Visiting Germans Off for Yellowstone Park.

STOP AT HOOD RIVER TODAY

Tourists Will Find the Strawberry Season at Its Height-Short Stops Will Be Made at Pendleton and Walla Walla,

Members of the German Agricultural Society completed all their arrangements yesterday for a five days' tour through Yellowstone Park, a visit to which they are looking forward with a great deal of anticipation. Tickets for a party of \$2 were secured, and the travelers have been guaranteed the best of everything during the park trip. Only three stops are to be made between

Portland and the entrance to Yellowstone Park. The German scientists will leave this city at 9:20 o'clock this morning and go direct to Hood River. As much time as possible will be spent in the strawberry country, for this is a feature of American agricultural development that the visitors have not been shown thus far on their trip. Not alone will growing strawberries be shown, but if possible to do so jam factories and preserving plants will be visited by the party.

The trip of the foreign agriculturists is so well timed that they will reach the Hood River district when the strawberry season is at its height, and will thus be able to gain the best possible idea of the extent of the industry.

From Hood River to Pendleton is a night ride, and the party will arrive in that place just in time for breakfast, It is planned by the O. R. & N. that a special frain shall be run between Pendleton and Spokane for the benefit of the visitors. The only stop contemplated is at Walia Walla, where an hour will be spent in the society of the northwest organizations of

German Saengerbunds.

The German visitors are usually slow to return to their special trains when the hour for their departure arrives, and the unusual temptation presented by a meet-ing with their countrymen alarms rail-road men, who fear it will be difficult to make the rest of the schedule. However, a prompt compliance with the running time of the special train is necessary in order that the Yellowstone trip may not

The Northern Pacific Railroad will not be able to carry out its schedule unless the tourists arrive at Spokane on the night of June 5, and this fact has already been impressed upon the visitors. As a result it is expected the usual delays will be omitted at Walla Walla.

se omitted at Walla Walla.

Originally it was planned that a visit
should be made to beet-sugar farms in the
definity of Spokane. This will probably
se impossible, but it is likely time enough will be found to visit the Pullman Agri-cultural College. If such a visit should be paid, it with have to be brief. Prosident Child, of the Yellowstone Park

Prosident Child, of the Yellowstone Park Association, will superintend the park trip himself. He is thoroughly familiar with the conditions in the park, and able to direct the attention of visitors to all the sights that should be seen. Already the Northern Pacific has aroused a great deal of curlosity regarding the park trip by exhibiting colored photographs of scenery, and the tourists, always eager to obtain views, have sought for reproductions to views, have sought for reproductions to forward to Germany

It is not generally known, but most of the films of the kodakers, when filled, are sent to Germany to be developed. When time presents itself, many of them have their films developed at the first stopping-place, but these occasions are exceedingly rare. So the express carries away nu-merous films for Germany, though the kodaks, as a rule, are of American manufacture. With but two hours in New York, the amateur photographers put in their time buying kodak supplies.

The Northern Pacific was unable to show ch of its country, but the officials of that line have made up for this deficiency by putting a mass of literature aboard the visitors' cars. Every point along the Northern Pacific is shown in the literature provided, and as the printed matter is all sent to Germany, this is about as ef-fective a method of advertising a bit of territory as could be devised.

erritory as could be devised.

The visitors were driven about Portland estenday in two carriages, dust preventing a street-car ride. All parts of Portland were visited in the morning, and in the afternoon a trip to Ladd's dairy farm was made. Speaking for his companions. Herr von Fluegge expressed himself as delighted with Portland.

BOOTH DEAD FOR YEARS.

Story of Recent Demise of Lincoln's Slayer Is Without Foundation.

BALTIMORE, June 3.-In connect with the report from Enid, O. T., that John Wilkes Booth, assassin of President Lincoln, died there January is, under the name of David E. George, it is declared by persons familiar with the case that there is no doubt whatever that Booth's body is buried here in Green Mount Ceme-The body now lies buried in the Booth

lot, but without any headstone or mark on the grave.

