

The Surest Guaranty of Peace. The surest guarante of Peace.

'The surest guarantee of peace is an adequate navy. The best possible assurance against war is an adequate navy. I ask for a navy, primarily, because it is the surest means of keeping peace; and also because if war does come, surely there can be no American who will tolerate the idea of its having anything other than a successful issue. than a successful issue. (Applause.)

"In the fighting in Manila Bay and in Santiago in 18%, in which such ships as the Olympia and the Oregon—named for the Northwestern Coast, and built on the Pacific Ocean—did their part, what controlled the issue of those fights, what was done at the moment? No, the preparation had been made in advance. The ships that won the victories of Manila and Santiago had been built years before, when there was no thought, and could have been no thought, of war with Spain. In 1883 we had a Navy composed of antiquated war craft, as unfit to go against a modern battleship as the galleys in which Rome and Carthage fought for mastery of the Mediterranean. If at that time we had been put in such a position as were were in 1888, bitter humiliation would have been in store for us before we eventually won, for, mind you, I think we would have eventually won anyhow. (Applause.) But I do not want to see a generation of humiliation precede the victory. We won because we prepared in advance. We built the ships, established the shipyards, created the armor plants, created the gun foundries, and we made ships which, in hulls, guns and engines, need to fear no comparison with those of any other power; and then put the men on them and trained the men to do their part in the battle. part in the battle.

The Shots That Count. "The only shots that count are the shots not hit. I believe in marksmanship that hit. I believe in marksmanship ashore and marksmanship affoat. You and I, my comrades, who fought ashore, have a simpler task in learning how to handle our weapons. Most of us know something of the rifle in advance: if we did not, we had our time to learn it. But get on a big ship—and any man who has been on one knows it is a mighty complicated and delicate bit of machinery to handle the guest in the mun turrets; to hand handle the guns in the gun turrets; to han-dle the ship itself, needs the training of a specialist. You can take the best men alive and put them upon one of our modern battleships, and unless they have had some training the fact that they are the best men alive will not help them. They have got to have the training; and it was because our officers and men were trained well that when the crucial minute came we not only won, but we won at a mini-mum of loss to ourselves and a maximum

"It is a pleasant thing to come together and congratulate ourselves upon the great deeds of the past, but that is not the way to prepare for great deeds in the future. In '61 the men of the Civil War won, not by attending Fourth of July celebrations; not by glorifying what had been done by the men of the Revolution, but by turn-ing in themselves to try to distance the deeds of the men of the Bevolution. PERMANENT **CURES**

MEN'S **Diseases**

Our knowledge as to the nature and requirements of all diseases peculiar to men is thorough, for we have devoted 21 years of the best years of our life to the treatment of these diseases alone. We have put study and conscience into all our work. We have treated thousands of men, and have cured every curable complication or condition. Through the knowledge gained by our vast experience, which has been unusual, both in quantity and quality, we have been able to perfect methods of treatment that mark a distinct advance in the science of medicine. We have cured, are curing and shall continue to cure such cases as no other reliable physicians will attempt to cure. Therefore, we especially invite those who have been long afflicted to consult us. In no instance will we attempt a case in which we feel the least doubt as to our ability to effect a thorough and lasting cure.

"Weakness"

"Weakness"

"Weakness"
We not only cure "weakness"
promptly, but we employ the only
treatment that can possibly cure
this disorder permanently. It is
mainly a system of local treatment
entirely original with us, and is
employed by no physician other
than ourselves, although many, owing to our success, copy our advertisements and try to imitate our
methods. So-called "weakness" is
but a symptom of local inflammation or congestion, and a radical
cure is merely a matter of restoring normal conditions throughout
the organic system, and this we accomplish thoroughly and with absolute certainty.

Stricture

Stricture

Our treatment for this disease removes the necessity for surgical operations, even in severe cases of long standing. We do no cutting nor dilating, and the service we offer you is original and can only be had at our office. Do not give up hope because others have falled, We will cure you, and the cure will be a prompt and painless one. Ours is a home treatment that during sieep dissolves and permanently removes every obstruction from the urinary passages, subdues all inflammation, relieves all irritation or congestion that may exist in the kidneys or bladder, reduces enlargement of the prostate gland, and restores health and tone to all the organs affected by the disease.

Contracted Disorders

Improper treatment of contracted diseases can easily bring loss of power. An examination reveals this very cause in a large portion of the cases of weakness. Lingering inflammation centering in the prostate gland is sure to result in disordered functions, and the condition will never be corrected until the inwill never be corrected until the in-finance and swollen gland is re-stored to its normal state. We thoroughly cure every contracted disease we treat. The remedies we employ differ from those used by others, and no other physicians have as yet produced equally prompt and thorough cures.

Varicocele

Every case of varicoccie we treat proves the superiority of our mild and harmless method and the folly of resorting to surgery. The treatment we employ is distinctively our own, and can be had of us only. There is no pain or cutting, and the patient need not be detained a single day from his business. Do not submit to a knife or hospital expenses when a complete cure can be had at home and without danger.

Treatment Different From Others

We prescribe for each individual case. Any benefit received from treatment is part of a permanent cure, as we give no temporary stimulants and our methods are all original.

While the drive about the city was in progress, the crowd thronged to Wright Park, where the President was to address the people. About the grandstand were massed the G. A. R. and Spanish-American Veterans as a guard of honor, while a cordon of police kept the way clear.

To the beautiful attractions of the park had been added the embellishments of of neighboring cities.

a magnificent chair made of ells' horns, which was a gift to him. He noticed the card, and expressed his admiration to Screetary Loeb.

Without delay, Mayor Campbell steppod forward and introduced the President, who was again greeted with a burst of cheers, which he smilingly acknowledged. The events of the last few years have shown that whether we wish or not, we must play a great part in the coking down at the Spanish-American Veterans, the President said he understood a man who was in his regiment in Cuba was in the grounds, and he invited him to come upon the platform. The Navy the Main Prop. The Navy the Main Prop.

"I wish to say just one word this afternoon to you here in this City of Destiny, in this city by the Sound, on our foreign policy, and upon what must ever be the main prop of any good foreign policy—the American Navy. In the old days, when I first came to the Little Missouri, there was a motto on the range "Never draw unless you mean to shoot." That is a pretty sound policy for a nation in foreign affairs.
