WILL TRAVEL HOT SANDS

MANY NOVICES WILL ENTER MYS. TIC SHRINE.

Grand Lodge of Masons Soon to Meet -Shriners Will Follow With Gorgeous Banquet,

"Tis Shrine night, dearest; don't sit up;

I may be late, you see; I hardly know what friends I'll meet— And, then, I have my key."

"All right," she answered, with a smile

Her wonis were always few; But she suggested, ere I went, That I take the keyhole, too!

Seventy-five novices will meet the came at the continuous banquet of the Ancient Arabic Order, Nobles of the Mystic Shrine, at the Masonic Temple, Oasis of Portland, Desert of Oregon, on Saturday evening, June 15. Over 400 of the nobility will partake of the feast, which will commence at 9 o'clock Saturday night, and actude when Old Sol glids the horizon with sufficient light for the jolly Shriner to locate the funnel that will guide the key safely to the lock. On June 10 the Grand Lodge of the Masons will convene sting two consecutive days and nights. Delegates from all the lodges of the state, as well as many visiting members, will join in the Masonic festivities. The Mystic Shriners will, of course, remain another day, in order to celebrate with their brethren on Saturday night.

Invitations are out for the event, which will surpass anything of the kind pre-viously given in the state by the Shriners. Following is the invitation:

"Al Kader Temple, Ancient Arabic Or-der, Nobles of the Mystic Shrine, Oasis of Portland, Desert of Oregon: "Nobles: Es Selamu Aleikum! For

some time past we have observed a spirit some time past we have observed a spini of disquietude pervading the hosts of Al Kader Temple. The Demon of Restless-ness possesses the Sons of the Dezert. They yearn for a pilgrimage to the Sacred City, that they may there offer sacrifices at the Holy Shrine, bathe in the rivers of milk and water and drink of the Foun-tain of Perpetual Youth. Moreover, a clamorous band of unregenerates have exembled without the gates of our Goodly Temple seeking admission and craving permission to join our caravan in its pil-grimage to Mecca. Therefore, it is heredecreed that there will be a business and grand ceremonial session at Al Kader Temple, at Masonic Hall, Portland, Or., Saturday, June 13, 1963, corresponding in the Arabic calendar to the 17th day of the third month, Rabih ul Awwal, year of the Hegira, 1221.

"In memory of Mahammed (Posthu-mous), son of Abdoo'llah and Ameenah. On the night he was born the palace of Khosroes, King of Persia, was shaken and 14 of its turrets fell; Persian sacred fires were extinguished for the first time in 1900 years, and the lake Sawak sank. In ory also of Sittah-Ramalah-Ummah-Habeebad (daughter of Aboo-Soofayan, widow of Abaydullah), teath wife of the Prophet (Allah favor and protect him!) This day we celebrate the feast Aysh'sol-Bedawee, when the consecrated

broad is distributed to the poor.
"Remember Yawmoo'l-Hashr, the Great
Day of Final Gathering. So be friendly
with your neighbor, and your neighbor's dog! Quit chewing the rag! We are here tomorrow and gone today! When we are dead, we'll be dead a long time. So come and enjoy yourself, and don't forget your

At the present time the Shriners boast a membership of 581 in Oregon, an in-crease of 206 since the last grand banquet. As over 400 of the 581 members have announced their intention of attending the festivities, the banquet committee has been at a loss to know how to seat the guests. No caterer in the city has dir ing-rooms whose seating capacity would accommodate more than half the Shrin-

They originated the plan that promise to make the banquet the most successful affair of the kind ever given by the Shriners. A continual banquet six hours of teasting. Tables with covers laid for 200 will occupy the spacious dining-hall of the Temple. Ever-waiting waiters will grant the wishes of the banqueters. Courses—there will be none. The guest will partake of that first for which he craves. His first course may be ice cream and his last one blue points. Each and every one will suit his own tastes. When

ever the pangs of hunger bid him he will repair to the festive board. During the entire evening the ceremo

TO START UNION LAUNDRY Workers Will Run Plant in Opposition to Employers.

perative hand laundry is to b started Monday, according to the state-ments of prominent laundry-workers. When sufficient money is in the treasury regular laundry machinery is to be in-stelled and an opposition laundry run by the union on supposedly union principles will be in full blast.