Clara Morris Did Not Identify,

NEW YORK, June 3.—Clara Morris de-nies the report that she recently identified the body of "George" as Lincoln's as-

Oregon City Teachers Elected. OREGON CITY, Or., June 3 .- (Special.) At a meeting tonight of the Oregon City School Board Miss Addie E. Clark, of this city, was elected superintendent of the public schools of the city for the ensuing year. Mrs. Viola Godfrey was named as assistant superintendent. Miss Clara Bor-ing, of Damascus, and Miss Helen Gleason, of Oregon City, were elected to sup-ply vacancies. Miss Margaret Williams succeeds Miss Nefzger, who has resigned. The board voted a slight increase in the salaries of a majority of the teachers. Miss Clark, as superintendent, will teach the tenth grade.

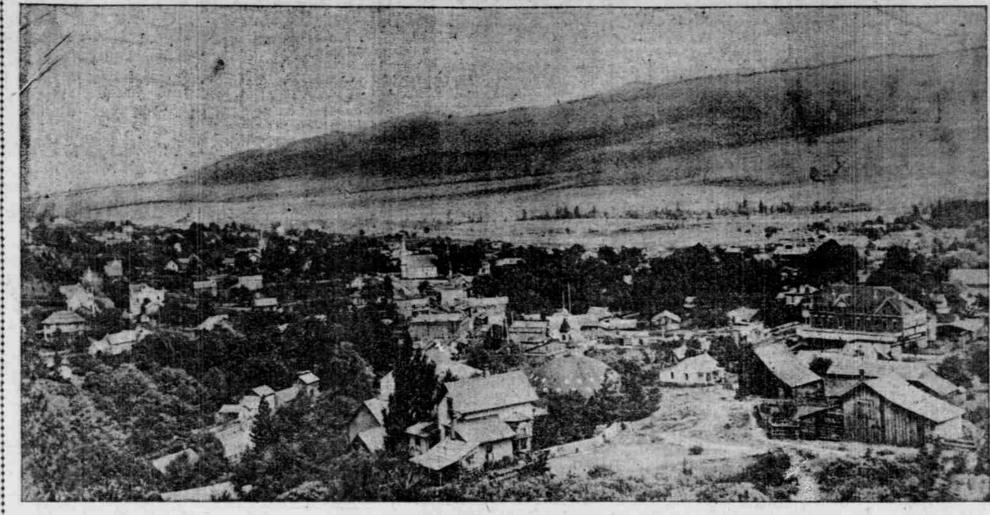

Bid for Eastern Oregon Trade.

BAKER CITY, Or., June 3 -A powerful rival for the Oregon Commercial Com-pany has been formed by the incorpora-tion of the Portland Trading Company, by Charles E. Ladd and Zera Snow, the heavy Portland capitalists. The new company will constitute Huntington as its principal forwarding point, and will establish branch stores in Mineral, Ida-ho; Powder River, Homestead, Pine. Richland and Cornucopia, Or. B. L. Strayer, formerly connected with the Oregon Commercial Company, at Huntington is general manager of the new company.

one of its plans checked yesterday by a

number of poor photographs. It has been planned all along that the committee shall issue a handsome souvenir of the Presi-dent's visit. This will be forwarded to the

members of the President's party, and is intended to convey an idea of the recep-tion at Portland, together with an indica-tion of the character of the Lewis and

Clark Fair. The souvenirs will be of a

It has been discovered that some of the photographers who were commissioned to secure views of the ceremonies at the

City Park and the parade returned poor proofs. Few of them could be used. As a result the committee has been compelled to depend upon the views taken by ama-

teurs. It is well understood that a large number of kodakers secured excellent views of the parade and its attendant features, which would serve well as illus-trations. The press and publicity commit-

tee will pay for such views as may be required, and has issued a general invitation to amateur photographers to submit their

Officials of the Fair are delighted with

the work of the women's clubs of the western part of the state, who urged the Fair upon the German Agricultural Soci-

rair upon the German Agricultural Society's delegates. At every stop the Lewis and Clark Women's Clubs were active in arranging for the receptions, and donated bouquets of flowers for each member of the party, and decorated the cars used. This work was followed by the submission of literature, and from every section something appertaining to the Exposition was given.

