

TWO FIRMS REPORT

Comply With Conditions of Corporation Law.

OTHERS MUST BEFORE JUNE 30

Delinquents Liable to a Fine of \$100, and May Not Bring Suit Until They Pay Up-Tax Payable July 15.

SALEM, Or., June 3.—(Special.)—Brown & McCabe, stevedores, is the name of the corporation which has been formed by the first to file an annual report under the new corporation law. Its place of business is Portland; capital stock \$100,000, all subscribed and paid up; John A. Brown, president; James W. McCabe, secretary and treasurer. Its annual license fee will be \$50.

The Salem Abstract & Land Company, Salem—George E. Waters, president; F. W. Waters, secretary, and F. R. Waters, treasurer—is the second to file a report. Its capital stock is \$20,000, all subscribed and paid up. The license fee will be \$20. This synopsis of the first two reports filed in the office of the Secretary of State indicates the facts that are required to be stated by corporations. The blanks prepared by Secretary of State Dunbar are very concise, and yet complete, avoiding all unnecessary verbiage, and yet providing for all the information required by law. The form of report is so simple that no one could make a mistake in filling it out.

First comes the name, street, city and county address of the corporation; the names of the president, secretary and treasurer, with their addresses; the date of the annual meeting, amount of authorized capital stock, amount subscribed, amount issued and amount paid up. This, with the affidavit as to the truth of the statement, completes the report. At the top of the blank is a schedule of fees, so that every corporation will have before it the means of computing the amount which will have to pay, and there is also the information that the fee must be paid to the State Treasurer within 30 days from July 15.

Secretary of State Dunbar has procured the most up-to-date system of records for the corporation department of his office. The report of reports filed will be kept in a set of books with removable sheets. Each corporation will have a page by itself, and the record of a corporation can be kept upon one page for 48 years. If a corporation goes out of existence, the page can be removed from the book and filed away, thus relieving the records of dead matter. The pages are arranged alphabetically, so that the record of any corporation can be found in a moment.

All Oregon corporations still in active business and desiring to continue their corporate existence should send to the Secretary of State at once for their report blanks. The reports must be filed by June 30. Delinquents are liable to a fine of \$100, and cannot bring suit during their delinquency. The Secretary of State has no record that shows which corporations are still in existence, and blanks are sent only to those who ask for them.

After this year he will have a record and will send out blanks every year without a request being made. The reports must be filed by June 30, and the license tax paid within 30 days after July 15.

NEW MAP OF CRATER LAKE

Geological Survey is Now Ready to Meet the Increased Demand. OREGONIAN NEWS BUREAU, Washington, June 3.—Since the Southern Pacific Railroad has begun organizing excursions to Crater Lake, Or., the demand for a map of the region has greatly increased, and to meet this demand the Crater Lake special map, prepared by the United States Geological Survey, has been brought up to date and so extended as to represent the whole of the Crater Lake National Park, on the scale of one mile to an inch. The map is now ready for distribution.

The elevations and depressions are shown by contour lines, and at intervals of 100 feet. To denote the very steep inner slope of the great depression containing the lake, the contours are crowded close together; to show the outer gentler slope they are far apart. The soundings of the lake are marked on the map, and its greatest depth, nearly 2000 feet, makes it the deepest fresh water in the United States.

With his wife he was traveling by wagon, and on this account he has not been apprehended sooner. Also that he cashed bogus checks.

After his arrest he was handcuffed and placed on his back to be taken to Glendale. He became sulen and deliberately fell from the saddle, breaking his right arm just above the wrist.

CRIPPLE SAVED

A Wonderful Transformation Quickly Enacted in Portland.

The following is the experience of a citizen of Portland, and may be certified at any time by calling on the relator: John Gotcher, of 237 North Nineteenth street, now retired, says: "I have had kidney trouble for twenty years, and if I did not suffer constantly I never knew the moment when exposure, overexertion or cold would bring on an attack. I have been so bad that I could not straighten up to my full height for three weeks at a time. I often walked around for weeks with a cane, and any one who saw me would naturally think I was crippled for life. As if backache in its worst form was not enough trouble with the kidney secretions existed—sometimes a retention and at other times too frequent action—and they were accompanied by pain. I was in pretty bad shape when I went to the Lane-Davis Drug Company's store, corner of Yamhill and Third streets, for Doan's Kidney Pills. Now, I want it thoroughly understood that Doan's Kidney Pills so improved my condition that I felt almost like another person. Should there be a recurrence of the trouble, I will surely try Doan's Kidney Pills in preference to any other remedy, for I know they can be depended upon."

SCIENCE SCORES AGAIN

A Preparation That Will Destroy the Dandruff Germ Discovered. Finally the scientific student has discovered a certain remedy for dandruff. When it first became known that dandruff is the result of a germ or parasite that digs into the scalp, and saps the vitality of hair at the root, causing falling hair and baldness, biologists set to work to discover some preparation that will kill the germ. After a year's labor in one laboratory, the dandruff germ destroyer was discovered; and it is now embodied in Newbro's Herpelide, which besides curing baldness and thinning hair, speedily and permanently eradicates dandruff. "Destroy the cause, you remove the effect." For sale by all druggists. Send 19 cents in stamps to The Herpelide Co., Detroit, Mich.
