IS IN NEW DIOCESE

Eastern Oregon Cut Off From See of Oregon City.

FATHER O'REILLY IS BISHOP

Baker City Made Hendquarters by Catholic Congregation of Propaganda-Portland Priest Highly Honored at Rome,

ROME, May 2.—The Congregation of the Propaganda today finally decided to recommend the division of the archdio-cese of Oregon City and the appointment of the Rev. Charles J. O'Beilly, pastor of the Church of the Immaculate Heart of Mary, of Portland, Or., to be bishop of the new diocese. The whole matter is subject to the approval of the pope,

The division of the archdiocese of Ore-gen City has been in contemplation for a considerable time, owing to its large area and the rapid growth of population. It has been the policy of the present pontiff, Lee XIII, to accomplish the division of the larger archdioceses of the United States order that the best spiritual service uld be rendered to the constantly increasing Catholic population. Recent di-visions in consonance with the purpose of the Vatican have been the establishment of the Sloux City diocese, apart from the archdiocese of Dubuque, Ia., and that of Lead, S. D., regregated from North Dakota. Now the change in the Oregon archdiocese has been recommended by the congregation of the propa-ganda, and will, it is expected, be an ac-complished fact in the course of a few

The creation of a new diocese is a mat-The creation of a new diocese is a met-ter of no small moment to the Vatican and is not arbitrarily done; every detail being carefully taken up by the propa-ganda and rigidly considered before the final recommendation is presented to the holy father for approval.

When the erection of a new Catholic diocese in Oregon was thus taken up, the

diocese in Oregon was thus taken up, the selection of a head for the new episcopai ase presented itself, and in recognition of his zealous work as a priest and his up-right character and clerical qualities, Rev. Charles J. O'Reilly, pastor of the Church of the Immaculate Heart of Mary, at Albina, was recommended to the propa-ganda by his grace, Most Rev. Alexander Christie, archbishop of Oregon City, and the Right Rev. Bishop Orth, of Vancou-ver; Bishop O'Dea, of Washington; Bish-op Glorieux, of Idaho, and Bishop Brondel, of Montana,

The new diocese to be created will take in all that portion of the State of Ore-go neast of the boundary line between Wasco and Multnomah Counties, and thence extend southward, following the summit of the Cascade Range of moun-tains to the southern boundary of the state. The episcopal see will be Baker where the new prelate will make his

Father O'Rellly is a native of St. Johns, N. B., and, coming to Oregon a number of years ago, established the first mission at Oswego, Clackamas County. Later he came to Portland, and has been pastor of the Catholic Church at Albina for a number of years, during the last year also, in addition to his pastoral work, having editorial charge of the Catholic Sentinol, which he has now resigned. He is a clergyman well equipped for mission work, both in the country and city, and goes to the scene of his new and en-larged duties well qualified to appreciate the urgent demands of his field of labor.

WHAT PEOPLEWILL VOTEON Questions to Be Submitted to Them

at Monday's Election, Next Monday electors of Portland will

vote to sustain or annul the following three acts of the Legislature: Authorizing a new bridge across the Willamette River at Morrison street, an additional free ferry at Albina, and a free ferry at Sell-

If the acts shall be sustained, the Exwith the City & Suburtan Railway Com-pany for an exchange of the franchise now held by that company on the bridge for a franchise on the new structure. If the company shall refuse to negotiate or to give up its old franchise in exchange for a new one, the Executive Board will have power to bring suit to condemn the privileges the company now holds on the The act empowers the board to sell \$400,000 worth of bonds on the credit of the city. It requires the street-car company under the new franchise to pay a toll of 3 cents for each trip of a car over the bridge, but the minimum annual toll shall be \$12,000. Other railway companies than the City & Suburban shall pay bridge, and to enable other companies to reach the bridge the Executive Board shall have power to acquire by purchase, con-demnation proceedings or other means the franchises which the City & Suburban olds to the approaches of the bridge. For the additional ferry at Albina the

Executive Board shall sell \$50,000 worth For the Sellwood ferry a commission of three persons, appointed by Mayor Will-

iams, shall ruise \$15,000 from the sale of These three projects, if carried out, will increase the bonded debt of the city \$56,-

three acts, and may approve or disapprove any or all of them The argument for the new bridge is that

the old structure is too narrow and is growing unsafe, and that a bridge the full width of the street, or nearly so, is needed. The argument for the additional ferry at Albina is that the present ferry is to small for that part of the city. The peo-ple of Sellwood contend that they are entitled to transportation facilities for crossthe river as well as any other dis

tour of the Site.