The German visitors have treasured all

literature presented to them, and this will be forwarded immediately to Germany. As a result there will be a large amount

of printed matter relative to the Lewis and Clark Fair on hand when the dele-

gates get home, and all of this will be studied.

indirect Slap at Union Labor. .

CHICAGO, June 2.—There is no eight-hour day for the college graduate, ac-cording to Dean Thomas F. Holgate, of Northwestern University. In a speech to the students at Evanston, the dean

highly artistic character.

..........

IT WILL CHANGE AS WORK MAKES

PROGRESS.

Novel Method of Showing What Is

Done-Photographs Wanted for

President's Souvenir.

The model prepared under the direction of Engineer Oskar Huber, which shows the contour of the Lewis and Clark Fair

grounds, has been placed in position at the headquarters of the Exposition This model shows the contour of the grounds

as they exist at present, and is to be

changed as rapidly as the work of grading

and preparing them for the Exposition

Mr. Huber himself directed the work

of preparing this model, for he has studied the art of modeling.

When the surveys were made of the grounds the elevations of different quarters were carefully noted. Subsequently

ters were carefully noted. Subsequently the engineer noted these in preparing his model of the ground. For the first model pins were set upon the scale of 50 feet per inch, denoting the height of different sections. Clay was filled in to the tops of the pins, which denoted the ground levels of the Exposition site. On top of this was poured plaster of paris, and after it had set the mold was taken off. The work

set the mold was taken off. The work

of obtaining a model of the ground was thus made easy. The original model was covered with

oils, so as' to make the finished product

easy to remove from its casing, and then the plaster of paris was poured in upon the obverse model and the finished prod-

It is intended to paint the model so as

to show that portion covered by trees or grazs and the small lakes and bridges which are to be seen upon the Exposi-

As the grading continues, the engineering department will show the progress of the work upon the model. At any time, under this plan, it will be possible for a

visitor to obtain a correct idea of the conditions at the site and to understand

with very little explaining what is con-templated by the directors.

Grading has been commenced and will be pushed to completion as rapidly as

possible. The plateau upon which the buildings are to be erected will probably be cleared off first, and then the remain-

der of the grounds will be made to con-

der of the grounds will be made to conform with the Climsted plans.

At present the model presents a very
rugged appearance. But as the grading
progresses, the top of the plateau will be
leveled, the different roads, walks and
plazas shown and other changes made
which will indicate the character of the
Exposition. As building progresses, this,
too, will be indicated, the buildings being
indicated by plaster-of-paris casts.

The model for the Exposition grounds
was prepared in sections and removed to

MODEL OF FAIR GROUND the headquarters of the company. At that place it was cemented together and remounted in the model-room, where it will The plaintiffs are named in an amendatory act passed by the last Legislature as the Port of Portland Commission, and Banfield and the other defendants are members of the former board named in The press and publicity committee found

the act of 1901. J. Couch Flanders, attorney for the old board, argued that the title of the act of 1963 does not amend the act of 1991, and that it cannot be told specifically from the title what act it does amend.

in force, and the Commissioners serving under it-Banfield, Hughes, McCraken, Selling and Tucker-continue to hold their

offices.

Charles H. Carey, addressing the court in behalf of Driscoll, Adams, Swigert, Pease, Spencer, Willis and Thomas, comprising the new board, asserted that there is nothing in the contention of Mr. Flanders. He called attention to the fact that the title of the act of 1903 is in the exact language of the act of 1901, amending and repealing the act of 1859, and the title of the act of 1902 amended sections 25 and 28 of the 1901 act. It could not be construed otherwise. There were no such sections in the act of 1899, and the act of 1899 was not in force, having been repealed. Mr. Carey said the only fault with the litle of the 1963 law was that the quotation marks had been omitted, that is not properly placed by the illiterate typewriter who handled it, but omission of quotation marks was not important. and not to be taken into consideration by a court in interpreting a law. The new act was plain, and the sections as amended were published in full. The arguments on both sides were brief. District Attorney John Manning and P. L./Willis appeared as counsel in conjunc-tion with Judge Carey.

