of vegetation. Winfor wheat arew well during the week, but on the northern slopes it is a rather thin and poor stand. It is heading out quite gen-erally, and in some localities it is jointing. Spring wheat, harley and oats are growing northy on Summer fallow, but are not doing so well on Spring plowing, and need more rain. Clover is in bloom. More, corn and pointoes are doing finely since the warm spell began. Alfairs is being cut in the irrigated districts. Meadows and postures look well. A good stand of sugar beets is assured in Bookame County.

## Idaho Crop Report,

The Idaho weekly crop report eays:

The Idaho weekly crop report ears: All fruit crops made rapid altrancement dur-ing the week; in more elevated districts in the southeastern pair of the state, fruit crees and Sake River Valleys, in Southwestern dashe, early cherries are thesing, and mar-dense are well supplied with strawberries. Or simost the entire state, the condition of small scain is highly satisfactory: cool states the prain to stool well, resulting in southwester the south estimate the season has nearly cherries are well during the states the prain to stool well, resulting in the state serious injury to wheat in seo bar of Nex Perces County. The week has been and the state in storks after are reported in theriting condition; sound she has the prain the state the southest

cattle are reported in theiving condition; some sheep remain to be abeared in the southeastern counties.

## Yakima Hops Doing Well.

NORTH YAKIMA, Wash., June 10 .- iSpestal.)-A pecultar condition exists at the present time among the hop interests of this valley. The growers have been reporting intely that there would not be over 80 per cent of a crop, owing to the fronts early in the season that cut down the young vines. But an examimation made during the last week by one of the leading buyers of the county reveals the fact that there will be almost a full crop this year, unless something unforescen occurs. He datted practically all the pards in the valley. and found them in good condition. The front did not hurt the vines in the least, and there is no vermin to interfere with the development of the hop. One contract was made this week It was from Nos Cuillerier to O. W. Kennedy & Co., of Clinton, N. Y., and calls for 5000 pounds of 1903 crop at 16 cents.

## Hop Exports and Imports.

The exports and imports at the port of New York for the week ended June 5 or as follows:

	bales. 2,608 . 18,374	Exports to Europe, bales, 547 34,847	Imports from Europe, bales, 27 12,445