A model will be set up in the headquar-ters of the Lewis and Clark Exposition within a few days, showing the contour of the grounds in the west end and the

or the grounds in the west end and the plans for the buildings.

Carpenters were busy yesterday preparing the big platform upon which this model is to stand, and as soon as Engineer Oskar Huber has prepared his model the Exposition ground plans will be shown to detail

The advantage of this showing at the

Exposition headquarters is obvious. In-stead of compelling a possible concession-aire to make the trip to the Exposition grounds and go over the plans in detail, he will be taken to the model-room and the plan of the big fair will be spread out at his feet. In the same manner the possible exhibitors can be shown what will be the outline of the directors and Com-

oners.

model to be constructed by Engineer Huber will be made from plaster and papier-mache. Every building will be shown in its place and the contour of the ground will be faithfully outlined. The plans of John C. Gimstead, consult-

the ground will be faithfully outlined.

The plans of John C. Gimstead, consulting landscape architect, have been taken as the besis upon which Mr. Huber will work out his plan for the model exposition. The plateau will be worked out first,

and then will come Guild Lake and the lower ground about it. Upon the plateau will be erected small papter-mache buildwin to executed small paper-mache obtainings in faithful representation of the more stately edifices that are to adorn the Exposition grounds. The piots which are to be set aside for the concessions will be shown and an attempt will be made to indicate the character of the concessions that will occupy different sections of the ground.

ground.

While the model will serve the purpose of filustration at the Exposition head-quarters, and will be something of a curiosity to those who have marely seen such exhibits, its purpose is useful. It would be practically impossible for the Exposition officials to filustrate the character of the big Fair without the aid of such a showing of the ground characteristics.

The executive committee of the Fair met last evening and held an informal discussion of future plans. Nothing de-veloped from the meeting in the shape of orders for the resumption of work, but the committee probably obtained a more gen-eral idea of the character of the under-taking it had in hand.

John Barrett attended the meeting and gave his advice as to the better plan of obtaining a representative exhibit from the Orient. While Mr. Barrett is closely associated with the St. Louis Exposition and unable to accept a commission from the Lewis and Clark Centennial, he has agreed freely to give the Fair the benefit of his advice.

PIONEERS TO HOLD REUNION Programme Is Prepared for Enter-taining the Veteraus.

All plans for a most successful reunion of the Oregon Pioneer Association for 1903 are well in hand, and the prospects are highly encouraging. Announcements setting forth the programme of exercises and the reduced rates for transportation from the different parts of the state have been sent out in large numbers, and re-sponses thereto are being constantly re-ceived by Secretary Himes. The attend-ance last year was 908, and it is expected that it will be fully as large this year, notwithstanding the inroads that death has made into the ranks of pioneers. There are many who are entitled to the appellation of "ploneers" who have never attended an annual reunion. Secretary Himes has found at least 200 of this class during the past year. From this number the attendance is augmented from year to year, as the old veterans fall out in obe-dience to the summons which comes to all in due time.

All matters pertaining to the banquet are progressing most favorably. Two meetings have been held by the Woman's Auxiliary at the home of the chairman, Mrs. C. M. Cartwright, and the responses for supplies and the willingness expressed to lend a hand in the work have been meat gratifying. It is certain to be the feeling this year, as it has been for several years past, that there is nothing too good for the old ploneers. The Woman's Auxiliary has suffered a signal loss by the death of Mrs. Rosa F. Burrell, a few weeks ago. She was one of the most in-defatigable workers in the auxiliary, and her cheery presence will be greatly

Among those who have for many years attended the annual reunions regularly, but who have died since the reunion of 1962, the following may be noted:

1962, the following may be noted:
Mrs G. R. H. Miller, Mrs E. D. Shattuck,
Oregon City Portland
W. R. Dunbar, VanColburn Barrell, Port-J. H. D. Gray, Astoria
land
John Catlin, Portland
S. Gatton, La Center, Wm. M. Case, ChamWash
Doon
John Hughes, Salem N. K. Sitton, Cariton
Mrs. Rosa F. Burrell, Mrs. Catherine Stewart
Portland
The above is but a partial list, and the
secretary of the association would be

secretary of the association would be obliged if those knowing of the decease of other pioneers since June 18, 1902, would kindly send him their names.

