New Summer GRENADINES First Floor—Annex A YARD 63c Instead of \$1.25

One of the best ways in the world to judge a store's goods is to look over the grenadines.

If there are only a few in poor patterns, that store doesn't know goods.

We have consulted with the most famous grenadine makers, combined our ideas with theirs, and, as a result, have a beautiful collection of embroidered grenadines for a Reliance Sale Jubilee in the Dress Goods Section, we shall sell, while they last, a lot of beautiful grenadines in royal, navy, brown, and black colorings, with beautiful white and colored designs, dotted and figured in various sizes of polka and figures, 24 inches wide. They are our regular \$1.25 values but are instead, this week, or while they last, per yard 63c

THIS MORNING "UNCLE OSH" OFFERS

A Penny for Your Thoughts!

How to keep cool today! Right? Begin at the beginning—as near to the Fiji Islanders as you can get and put on thin underwear—1st fl.

DR. DEIMEL'S LINEN MESH if you can tear yourself away from old fog notions, \$3.25 a garment for the original brand which is the best brand. However, if \$3.25 "per" is a little more than you had thought of paying, we've provided several more avenues of escape from a "heat-stroke." One of those is getting to be a well beaten path from much traveling of travelers who seek cool climates at little cost—"tis named "SPARTAN." 'Tis a substitute for Dr. Deimel's linen mesh and we believe, when in the course of human events it becomes necessary to send a substitute, in sending a good one; so we go to Dr. Deimel himself, who makes the real thing, and get him to prescribe for us. He puts up the "Spartan," and this prescription is guaranteed to cure anyone who will take it, of going to the poorer "quack" doctors who don't know how to make the original, so cannot judge how to provide the substitute. HOW MUCH DOES "SPARTAN" UNDERWEAR COST? Well, it sells regularly for \$2.25 a garment, but seeing as how this is a hot week, we took it into our heads to offer you this cool proposition—"SPARTAN" LINEN MESH UNDERWEAR this week only for, garment, \$1.69.

Another Summer Resort Discovered

Low rates over our road if you'll travel this week. We bo't a case of MEN'S BALBRIGGAN MESH UNDERSHIRTS and DRAWERS, silk-trimmed, pearl buttons on shirt, French bands on drawers from a good mill, but like other mills who employ human hands, they sometimes make little slips—we've an eagle-eyed fellow at the head of our men's shop who never lets the guilty escape. During a critical examination he discovered a few flaws—a stitch dropped here and there—a stitch (dropped) discovered in time by our underwear detective saves you from paying \$1 each for the garments—you pocket the loss—the mill stands for it. You may see them thro' the panes in our windows—you may feel a cold chill run down your spine by donning them at, per garment, this week 57c

DID YOU SAY 50c? Did you hear you murmur softly to yourself that 50c "PER" or a dollar a suit for Summer Underwear was enough to pay? All right, we're right here with the goods—mesh again, too—why?—because mesh in English means cool—cool comfort for hot days, and this store carries for all kinds of wants—another reason why it's "different"—so we've provided a "LINENETTE" mesh undergarment for men. It's all cotton—every thread—why is it cotton? Because we tell the truth and don't call cotton linen or even silk, but plain cotton—no 1-10-0-n, cotton, and cotton is cool, "comfy," and wears well—pays to tell the truth—pays you to read it—we often wonder why other advertisers don't use it more—ever tho't of it? Now the price of this underwear is not "different" again, see? we got the price at another store and made it over to 30c for this store—39c

OPENS WAR ON ARABS

France Bombards a Stronghold in Algeria.

MOVE NOT ONE OF CONQUEST

Powers Are Assured That a Desire to Punish the Rebels for Attacking Governor-General is the Only Object of Fighting.

BENI-OUNIF, Algeria, June 3.—The French artillery opened a preliminary fire at 5:30 o'clock this morning on Figiug, the stronghold of the rebellious Zenagama tribesmen, who recently attacked and tried to ambush Governor-General Jonart and his escort, of whom 13 were seriously injured. The actual bombardment began at 7:30 o'clock and lasted until 11 A. M., when a great destruction of houses had been wrought. The mosque was destroyed, and it is believed a great number of natives were killed.

At 9:30 A. M. the French troops occupied Juleve Hill and another eminence, both strategic positions, by a surprise movement. From these hills excellent work was done, the medians shells making a big breach in the ramparts and destroying a multitude of houses. Finally the fire was concentrated on the mosque, which was much venerated, and the edifice was blown to pieces. At 11 o'clock the French guns were withdrawn to Ennan-Eu-Dar, where General O'Connor was awaiting offers of submission when this dispatch left. Throughout the engagement there was no loss on the French side. The French artillery fired 600 shells at the town. At 2:30 this afternoon an envoy from the Amser of Figiug arrived at this place. It is possible, if the Figiug tribesmen do not come to terms, other villages in the oasis will be bombarded. The expedition will rest tomorrow.