other unions of the city promis their support. At the meeting of the Federated Trades Council last evening the Longshoremen's Union delegates reported their union would contribute \$250 to the cause. It is expected that other unions will also join the co-operative

Just where the laundry establishment is to be situated is kept a profound secret by the laundry-workers. It is understood however, that the small hand laundry on Russell street, Albina, is to be enlarged. The plan of those interested also includes the purchase of the machinery of a laundry now unused in one of the Valley towns. This is to be installed and a regular steam laundry is to be owned and operated by the unions of the city. The barbers have officially declared that they the barbers.

H. Meyers, secretary of the Laundry-Workers' Union, says that drivers will be ready Monday morning to receive bundles. Some half dozen members of the Laundry-Drivers' Union did not agree with the ma jority in practically withdrawing from the Federated Trades Council, and these will doubtless go to work for the co-operative laundry.

TWO UNIONS WITHDRAW.

Lathers and Sheet Metalworkers De-

sert Building Trades Council. As further evidence of the breaking up of the Building Trades Council it was announced yesterday by the officers of the two unions affected that the sheet metal workers and inthers have withdrawn from the affiliation. It is probable that one or more of the remaining unions will follow their example within a few days. or more of the remaining unions will follow their example within a few days.

The Lathers' Union decided at a meeting Thursday evening to pull away from the council, but their decision was kepit a secret until yesterday. The action of the sheet metal workers was taken at a meeting yesterday.

The members of the two unions which have withfrawn decline to give any definition.

have withdrawn decline to give any definite reason for their action. They allow it to be understood, however, that they are not satisfied with the way the affairs of the Building Trades Council are conducted under the present management, and that they believe their condition as work-ing men can be bettered by leaving the organization which once managed the

building trades of the city. To all practical purposes the lathers have been out of the council for the past week, and the sheet metal workers have not been far behind them. Believing that more could be accomplished by separate effort the two unions have simply followed the example of the plumbers, the brick-layers and the plasterers and left the council. For the past week the regulation of the council requiring that no union man should work by the side of a nonunic man, even of another craft, has been fre ly disregarded. The call for a union card

has been heard but little of late.

The electricians are almost the sole ex-seption to the rule. H. G. Greens, the president of the Electrical Workers' Union, is also the business agent of the Building Trades Council and drawing a salary of \$25 a week. If the council split there would be no business agent and no \$25 a week. So Greene has done every thing in his power to keep the Electrica Workers' Union within the council corral Thus far he has succeeded, but on the other hand, practically all the members of the union have been either locked out or purposely placed upon unfair buildings

The office of business agent has not yet been abolished, but it is probable that at the next meting of the council some action toward reorganization will be "Don't get cold feet! Our brand of hot taken. First of these will be the cutting out of the business agent job. Then a committee is to be appointed to formulate a new organization; A general shakeup of officers will also occur. Several of the present officers will be thankful when this is done. Not in control themselves, they have been outspoken against severa

loves of the true leaders. Unless reorganization is quickly made the Laborers' Protective Union will doubt-less be the next to jump the fence. Ever since the laborers failed to get the highe scale of pay for which they asked, and the resulting mix-up, nearly all the other unions have been throwing mud at the laborers. Now the wheelers of brick an mixers of mortar believe they see chance to get even with their carping will leave the Building Trades Council.
The press committee of the Lathers'
Union has made the following statement
in regard to the withdrawal of their union

from the Building Trades Council:
Portland, Or., June 5, 1963.—To the
Public: Local Union, No. 16, of the Amalgamated Sheet Metalworkers' Alliance,
the severed its connection with the Building Trades Council of this city. In taking this step we have carefully considered all questions involved.

"All disputes that may arise hereafter

stween this union and members of the Master Sheet Metalworkers' Association will be settled by a board of arbitration. "Signed by committee,
"C. E. HOLZER,
"HENCYE

Wright, and take three of Chamberiain's s

STUDENTS TAKE A TOUR

THIRTY-THREE YOUNG MEN VISIT STOCK PARMS.

Apply Lessons Learned at State Agricultural College in Animal Husbandry.