BOAT FOR COOS BAY RUN Portland Merchants Asked to Take Stock to Build Steamer.

The Board of Trade is in receipt of a letter from the Coos Bay Chamber of Commerce, setting forth a plan to mise capital among Coos Bay, Portland and San Francisco merchants, for the purpose of constructing a freight and passenger steamer to cover the San Francisco, Co.

Bay and Portland run.
The letter is as follows:
"We herewith beg to call your attention to the fact that we have taken up the matter of constructing a suitable steamer for the Portland, Coos Bay and San Francisco run, with the Simpson 1000 tons' capacity, capable of making 12 or 14 knots per hour, with splendid pas-senger accommodations. There is no doubt but that such a boat would not only be a paying proposition to those who care to take stock in it, but that it would have a tendency to bring Portland and Coos Bay into closer business and personal re-lations. We have asked our merchants to take \$10,000 of this stock of the new vessel; thus, you see, we have the ship-pers on this end and those to whom ship-ments are made at this end of the route. owning stock in the boat, and specifying that all freight shipped to them shall be shipped on this particular boat. Would it not be a wise move on your part to see if you cannot induce the Portland merchants to do likewise? We refer to those nerchants only who make shipments to

BODY OF CHILD FOUND.

Grewsome Remains Are Found at East Fifteenth and Multnomah.

The dead body of a month-old child was ound wrapped in a gunnymack yesterday forning at the corner of East Fifteenth and Multnomah streets. Archie Turnbull, a repairer of the City Engineer's office, was at work upon a sidewalk near this corner, and found the bundle buried deep in the grass. The peculiar shape of the bundle of rags and sacks led to an in-vestigation, and when the body was discovered the Coroner was notified and the gruesome object removed.

The body was badly decomposed through the action of lime which had been placed upon it some time previous. Apparently the child had been dead a month or more and the lime had eaten away a large part of the head. Had the body been exposed to the weather since death it would have MODEL OF FAIR GROUNDS been quite unrecognizable. Evidently it had been placed in a cellar or other dry place for some time and removed to the vacant lot but a week or so ago. The bundle had been carefully placed in deep grass, and had it not been for the work of the City Engineer's men it might have remained there for menths.

Doctors Take Them Next.

The firemen have gone through athletic stunts very creditably, and now they stunts very creditably, and now they
must submit to be thumped and sounded
by the doctors. Chief Campbell yesterday
certified to their passing the athletic examination, but their success in this does
not free them from the physical test.
Applicants in the police department for
other positions than patrolmen will also
be physically examined this week. Several of the applicants passed the patrolmen's physical examination, and they will
not be forced to undergo another. Follow.

men's physical examination, and they will not be forced to undergo another. Follow-ing is the list of applicants. Captain of detectives—Samuel Simmons. Captain of police—Oscar F. Isackson, Charles Venable, John T. Moors, Fred C. Geer, E. E. Parker, R. H. Austin. Detectives—Albert M. Brown, Frank J. Snow, John F. Kerrigan, Lewis C. Hart-man, Joseph Day, Daniel Weiner, Joseph man. Joseph Day, Daniel Weiner, Jacob Hoesly and H. H. Hawley.

SELLWOOD MAN DISTURBED BY STRANGE NOISES.

He Hears Knockings Every Night. but Constant Watch Fails to Discover the Cause,

The two-story double house at 1711 East Eleventh street, at Sellwood, occupied by J. M. Merchant and wife is "haunted." strange noises for which there is no explanation have been heard all over the part of the house occupied by Mr, and Mrs. Merchant for the past three weeks at night. The singular feature of the affair is that the other part of the double house, occupied by John P. Peifer, presi-dent of the tannery company, has not been disturbed, but the gobiln or ghost, or whatever it is has confined its operations to Mr. Merchant's apartments. The noises consist of heavy knocks on the doors and sides of the houses, some-