Cousin of Roosevelt Weds.

NEW YORK, June 3.—Eugene Van Schack, lawyer, clubman, and a nephew from the title what act it does amend. Schack, lawyer, choman, and a neguew The act of 1901, he contended, is not mentioned in the title of the act of 1903, although the act of 1899 is referred to. The attorney argued that the act of 1901 repealed the act of 1899, and, if the act of E. Lee. The bridegroom is said to be a 1901 is inoperative, the law of 1901 remains

WHY DID POLICE DO THIS?

MR. MONTAGUE IDENTIFIED THIEF, BUT HE WAS RELEASED.

Flatly Contradicts Statement of Chief Hunt That He Fuiled to Recognize Pickpocket.

PORTLAND, June 3 .- (To the Editor.)have just noticed in The Oregonian of Friday, May 29, 1960, an interview with the Chief of Police, in which he, speak-ing of the arrest on March 27 of Fred Russell for pocket-picking, says: was confronted with the man who lost the money and was not recognized by him, consequently was discharged." As it was on my information to the police that Russell was arrested, and as I positively identified him, both before his arrest and after his arrival at the police station, I think it was due me to make this explana-

On March 27 my wife's father, R. C. Miller, who is quite old and very lame, with his daughter, arrived on the Southern Pacific train and got off at East Mor-rison street, where I met them. We started to board a car, and while doing so the actions of three men who were pushing every one around attracted my attention, so that I watched them closely. On getting home, our conversation turned to this incident, and pocket-picking being mentioned, Mr. Miller felt in his pockets

mentioned, Mr. Miller feit in his pockets and said his purse was missing.

I immediately reported the loss to the police station, with a description of the leader in the scuffle at the car. I was asked if I could identify the man, and if I would come over if necessary. The detective to whom I was talking informed me he had seen a similar performance on me he had seen a similar performance on another car and recognized it as a pick-pocket trick. In a short time I was called to come at once, as they located a suspect. I did so, and positively identified him before the arrest. After a second identification at the City Jail, I asked what they wanted me to do. The detectives said "bring your me to do. The detectives said "bring your sister (Miss Miller) to morrow, and if she can identify him also, we will have a good case." The next morning (Sunday) we went to the police station, but met one of the detectives outside, who told us the detectives outside, who told us it would not be necessary at this time to identify him further, but he would send for us when needed. We dropped the matter at that, supposing the police would file the charges. On Tuesday afternoon I was told that the money had been returned, and to call at the police station for it. Arriving there, I was told to call or the police station for it. for it. Arriving there, I was told to cal on Russell's attorney for the money, and did so. He informed me that on Monday morning he had paid the money (222.73) to the Chief of Detectives, and in a few to the Chief of Detectives, and in a few hours it was returned by him with the remark that the "Chief would not allow a felony compromised, and that he had returned the money to his citent."

The police authorities, of which Mr. Hunt is the nominal chief, held Russell from Saturday night until Tuesday morn-ing without bringing him to trial, nor was the District Attorney informed of the facts in the case until the following Fri-

was the District Attorney informed of the facts in the case until the following Friday, when I informed him of them.

Although they (the police) well knew where I was they did not inform me about the money being returned until 38 hours after the offer was made, and haif a day had elapsed since Russell had been released.

IT MEANS BUSY TIMES

mmense Business Follows Announcement of Gilbert Brothers' Bankrupt Stock Sale.

A few more days of sales such as wit-

A few more days of sales such as witnessed at Ellers Plane House yesterday will come pretty near closing out the entire Gilbert Brothers' stock, advertised in yesterday's Oregonian. It is certain that by the end of the allotted ten days there will be mightly little left in the way of selection. From the time the doors opened yesterday until late into the night everybody about the great store was kept constantly on the move, waiting on catomers. They came from every direction in town and out of town, for the purpose of buying, provided things were found as advertised. That customers were suited in shown by yesterday's big sales record. The following is a partial list of instru-