Thirty-three students of Oregon Agri-cultural College are in the city, led by Dr. James Withycombe and Professor F. L. Kent. They are on a tour of several of the best stock farms, filling out by ob-

jective study what they have learned at college about animal husbandry. "These young men," said Dr. Withycombe last night, surveying proudly a group of students, "these young men represent about 20 counties in the state. They are learning how to judge livestock. It would surprise you how quickly they acquire fa-cility in picking out the merits and de-fects of animals. It means a great deal to the development of animal husbandry in Oregon that young men who will con-tribute to that development are receiving this training."

Dr. Withycombe is director and agricul-turist of the experimental farm at the college, and Professor Kent is dairy instructor and assistant agriculturist. Most of the young men are freshmen. From Professor Kent they have learned the history and classification of breeds. From the same instructor they have learned also the characteristics of each breed, will not allow the shop linen to be sent to any but a union laundry, and those at that a union laundry, and those at the head of the co-operative scheme are counting somewhat upon the support of animals by means of illustrated charts animals by means of illustrated charts oreliminary to the work of practical sudging. During the past month they have been exercised in field practice by Dr. Withycombe, assisted by Professor Kent. During the first two weeks they did stunts at scoring animals at the experiment farm. The next week they ped animals according to comparative t. This week they have continued the latter exercise at several model stock

Yesterday they visited Richard Scott's farm and Crystal Spring farm near Mil wankle. At the Scott farm they saw pracwankle. At the Scott farm they saw prac-lical dairying, and judged some fine live-stock, including Shorthorn cows of the dairy type, Cotswold and Dorset Horn sheep, and Yorkshire swine. At Crystal Spring farm they judged Jersey and Querusey cattle and Berkshire swine. To-day the students will visit Harel Fern farm of the Ladd estate to inspect dairy farm, of the Ladd estate, to inspect dairy Then they will hurry back to

"We have been gone two days," eaid the doctor, "and that's all we can spare. You ee the students are getting behind in their other college work. We regret that we are unable this time to visit other typical herds containing Hereford, Aberdeen, Angus cattle, and such dairy breeds as Holstein, Red Polled, Ayrishire and Brown Swiss, of which Oregon has sever-al distinguished herds."

Thursday the students visited J. B. Stump's farm at Monmouth, where they inspected Cotswold and Lincoln sheep, Jersey and Shorthorn cattle, Berkshire swine and Angora goats. Here they saw instructive forage culture in clover and vetches. They viewed a 40-acre tract of clover whereon 460 sheep had been graz-ing for a month, and the clover was neary knee high in places. This was an old

ty knee high in places. This was an old grain field, yet wonderfully fertile.

"Great areas of land just like it are in this Valley." said the doctor, "and if worked right they can produce immense quantities of forage." The students saw also a remarkable exhibition of alfalfa. "And yet," said Dr. Withycombe, "it was not so very long ago that clover and that clover and the cover not so very long ago that clover and alfalfa were pooh-poohed in this Valley."
Thursday afternoon the party inspected
Five Oak Farm of Charles E. Ladd, at
North Yambill, where they judged Shorthorns, of the beef type, and Cotswold, Shropshire and Southdown sheep

State Senator R. A. Booth, of Bugene, gave \$29 for the expenses of the party. Or. Withycombe hopes that another pub-ic-spirited citizen will do the same next The Southern Pacific allows the party to travel on half fare. H. Hirsch-berg, president of the rallroad between independence and Dallas, gave free transportation over his line.

"Now, let me show you," said the doc-tor, "how well the students practice what they have learned." Whereat he produced a card showing surprising unanimity of practice. "At Oak Hill farm I selected animals which were rather hard to judge, best animal. At Crystal Spring farm 26 out of 23 did the same.

The sugacity of the students is shown by the following exhibit: Crystal Spring gradings by students:

TEAMSTER DROWNED.

Arthur G. Chamberlain Dies While Trying to Save His Team.