The bulk of the population of Figiug is expected to be friendly to the French, as neighboring tribes are assisting in the operations of the punitive expedition. France has formally notified the powers that she has no intention of taking Moroccan territory, and will only punish the Arab tribes who attacked General Jonart. General O'Connor was instructed to give the women and children of Figiug an opportunity to leave the town before the bombardment. A friendly Arab courier bearing a notification to this effect was killed while carrying the message.

VATICAN IN A QUANDARY. Loubet's Visit to Rome Promotes to Shutter Church Precedent.

ROME, June 3.—The official announcement of King Victor Emmanuel's visit to Paris and President Loubet's return visit, although foreseen, has produced considerable impression at the Vatican, as President Loubet will be the first ruler of a Catholic country to visit Rome officially since the fall of the temporal power. By

the exercise of all kinds of pressure, the Holy See has prevented Catholic rulers from visiting the Quirinal. President Loubet will be the first to break this rule, and the question how the Vatican will treat him, especially in view of the present situation in France regarding the religious orders, is keenly discussed. There are two currents of feeling at the Vatican. The uncompromising element insists that the President shall be refused admittance to the Vatican, while the conciliatory section wishes to find a way to arrange the matter, arguing that the prohibition to come to Rome is only for Catholic sovereigns, not for Presidents of Republics, who, although ruling Catholic countries, may themselves be non-Catholics.

The visit of the King of Italy to Paris is considered as a great success for the French Ambassador to Rome, to whose diplomatic ability it was principally due.

BRITISH CABINET STIRRED

CHAMBERLAIN'S LETTER ON PREFERENTIAL TARIFF TOO STRONG.

Premier Balfour Only Consented to an Academic Discussion—Situation is Extremely Tense.

LONDON, June 3.—The interest in the proceedings of Parliament tonight was secondary to that shown in the lobby discussions regarding the prospects of the finance debate which takes place tomorrow, attention centering on Mr. Chamberlain's amendment to the finance bill opposing the remission of the tax on wheat. Much uncertainty still prevails as to whether the government will permit any extended discussion on the government's general finance programme, but it is thought likely that the debate will be closely limited to the wheat tax. A cabinet council was summoned this afternoon to consider the situation. It is understood the Ministers took exception to Mr. Chamberlain's letter to a working-class publication yesterday, which is regarded as definitely settling the Colonial Secretary to the policy he enunciated, thus going far beyond Premier Balfour's position, as revealed in his speech prior to the adjournment of the House, which only committed him to an academic discussion on the subject of the preferential duties. There is no doubt that the situation is extremely tense.

MRS. EDDY ENTERS DENIAL. She and Not Emerson is the Originator of Christian Science.

CONCORD, N. H., June 3.—Recent claims that Ralph Waldo Emerson is the author of Christian Science have called forth the following statement from Mary Baker Eddy: "To whom it concerns: I was early the pupil of Miss Sarah J. Bowdell, the principal of Sanborn's Academy of New Hampshire, and finished my course of studies under Professor Dyer H. Sanborn, author of Sanborn's grammar. Among my early studies were Comstock's Natural Philosophy, Chemistry, Hall's Rhetoric, Whitley's Logic, 'Watts on the Mind and Moral Science.'"

"At 16 years of age I began writing for leading newspapers and for many years wrote for the best magazines in the South and North. I have lectured in large and crowded halls in New York City, Chicago, Boston, Portland, Me., and at Waterville College, and have been invited to lecture at London and Edinburgh. "In 1831 I started the Christian Science Journal, and for several years was the proprietor and sole editor of that journal. In 1861 Judge Hanna became editor of the Christian Science Journal, and for ten subsequent years he knew my ability as an editor. In his recent lecture in Chicago he said: "Mrs. Eddy is from every point of view a woman of sound education and liberal culture." "Agassiz, the celebrated naturalist and author, said: "Every great scientific truth goes through three stages. First, a people say it conflicts with the Bible; next, they say it has been discovered before. Lastly, they say they have always believed it." "The first attack upon me was: 'Mrs. Eddy misinterprets the Scriptures; sec-

ond, she has stolen the contents of her book of Science and Health, with Key to the Scriptures from one P. P. Quimby, an obscure, uneducated man, and he is the founder of Christian Science. Falling in these attempts the calculator has resorted to Ralph Waldo Emerson's philosophy as the authority for Christian Science. Lastly, the defamer will declare as honestly 'I have always known it.' "I am rated in the National Magazine (1902) as standing eighth in a list of 22 of