times upstairs and sometimes on the lower floor. A policeman watched the house on the supposition that somebody on the outside might be causing the disturbances, but he saw nothing. So loud are the noises at night that Mr. and Mrs. Mer-chant have been driven away once or twice, and in spite of all the efforts that have been made to find the cause, nothing has been discovered. Mr. Peifer has watched with Mr. Merchant and also alone, but failed to solve the mystery. Mr. Peifer has made a thorough inves-Mr. Peifer has made a thorough investigation. He says that the knocks are sometimes very loud as if somebody were hammering on the doors with all his power, and then again they are faint. He and Mr. Merchant watched together, and chased all over the house as fast as they could as the rappings were heard in different portions of the building, but the rapper shifted about faster than they could. While they were down stairs they could. While they were down stairs they heard the floor above creaking as if some-body were walking across the room, and then they heard the rappings on the side

ound nothing. Mr. Peifer armed himself with a nd sat up alone in the house the other night, intending to make it lively for the goblin if he caught sight of it. When the rappings were heard on the door, he ran outside, but saw nothing. The noises entinued while Mr. Pelfer watched, but ne got no opportunity to use his gun on the ghost, although he chased the rap-pings all over the house. These continued disturbances have be-

of the room. They slipped upstairs, but

come very wearing on Mr. Merchant, who is quite weil along in years. It is thought that an outrageous trick is be-ing played on him for some unknown puring played on him for some unknown purpose. A young man, who sleeps on the second floor, professes to know nothing about the noises, but whoever is working the "ghost racket" in this house is certainly adroit to keep it up for nearly a month without being discovered. The house has been thoroughly inspected, inside and outside, for wires or some machine which might produce the noises, but nothing has been found. There have been cases where noises have been caused in houses to prevent a sale of the property, or to reduce the sale price, but this explanation will not fit this case, Mr. Merchant is a well-known contractor without an enemy in the world.

PILEDRIVER WRECKED,

Two Men Thrown Into Slough, but Neither Is Injured.

Without the slightest warning and with a great crash, the frame of the pile-driver, used by J. B. Tillotson in driving piles for the elevated rondway on East Oak street, between East First and East cond streets, collapsed yesterday fore-on while the heavy hammer was at the top. C. N. McKee and John Williamson, who were standing on the first and second stages under the hammer, were thrown into the slough about 30 feet below, among the broken timbers which came down with them, but both made a wonderfu escape from death. Engineer C. E. Amos and Henry Watkins, the fireman, both made a jump and got out of the way of danger. The engine, after the frame, which was about 36 feet high, went down tilted backwards, but did not fall into the

The wreck was caused by the giving way of a bolt which held an iron rod which supported the frame just as the hammer, which weighs about 2000 pounds, about to drep on the pile. Williamson was working above on the second stage, and McKee was on the first stage eight feet lower down. A pile had be had reached the highest point and was in position preparatory to driving when the supporting rod gave way. In an in-stant all the large timbers were wrenched In two by the weight on the hammer, and everything about the driver except the engine plunged into the slough. McKee struck deep water and went out of sight, while Williamson fell in about three feet

while Williamson fell in about three rect of water. The big timbers, that were snapped like pipe stems, fell about them and yet neither man was struck. They only sustained some slight bruises. Engineer. Amos, when he heard the crash and saw the tall driver topple for-ward in the act of falling, jumped from ward in the act of falling, jumped from the engine on a pile of dirt under the roadway, and Fireman Watkins made his cacape to the eastward. The hammer came down in the slough. It will be nec-essary to lift it out and rebuild the driver

East Side Notes,

Rev. H. S. Templeton, pastor of the Westminster Presbyterian Church, has been given a leave of absence, and he will spend his vacation at Brownsville.

The Wille tract, comprising 230 acres of land partly covered with brush and stumps, purchased by the Ladds, is being cleared. This tract lies east of the Ladd cleared. This tract lies east of the Ladd farm on the Southern Pacific Railway, It will take about 14 months to clear it and the cost will be about \$16,000. Clumps of small freez will be left standing in places for shelter for the stock. All stumps will be removed. A considerable force of men is at work. The tract will be used for pasturing some 250 head of blooded stock. Pickett Post G. A. R. of Sellwood. pasturing some 26 head of blooded stock. Pickett Post, G. A. R., of Sellwood, with the aid of the school children, will proceed to Milwaukie cemetery Saturday morning at 9 o'clock, decorate the graves of soldiers buried there and hold brief exercises. Short addresses will be delivered in the cemetery by Rev. William Powell, Major T. C. Beil and some others. Exercises will be held in the foremon to give opportunity to attend the general Memorial day exercises in Lone Fir cemetery.