The body of Arthur G. Chamberlain, who was drowned near Corbett's Station Thursday, was recovered yesterday by the lad's father and brother. The body was found in the river near the scene of the accident. Arrangements for the funeral, to be held at 2 P. M. today at Corbett's Station, were

ompleted yesterday. Young Chamberlain, a lad of 18, was employed by P. J. McGowan & Sons, can nerymen, as a teamster. His horses be came frightened and ran away, heading toward the river. The horses pluaged into the current and swam about 300 feet from shore, when they were dragged down. Young Chamberlain, anxious to save the team, swam out toward the horses, but when they went down he turned and tried

was drowned. The accident occurred at Sand Island, opposite Bridgi Veli Falls, about 6 P. M. Thursday. The body was recovered at 8 o'clock yesterday morning.

WITNESS PUT UNDER BOND Another Step in Proceedings Against Miss Ware and Others,

Guy Huff, one of the most important witnesses for the Government in the celebrated cases of conspiracy and forgery now pending against Miss Marie L. Ware, lately United States Commissioner at Eugene: Horace G. McKinley, timber land speculator, of this city, and the mysterious John Doe, was taken before United States Commissioner Sladen at his office in the Commissioner Sladen at his office in the Government building at 7:30 last evening on a warrant issued out of the Federal Court and placed under a \$500 bond to appear and testify at the preliminary hearing of the case on June 19 at 2 P. M. The required bond was furnished by Dan W. Tapley and Thomas Williams, of this city, and Mr. Huff was released immediately.

This action was taken under a section of

Federal statutes which empowers the art to require the attendance of wit-sees by process where there is a probaility of such witnesses leaving the jurisdiction of the court. Just what the Gov ernment expects to establish by Huff's testimony is unknown, but he is expected to furnish much of the testimony against the accused parties, and it was at the request of United States Attorney Hall that

quest of United States Attorney Hall that the action was taken.

The preliminary hearing before Captain Sladen is set for Friday, June 13, and many sensational features of the case are ex-pected to be developed at this time.

Mr. Huff came here from his home at Eugene on the evening Southern Pacific train, and is registered at the Imperial.

THINGS TO KNOW About Coffee and What It Does,

"Reing a very hard worker and of an extremely pervous temperament I fell into the habit of making coffee do for both food and drink when my work was

oushing me and my appetite poer," says trained nurse.
"This I would do for a day or two and then be prostrated with heart trouble, fluttering, faint spells and other disagree-able feelings. One day I was persuaded to try Postum Food Coffee in place of coffee. I liked the Postum as well as the coffee and I found I could drink as much of it and as often as I wished, and instead of knocking me out as coffee used to I steadily gained strength. I had no more trouble with my heart, no more bloating, and no more stomach sickness. I have now been using Postum 18 months place of coffee which means that have given up coffee and sickness for all time. I will stick to Postum and be well in the future.

"My mother had been a great coffee-

drinker from her youth and had suffered

all of the minor coffee ills, such as stom-ach trouble, heartburn, severe headaches, etc. She tried Postum, but did not make it right. Then I made some for her, be ing it 15 minutes and did not tell her what it was, she wanted to know what brand of coffee it was that was so delicious. I had taken it out of her own box of Postum and when I told her so she was much surprised and pleased and has been drinking it ever since with the result that her coffee like have disappeared and she is now healthy and contented.

"One of my patients (I am a trained nurse) is a great sufferer from ulcerated stomach and sometimes she does not eat a mouthful of food for several days. At over her attacks much quicker, is stronger and the attacks are less frequent than formerly. Her stomisch seems to be get-ting better and we are quite certain that Postum will soon cure her completely.

"Another patient is a splendid example of what Postum will do. Her health had been very bad for three years, and a year ago she was a wreck from nervou year ago she was a wreck from hervous prostration and the worst form of dys-pepsia, bloating, heart trouble, etc. I made her leave off coffee and all other drinks and gave her Postum and she im-proved immediately. She is now able to attend to her home and says that Postum has given her a new lease of life. She feels like a new woman and is getting fat.

"I must tell you of one more case, a person I nursed through what the physicians termed a morphine break-down. This woman's stomach revolted at sight or mention of food, and she took absolutely nothing but strong coffee. I knew her heart would not much longer stand up under coffee and I told her husband to get PORTLAND, June 5.—Maximum temperature, 50 deg.; ture, \$1 deg: minimum temperature, 50 deg.; tree reading, \$11 A.
